Rfc Communiques 1917-1918:

Royal Flying Corps Communiques, 1917-1918 Great Britain. Royal Flying Corps, 1998 This volume contains comprehensive coverage of WWI by the men who fought in the air *Irish Aces of the RFC and the RAF in the First World War* Joe Gleeson, 2017-05-17 The First World War had an enormous impact on Ireland Over 240 000 Irish men and women volunteered to serve with the Allied forces suffering almost 40 000 casualties The Irish contribution to the air war remains overlooked not just in Ireland but also by historians generally Although just 6 000 Irish served with the Allied flying services at a cost of 500 casualties their impact was out of all proportion to their numbers The contribution of Irish aces of the RFC and RAF to the Allied cause was enormous just over thirty of whom accounted for 400 enemy aircraft Irishmen such as Mannock McElroy and Hazell were among the highest scoring pilots of the war Some were revered by their men others were controversial figures reckless with their own lives and those under their command but many of their stories remain untold This book seeks to restore all those who were written out of Irish history while also providing for their achievements to be considered in the overall context of the first air war Illustrations 24 black and white photographs **The Royal Flying Corps, the Western Front and the Control of the Air, 1914-1918** James Pugh, 2017-05-12 By the middle of 1918 the British Army had successfully mastered the concept of all arms warfare on the Western Front This doctrine integrating infantry artillery armoured vehicles and crucially air power was to prove highly effective and formed the basis of major military operations for the next hundred years Yet whilst much has been written on the utilisation of ground forces the air element still tends to be studied in isolation from the army as a whole In order to move beyond the usual aircraft and aces approach this book explores the conceptual origins of the control of the air and the role of the Royal Flying Corps RFC within the British army In so doing it addresses four key themes First it explores and defines the most fundamental air power concept the control of the air by examining its conceptual origins before and during the First World War Second it moves beyond the popular history of air power during the First World War to reveal the complexity of the topic Third it reintegrates the study of air power during the First World War specifically that of the RFC into the strategic operational organisational and intellectual contexts of the era as well as embedding the study within the respective scholarly literatures of these contexts Fourth the book reinvigorates an entrenched historiography by challenging the usually critical interpretation of the RFC's approach to the control of the air providing new perspectives on air power during the First World War This includes an exploration of the creation of the RAF and its impact on the development of air power concepts *Winged Sabres* Robert A. Sellwood, 2020-01-31 *Winged Sabres* is the story of a RFC RAF squadron flying the cumbersome FE2 from February 1916 to September 1917 and then the superlative Bristol Fighter a two seater fighter reconnaissance squadron with an astonishingly high success rate 20 Squadron was possibly the highest scoring squadron of the war and one of the most highly decorated claiming over 600 combat victories with well over 400 confirmed in RFC RAF Communiqués Its members won seventy

gallantry decorations including a posthumous Victoria Cross and included fliers from the U K and around the world Over 40 became aces including the American Iaccaci brothers and some Canadians and others But with a casualty rate of around 50% including killed wounded and POW they paid a high price Over 15 years research has gone into this book covering a seldom explored aspect of WW1 in the air the two seater fighter reconnaissance squadrons 20 Squadrons motto was Facta Non Verba Deeds Not Words

A History of No. 10 Squadron Mike Westrop, 2004 No 10 Squadron of England s Royal Naval Air Service was formed at St Pol a suburb of Dunkerque in February 1917 as part of the rapid naval aviation expansion programme required by the Royal Naval Air Service s commitment to assist the Royal Flying Corps
