Heresy and the Formation of the Rabbinic Community David M. Grossberg, 2017-06-21 Publisher's description Between the first and sixth centuries C E a community of rabbis systematized their ideas about Judaism in works such as the Mishnah and the Talmud David M Grossberg reexamines this community's gradual formation as reflected in polemical texts He contends that these texts primary aim was not to describe real rabbinic opponents but to create and enforce boundaries between rabbis and others and within the developing rabbinic movement

Intentions Arabella Lyon, 2004-06-11 The relationship between an author's and an audience's intentions is complex but need not preclude mutual engagement This philosophical investigation challenges existing literary and rhetorical perspectives on intention and offers a new framework for understanding the negotiation of meaning It describes how an audience's intentions affect their interpretations shows how audiences negotiate meaning when faced with a writer's undecipherable intentions and defines the scope of understanding within rhetorical situations Introducing a concept of intention into literary analysis that supersedes existing rhetorical theory Arabella Lyon shows how the rhetorics of I A Richards Wayne Booth and Stanley Fish as well as the hermeneutics of Hans Georg Gadamer fail to account for the complex interactions of author and audience Using Kenneth Burke's concepts of form motive and purpose she builds a more

complex notion of intention than those usually found in literary studies then employs her theory to describe how philosophers read Wittgenstein's narratives metaphors and reversals in argument Lyon argues that our differences in intention prevent consistency in interpretations but do not stop our discussions deliberations and actions She seeks to acknowledge difference and the communicative problems it creates while demonstrating that difference is normal and does not end our engagement with each other Intentions combines recent work in philosophy literary criticism hermeneutics and rhetoric in a highly imaginative way to construct a theory of intention for a postmodern rhetoric It recovers and renovates central concepts in rhetorical theory not only intention but also deliberation politics and judgment Authoring Autism M. Remi

Yergeau, 2018-01-05 In *Authoring Autism* M Remi Yergeau defines neurodivergence as an identity neuroqueerness rather than an impairment Using a queer theory framework Yergeau notes the stereotypes that deny autistic people their humanity and the chance to define themselves while also challenging cognitive studies scholarship and its reification of the neurological passivity of autistics They also critique early intensive behavioral interventions which have much in common with gay conversion therapy and questions the ableist privileging of intentionality and diplomacy in rhetorical traditions Using storytelling as their method they present an alternative view of autistic rhetoricity by foregrounding the cunning rhetorical abilities of autistics and by framing autism as a narrative condition wherein autistics are the best equipped people to define their experience Contending that autism represents a queer way of being that simultaneously embraces and rejects the rhetorical Yergeau shows how autistic people queer the lines of rhetoric humanity and agency In so doing they demonstrate how an autistic rhetoric requires the reconceptualization of rhetoric's very essence *The SAGE Handbook of Rhetorical Studies* Andrea A. Lunsford, Kirt H. Wilson, Rosa A. Eberly, 2008-10-29 The *SAGE Handbook of Rhetorical Studies* surveys the latest advances in rhetorical scholarship synthesizing theories and practices across major areas of study in the field and pointing the way for future studies Edited by Andrea A Lunsford and Associate Editors Kirt H Wilson and Rosa A Eberly the Handbook aims to introduce a new generation of students to rhetorical study and provide a deeply informed and ready resource for scholars currently working in the field Key Features Brings together scholars from across the disciplines of Speech Communication English and Writing Studies While rhetoric is by definition interdisciplinary self-identified scholars in the field are most often institutionally separated from one another This Handbook bridges this divide by providing a refreshing range of transdisciplinary views on the nature status definition and scope of rhetoric today Offers a thorough going overview of rhetorical studies today Organized in four sections Historical Studies in Rhetoric Rhetoric Across the Disciplines Rhetoric and Pedagogy and Rhetoric and Public Discourse the volume provides a single resource for engaging rhetorical studies Underscores the importance of rhetoric to education across a wide range of disciplines as well as to effective participation in public arenas Thus the volume connects rhetoric's long teaching tradition to an activist agenda for informed civic engagement Addresses methodological and theoretical difficulties and offers means of negotiating them

Copeland,1995-03-16 This book has a twofold purpose First it seeks to define the place of vernacular translation within the systems of rhetoric and hermeneutics in the Middle Ages Secondly it examines the way that rhetoric and hermeneutics in the Middle Ages define their status in relation to each other as critical practices introd **The End of Genre** Brenton

Faber,2022-11-02 This book explores early new critical debates about intention tracing how and why intention was dismissed across much humanities scholarship and how it can be revisited and made relevant as a key formative evaluative and ethical concept The author argues that the academic disinterest in intention occurred simultaneously as genre criticism and later the rhetorical interest in genre came into its own Genre became a way to simultaneously elide and naturalize intention The book elaborates on the pedagogical ethical and empirical consequences naturalizing intention through genre has had for rhetorical studies and it offers a new term curations to identify discursive forms actions and intentions working simultaneously Finally he also examines the gap between the humanities and STEM fields and shows specific ways scientists and engineers have called for the humanities to become more invested in intention as both a critical and an operational concept This book will be of interest to students and scholars of discourse studies and critical discourse analysis rhetoric and professional communication including those in fields such as medicine engineering STS and business studies **Handbook of**

Rhetorical and Communication Theory Carroll C. Arnold,John Waite Bowers,1984 **Civic War and the Corruption of the Citizen** Peter Alexander Meyers,2009-05-15 In this unique book Peter Alexander Meyers leads us through the social processes by which shock incites terror terror invites war war invokes emergency and emergency supports unchecked power He then reveals how the domestic political culture created by the Cold War has driven these developments forward since 9 11 contending that our failure to acknowledge that this Cold War continues today is precisely what makes it so dangerous With eloquence and urgency Meyers argues that the mantra of our time everything changed on 9 11 is false and pernicious By contrast Civic War and the Corruption of the Citizen provides a novel account of long term transformations in the citizen s experience of war the constitution of political powers and public uses of communication and from that firm historical basis explains how a convergence of these social facts became the pretext for unprecedented opportunism and irresponsibility after 9 11 Where others have observed that our rights are under attack Meyers digs deeper and finds that today government by the people itself is at risk Sparkling with historical and philosophical insight this is a dramatic diagnosis of the American political scene that at once makes clear the new position of the citizen and the necessity for active citizenship if democracy is to endure
