

Multi-dimensionality $\approx$ incommensurability in rhetorical deliberation

There are "different kinds of normative considerations ... on both sides of a question" (Rawls)

- but there is "no formula or rule that we can apply to determine whether reasons for the conclusion outweigh reasons against it" (Govier)

- since they are not "rankable with respect to a common denominator of value" (Larmore)

- which is why intersubjectivity is lacking, or, frankly, subjectivity is present

Rhetoric And Incommensurability:

Rhetoric and Incommensurability Randy Allen Harris, 2005-09-19 Rhetoric and Incommensurability examines the complex relationships among rhetoric philosophy and science as they converge on the question of incommensurability the notion jointly though not collaboratively introduced to science studies in 1962 by Thomas Kuhn and Paul Feyerabend The incommensurability thesis represents the most profound problem facing argumentation and dialogue in science surely but in any symbolic encounter any attempt to cooperate find common ground get along make better knowledge and build better societies This volume brings rhetoric the chief discipline that studies argumentation and dialogue to bear on that problem finding it much more tractable than have most philosophical accounts [The State of Rhetoric of Science and Technology](#) Alan G. Gross, Laura J. Gurak, 2020-08-26 The ubiquity of the Internet and digital technology has changed the sites of rhetorical discourse and inquiry as well as the methods by which such analyses are performed This special issue discusses the state of rhetoric of science and technology at the beginning of the twenty first century While many books connecting rhetorical theory to the Internet have paved the way for more refined and insightful studies of online communication the articles here serve as a reflective moment an opportunity to consider thoughtful statements from those who have published and been influential in the field *The SAGE Handbook of Rhetorical Studies* Andrea A. Lunsford, Kirt H. Wilson, Rosa A. Eberly, 2008-10-29 The SAGE Handbook of Rhetorical Studies surveys the latest advances in rhetorical scholarship synthesizing theories and practices across major areas of study in the field and pointing the way for future studies Edited by Andrea A Lunsford and Associate Editors Kirt H Wilson and Rosa A Eberly the Handbook aims to introduce a new generation of students to rhetorical study and provide a deeply informed and ready resource for scholars currently working in the field Key Features Brings together scholars from across the disciplines of Speech Communication English and Writing Studies While rhetoric is by definition interdisciplinary self identified scholars in the field are most often institutionally separated from one another This Handbook bridges this divide by providing a refreshing range of transdisciplinary views on the nature status definition and scope of rhetoric today Offers a thorough going overview of rhetorical studies today Organized in four sections Historical Studies in Rhetoric Rhetoric Across the Disciplines Rhetoric and Pedagogy and Rhetoric and Public Discourse the volume provides a single resource for engaging rhetorical studies Underscores the importance of rhetoric to education across a wide range of disciplines as well as to effective participation in public arenas Thus the volume connects rhetoric's long teaching tradition to an activist agenda for informed civic engagement Addresses methodological and theoretical difficulties and offers means of negotiating them Provides one of the first introductions to rhetorical studies across cultures and to the related debates concerning comparative and contrastive rhetorics **Judgment, Rhetoric, and the Problem of Incommensurability** Nola J. Dialogical Rhetoric W. Slob, 2013-11-11 Contemporary developments in philosophy have declared truth as

such troublesome and not merely gaining access to it In a systematic survey this study investigates what is at stake when truth is given up A historical overview shows how the current problem of truth came about and suggests ways to overcome rather than to repair the problem A key issue resulting from the loss of truth is the lack of normativity Truth provided an alternative understanding of normativity Elaborating on the dialectical shift in logic a dialogico rhetorical understanding of normativity is presented Rather than requiring truth agreement or rationality dialogico rhetorical normativity is the result of a balance of particular standards This type of normativity is shaped within discussions by advancing and accepting arguments and is not located in sets of predetermined rules The result is a small but strong form of normativity If this understanding of normativity is viable one of the central problems of contemporary philosophy the problem of incommensurability can be seen in a different light As a result truth reappears again Surviving the postmodern criticisms it is a matter of accountability rather than of description *The Rhetoric of Failure* Ewa Plonowska Ziarek, 1995-11-02
