Kinney, 2012 Contains forty original essays **John Gower and the Limits of the Law** Conrad van Dijk, 2013 An examination of the ways in which Gower's poetry engages with contemporary law and legal questions It has long been thought that John Gower was probably a lawyer before turning to poetry and this study reveals his active engagement with contemporary legal debates they include constitutional questions jurisdictional issues private vengeance jurisprudential concepts such as equity and the rigor iuris and aspects of criminal law The author argues that the Confessio Amantis in particular demonstrates Gower's uncertainty about how to reconcile the ideal of a just law with alternative modes of justice such as self help royal discretion and divine will The book also examines the parallel development of the exemplum and casus in medieval literature Exempla frequently create a sense of narrative closure by means of some form of punishment or as Gower would put it vengeance How then do we set Gower's reputation as a sympathetic writer alongside his frequent desire for closure and punishment What are the limits of exemplarity and law These questions are answered by reading Gower in relation to the volatile politics of the Ricardian period and in comparison with the poetic concerns of contemporary writers such as Chaucer and Langland In so doing the book provides a searching introduction to the intersection between literature and law in the late fourteenth century Dr Conrad van Dijk is Assistant Professor of English at Concordia University College of Alberta Edmonton Canada *Judicial Rhapsodies* Doug Coulson, 2023-02-28 All judges legitimize their decisions in writing but US Supreme Court justices depend on public acceptance to a unique degree Previous studies of judicial opinions have explored rhetorical strategies that produce legitimacy but none have examined the laudatory even operative forms of writing Supreme Court justices have used to justify fundamental rights decisions Doug Coulson demonstrates that such judicial rhapsodies are not an aberration but a central

feature of judicial discourse First examining the classical origins of divisions between law and rhetoric Coulson tracks what he calls an epideictic register highly affective forms of expression that utilize hyperbole amplification and vocabularies of praise through a surprising number of landmark Supreme Court opinions Judicial Rhapsodies recovers and revalues these instances as significant to establishing and maintaining shared perspectives that form the basis for common experience and cooperation Judicial Rhapsodies is both compelling and important Coulson brings his well developed knowledge of rhetoric to bear on one of the most central and most democratically fraught means of governance in the United States the Supreme Court opinion He demonstrates that the epideictic far from being a dispensable or detestable element of judicial rhetoric is an essential feature of how the Court operates and seeks to persuade Keith Bybee Syracuse University *Stepfamilies in Europe, 1400-1800* Lyndan Warner, 2018-04-19 Stepfamilies were as common in the European past as they are today Stepfamilies in Europe 1400 1800 is the first in depth study to chart four centuries of continuity and change for these complex families created by the death of a parent and the remarriage of the survivor With geographic coverage from the Mediterranean to Scandinavia and from the Atlantic coast to Central Europe this collection of essays from leading scholars compares how religious affiliation laws and cultural attitudes shaped stepfamily realities Exploring stepfamilies across society from artisans to princely rulers this book considers the impact of remarriage on the bonds between parents and their children stepparents and stepchildren while offering insights into the relationships between full siblings half siblings and stepsiblings The contributors investigate a variety of primary sources from songs to letters and memoirs printed Protestant funeral works Catholic dispensation requests kinship puzzles legitimation petitions and documents drawn up by notaries to understand the experiences and life cycle of a family and its members whether growing up as a stepchild or forming a stepfamily through marital choice as an adult Featuring an array of visual evidence and drawing on topics such as widowhood remarriage and the guardianship of children Stepfamilies in Europe will be essential reading for scholars and students of the history of the family
