T-Rex III W. Howard Stuart,1998 **T-Rex III** W. Howard Stuart,Paul McCusker,1996-01-01 THE AMAZON LADIES' CAPER Esther Royer Ayers,2013-09-30 Life can be such a bummer at times For the sexy Sandy disgruntled Bonnie and perpetually pregnant Cathy what burns them is their husbands annual hunting trip In an effort to forever end these hunts these three girls plan a secret caper wherein they ll become Amazon lady warriors and conquer the very town where their husbands hunt The Amazon Ladies Caper is a fun filled fiction adventure with a little fantasy Although it is humorous and highly entertaining the book has a serious side as well Within the pages of this book we travel with the Amazon ladies from Sacramento California their hometown to Glendive Montana where the caper takes place Along our way we join Elderhostelers on a dinosaur dig conducted by a Blackfoot Indian paleontologist We enter the strange and secretive lands of Hutterites where we attempt a rescue We even help a frustrated psychologist author complete his book Best of all the Amazon ladies forever end their husbands annual hunting trip Or do they Join us on this most fantastic trip which is guaranteed to be a no bummer **Peril in the Amazon** W. Howard Stuart,1996 *Nexus* Yuval Noah Harari,2025-09-16 1 NEW YORK TIMES BESTSELLER From the author of *Sapiens* comes the groundbreaking story of how information networks have made and unmade our world Strikingly original A historian whose arguments operate on the scale of millennia has managed to capture the zeitgeist perfectly *The Economist* This deeply important book comes at a critical time as we all think through the implications of AI and automated content production Masterful and provocative Mustafa Suleyman author of *The Coming Wave* For the last 100 000 years we *Sapiens* have accumulated enormous power But despite all our discoveries inventions and conquests we now find ourselves in an existential crisis The world is on the verge of ecological collapse Misinformation abounds And we are rushing headlong into the age of AI a new information network that threatens to annihilate us For all that we have accomplished why are we so self destructive *Nexus* looks through the long lens of human history to consider how the flow of information has shaped us and our world Taking us from the Stone Age through the canonization of the Bible early modern witch hunts Stalinism Nazism and the resurgence of populism today Yuval Noah Harari asks us to consider the complex relationship between information and truth bureaucracy and mythology wisdom and power He explores how different societies and political systems throughout history have wielded information to achieve their goals for good and ill And he addresses the urgent choices we face as non human intelligence threatens our very existence Information is not the raw material of truth neither is it a mere weapon *Nexus* explores the hopeful middle ground between these extremes and in doing so rediscovers our shared humanity **The Land Beyond Time Adventure in the Amazon** Alexander Molnar,2000-05 *The Land Beyond Time* is a non stop fast paced action packed adventure that takes place in the jungles of the Amazon River It is a story about traitors sabotage espionage greed hate love and romance cold blooded murder and justice It is the story about the trials and tribulations of a dozen human beings who s sabotaged aircraft crashes into the

Amazon jungle The crash survivors 6 men and 6 women including 2 drug cartel bosses being extradited to the US now must compete against their individual fears each other and those unknown unexplained challenges facing them in the hot wet dangerous jungle The terrifying but strange animals that abound there like the giant spiders boars anacondas and crocodiles two hostile tribes and the headhunters a Colombian drug cartel group of professional killers coming to rescue their bosses and a small but elite team of US Marines conducting search and rescue operations for the crash survivors all are tossed together in the jungles of the Amazon Our adventure begins during December 1999 in Lima Peru when a US military aircraft C141 preparing to take a number of government passengers back to the US is commandeered by an Embassy official He orders the aircraft to take on 10 additional passengers including two recently captured Colombian drug lords being extradited to the US Hours into the flight the plane is sabotaged by someone onboard and it crashes into the Amazon River dumping the survivors into the hostile terrain north of Manaus Brazil Two of the 12 crash survivors are immediately separated from the main group and have adventures of their own to contend just to remain alive The remaining survivors are captured by one of two hostile tribes the In gou and San gou The survivors are taken to the In gou village and interrogated while second tribe prepares to attack the In gou village to prevent an escaped prisoner's arrival there who possesses information which could change the delicate balance of power in the jungle Back in Peru an Embassy official is fingered as an espionage agent for the major drug cartel The official gets nervous and runs to his new bosses in Colombia Meanwhile the cartel sends 24 professional killers to retrieve their two drug bosses from the sabotaged aircraft Their additional instructions are to eliminate all the remaining passengers When the aircraft fails to show up at Manaus as planned the cartel's killers immediately begin a search pattern and within hours of finding the crashed aircraft their journey begins Back in Lima the Non Commissioned Officer in Charge NCOIC of the Marine Security Guard MSG Detachment a friend of Al Ranlom a former Marine who is aboard the missing aircraft hears of the espionage and the plane crash Not one to stand by and watch the NCOIC forms an unofficial search and rescue team which picks up the trail of the missing craft and her survivors The dangers to all involved the survivors the cartel's professional killers and the Marine Security Detachment rescuers are found in every turn they take They are all around them in the trees at ground level on under and above the waterways swamps and mangroves These hazards eat away at their self confidence and tears at their moral fabric They are tested continuously passing one test only to encounter another challenge If it isn't attacks by giant spiders anacondas and crocodiles it's tigers flesh eating worms and blood sucking bats Or it's problems from hostile tribes or from the natural environment like earthquakes and lava flows or from the failure of their sophisticated equipment like the GPS systems radios and walkie talk
