Rhetoric and Storytelling within the U.S. Asylum Process Mónica Reyes, 2024-09-20 This book explores the U S asylum process and how those seeking shelter deal with the rhetorical pressures of compelling asylum narratives they need to write in order to stay Centered around a study conducted at a shelter on the U S border this book moves beyond this context to demonstrate how liminal sites provide opportunities for displaced communities to employ distinct shared rhetorical practices of daily life like silence and routine that both safeguard vulnerabilities and enact agency for individuals within precarious spaces Placing people who seek asylum and those who work with them as rhetorical and socio cultural experts on this issue the study adds to the emerging importance of rhetoric within discussions of asylum and forced migration and demonstrates the significance of rhetorical ecology theory as part of a blended methodology in understanding people seeking asylum as a group in a perpetual and explicit state of ethos development Highlighting the need for support which is sensitive to the narrative struggles people seeking asylum face this book will have important findings for scholars and upper level students of cultural rhetorics feminist rhetoric migration studies political science and intercultural communication

The Recovery of Rhetoric Richard H. Roberts, James M. M. Good, 1993 Legal and Rhetorical Foundations of Economic Globalization Keren Wang, 2019-06-13 This book examines the subtle ways in which rhetorics of sacrifice have been re appropriated into the workings of the global political economy in the 21st century It presents an in depth analysis of the ways in which ritual practices are deployed under a diverse set of political and legal contexts as legitimation devices in rendering exploitative structures of the prevailing political economic system to appear inescapable or even palatable To this end this work explores the deeper rhetorical and legal basis of late capitalist governmentality by critically interrogating its mythical and ritual dimensions The analysis gives due consideration to the contemporary incarnations of ritual sacrifice in the transnational neoliberal discourse from those exploitative yet inescapable contractual obligations to calendrical multi billion dollar offerings to the insatiable needs of too big to fail corporations The first part of the book provides a working interpretative framework for understanding the politics of ritual sacrifice one that not only

accommodates multidisciplinary interdisciplinary knowledge of ritual practices but that can also be employed in the integrated analysis of sacrificial rituals as political rhetoric under divergent historical and societal contexts The second conducts a series of case studies that cut across the wide variability of ritual public takings in late capitalism The book concludes by highlighting several key common doctrines of public ritual sacrifice which have been broadly observed in its case studies These common doctrines tend to reflect the rhetorical and legal foundations for public takings under hegemonic market driven governance They define appropriate and proper occasions for suspending pre existing legal protections to regularize otherwise transgressive transfers of rights and possessions for the greater good of the economic order

Empowering Memory and Movement Elisabeth Schussler Fiorenza, 2014-05-01 With Empowering Memory and Movement Elisabeth Schussler Fiorenza completes a three volume look across her influential work and career In Transforming Vision 2011 she drew from decades of pioneering scholarship to offer the contours of a critical feminist hermeneutic The chapters in Changing Horizons 2013 sketched out a theory of liberation Now the consequences for a liberating praxis are elaborated in interviews and essays that chart Schussler Fiorenza's own personal and professional history as these are intertwined with the history of the worldwide movement for emancipation and full equality Empowering Memory and Movement looks back but also looks around at challenges and potentialities on the global scene and looks ahead to an emancipatory future with a critical and wise engagement with scripture and the interpretive tradition always at the center

Attic Oratory and Performance Andreas Serafim, 2017-01-12 In a society where public speech was integral to the decision making process and where all affairs pertaining to the community were the subject of democratic debate the communication between the speaker and his audience in the public forum whether the law court or the Assembly cannot be separated from the notion of performance Attic Oratory and Performance seeks to make modern Performance Studies productive for and so make a significant contribution to the understanding of Greek oratory Although quite a lot of ink has been spilt over the performance dimension of oratory the focus of nearly all of the scholarship in this area has been relatively narrow understanding performance as only encompassing delivery the use of gestures and vocal ploys and the convergences and divergences between oratory and theatre Serafim seeks to move beyond this relatively narrow focus to offer a holistic perspective on performance and oratory Using examples from selected forensic speeches in particular four interconnected speeches by Aeschines 2 3 and Demosthenes 18 19 he argues that oratorical performance encompassed subtle communication between the speaker and the audience beyond mere delivery and that the surviving texts offer numerous glimpses of the performative dimension of these speeches and their links to contemporary theatre
