Revue Historique Des Armees 1974 No4:

British Military Intelligence in the Crimean War, 1854-1856 Stephen M. Harris, 2018-12-07 This is a study of the British military intelligence operations during the Crimean War It details the beginnings of the intelligence operations as a result of the British Commander Lord Raglan's need for information on the enemy and traces the subsequent development of the system

The French Secret Services Douglas Porch, 2003-11 Chronicles the development of the French secret services in the modern era asks some fundamental questions about what France expected and expects from them and offers a assessment of their role and influence in the state and the military

The Munich Crisis, 1938 Erik Goldstein, Igor Lukes, 2012-10-12 Most of the works on the crises of the 1930s and especially the Munich Agreement in 1938 were written when it was virtually impossible to gain access to the relevant archive collections on both sides of the Iron Curtain This text studies the Czechoslovak German crisis and its impact from previously neglected perspectives and celebrates the post Cold War openness by bringing in new evidence from hitherto inaccessible archives

Great Britain, France, Italy and Germany in a Postwar World, 1945-1950 Josef Becker, Franz Knipping, 2011-11-02 No detailed description available for Great Britain France Italy and Germany in a Postwar World 1945 1950

Empires of Intelligence Martin Thomas, 2007-10-09 How did Great Britain and France the largest imperial powers of the early twentieth century cope with mounting anticolonial nationalism in the Arab world What linked domestic opponents and foreign challengers in the Middle East and North Africa Syria Palestine Transjordan Iraq Tunisia Algeria Morocco and Egypt as inhabitants attempted to overthrow the European colonial order What strategies did the British and French adopt in the face of these threats Empires of Intelligence the first study of colonial intelligence services to use recently declassified reports argues that colonial control in the British and French empires depended on an elaborate security apparatus Martin Thomas shows for the first time the crucial role of intelligence gathering in maintaining imperial control in the years before decolonization

A Cumulative Bibliography of Medieval Military History and Technology Kelly DeVries, 2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East

However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense

European Integration and the Cold War N. Piers Ludlow, 2007-06-11 This edited volume uses newly released archival material to show linkages between the development of the European Union and the Cold War Containing essays by well known Cold War scholars such as Jussi Hanhimäki Wilfried Loth and Piers Ludlow the book looks at France where neither de Gaulle nor Pompidou felt committed to the status quo in East West or West West relations Germany where Brandt's Ostpolitik was acknowledged to be linked to the success of Bonn's Westpolitik and Britain where the move towards Community membership was tightly bound up with a variety of calculations about the organization of the West and its approach to the Cold War Nixon and Kissinger's policies are set out as the background of US policy against which each of the European players was compelled to operate explaining how Washington saw European integration as part of the over arching Cold War European Integration and the Cold War will appeal to students of Cold War history European politics and international history

Venice, Austria, and the Turks in the Seventeenth Century Kenneth Meyer Setton, 1991 This book is in many ways a sequel to the 4 vols of Setton's Papacy the Bohemian Succession Gustavus Adolphus Cardinal Richelieu the Increasing Importance of France The Treaties of Westphalia Venice Malta The Long War of Candia The Turco Venetian War 1646 1653 Naval Battles at the Dardanelles 1654 1657 the Cretan War Papal Aid to Venice Surrender of Venice to the Turks Turco Venetian Relations 1670 1683 The Conquests of the Austrians in Hungary the Revolt of the Turkish Army the Invasion of Attica The Venetians Withdrawal from Athens the Removal of Antiquities Louis XIV the Turks the Turkish Reconquest of the Morea the Victories of Eugene of Savoy Venice as a Playground of Europe

Two Roads to War Robin Higham, 2012-06-15 Noted aviation historian Robin Higham has written this comparative study of the evolution of the French and British air arms from 1918 to 1940 to determine why the Armée de l'Air was defeated in June 1940 but the Royal Air Force was able to win the battle over Britain in September After analyzing the structure men and material of the air arms and the government and economic infrastructure of both countries he concludes that the French force was dominated by the Armée de Terre had no suitably powerful aero engines and suffered from the chaos of French politics In contrast the independent RAF evolved into a sophisticated scientifically based force supported by consistent government practices Higham's thorough examination however finds the British not without error

Nuclear France Benoît Pelopidas, 2023-12-13 This book offers the first non official history of French nuclear policies which goes beyond the divide between nuclear weapons and nuclear energy policies It addresses the sizing of France's nuclear forces technological assistance to countries

with nuclear weapons programs uranium prospection nuclear testing its health effects and protests against it as well as plans to prevent and manage accidents in nuclear power plants It is based on new questions and new sources from France and abroad The chapters in this volume show how independent and interdisciplinary scholarship free from conflicts of interests can uniquely advance our understanding of nuclear history and politics This is the case because it does not treat the categories and judgments of official discourse as neutral starting points of the analysis This volume is based on untapped primary sources from France the UK the US India South Africa and Iran on a new assessment of the health consequences of French nuclear testing in Polynesia thanks to a modern atmospheric particle transport code coupled with historical weather data open source information about radioactive debris mushroom clouds as well as data on the composition and particle sizes of the fallout and on new survey data about French knowledge of and attitudes towards nuclear weapons and nuclear energy They show notably that the first generation of French nuclear forces lacked technical credibility despite reliance on outside help Several French officials knew this as did France's allies and adversaries Moreover French strategic collaborations associated to nuclear programs extended to India and South Africa nuclear safety regulations changed fundamentally after the Cold War and approximately 110 000 people i e 90% of the French Polynesian population in the 1970s could have received doses that would qualify them for compensation according to French law The volume will be of interest to scholars and students of history politics international relations military history war studies conflict and global governance Most of the chapters in this book were originally published as a special issue in Cold War History A few chapters were first published in the Nonproliferation Review Diplomacy Statecraft and Science Global Security
