

WHEN THE 'OTHER' BECOMES 'US': MEDIATED REPRESENTATIONS, 'TERRORISM' AND THE 'WAR ON TERROR'

RUT M. SANZ SABIDO

DE MONTFORT UNIVERSITY, UNITED KINGDOM

Abstract: The aim of this paper is to elaborate on the use of one of the rhetorical techniques employed in the political and mediated representation of 'Islamist terrorists' by the British print media in the aftermath of the London bombings of July 7th, 2005. This technique consists of the emphasis on making 'terrorism' and its perpetrators look 'foreign', by creating an opposition between the Nation and the 'Other' (Said, 1997). This opposition is questionable from, at least, two perspectives. On the one hand, this polarisation depends on the position of who produces the discourse. The British reaction to the bombings was a patriotic one which sought to protect the British Nation against the 'foreign enemy' (Bulley, 2008). On the other hand, though, taking into account that the bombers of July 7th were actually British, it is possible to question the actual meaning of 'us' and 'them', as well as the term 'foreign', since the 'Other' is, in this context, also a part of 'us'. The consequence is an ambiguous division between 'known' and 'unknown', 'good' and 'evil', which does not only occur in rhetorical terms, but which is also visible in ongoing conflicts, and has an impact on the 'clash of civilisations' concept.

Key words: terrorism, media representations, 'Otherness', 'war on terror', 'clash of civilisations', identity

Rhetoric Of Terrorism And Counterterrorism:

The Rhetoric of Terrorism and Counterterrorism Richard Leeman, 1991-01-21 Using the responses of the Reagan and Nixon administrations to terrorism as case studies this treatise prescribes democratic rhetoric as the most strategic counterterrorist response available

Terrorism Dan O'Hair, 2008 This volume offers the best available thinking and analysis on the topic of the rhetoric and communication of terrorism Each of the chapters isolates a particular issue or concern and exposes the difficult choices and subsequent processes facing participants in the management of terrorism By wrapping the analysis in a web of communication and rhetorical processes and theories the authors develop unique perspectives from which to characterize these contexts This volume is intended for multiple audiences including those interested not only in the specific topic but in risk communication crisis management policy management and political science

Post-9/11 American Presidential Rhetoric Colleen Elizabeth Kelley, 2008-01-01 Post 9 11 American Presidential Rhetoric examines the communication offensive orchestrated by George W Bush and the members of his administration between the initial terrorism crisis of September 11 2001 and the March 20 2003 invasion of Iraq Colleen Elizabeth Kelley argues that the president relied on a set of particular strategies that coalesced into protofascist talk in order to discursively manage the post 9 11 situation and justify its 2003 war against Iraq This book suggests a framework for analyzing emergent fascist public discourse and its potential for producing additional substantial antidemocratic speech and action Kelley further reviews the role of the media in conveying President Bush's rhetorical doctrine to the American public The rhetoric of democratic discourse is presented as a firewall to guarantee that such speech based behaviors which are endorsed by willing publics and developed within democracies fail to thrive and do not destroy the very systems that enabled them in the first place Post 9 11 American Presidential Rhetoric is a stimulating text that will strike up discussion among scholars of political communication and those interested in cultural studies

Survivor Rhetoric Carol Lea Winkelmann, Christine Shearer-Cremean, 2004-01-01 Survivor Rhetoric is a collection of essays about the language of abused women and girls written by feminist scholars from a variety of disciplines including literary studies psychology law and criminal justice Editors Christine Shearer Cremean and Carol L Winkelmann have compiled a wholly original volume where diversity issues are critical and which includes narratives from U S Appalachian evangelicals lesbian women represented in Canadian feminist educational tracks an American convert to Judaism in the Middle East and elite or highly educated women represented in the mainstream media The genres through which the stories are told include police reports memoirs and shelter talk and the methods and focuses of the writers vary across the essays and include rhetorical thematic analysis ethnographic and literary analysis Survivor Rhetoric concludes with a call for more holistic and local responses to the problem of violence against women and girl children responses carefully attentive to language issues informed by multiple perspectives and in touch with global conversations

The Transfiguring Sword Cheryl R. Jorgensen-Earp, 2015-03-15

Cheryl R Jorgensen Earp provides a new understanding of the recurrent rhetorical need to employ conservative rhetoric in support of a radical cause Her study challenges the common view that the suffragettes use of military metaphors their vilification of the government and their violent attacks on property were signs of hysteria and self destruction Instead what emerges is a picture of a deliberate if controversial strategy of violence supported by a rhetorical defense of unusual power and consistency

Clinton, New Terrorism and the Origins of the War on Terror Chin-Kuei Tsui,2016-07-15 A frequent assumption of the American led war on terror and its accompanying discourse originated largely with the George W Bush Administration and that there was a counterterrorism policy revolution in the U S political arena Challenging these assumptions through a genealogical analysis of U S terrorism and counterterrorism discourses this book demonstrates a distinct continuity and lack of change of U S counterterrorism policy from Ronald Reagan to Bill Clinton and through to George W Bush The book focuses on President Clinton s discursive construction of new terrorism or catastrophic terrorism and the counterterrorism practices implemented by the Clinton Administration while simultaneously comparing it with President Reagan s and President George W Bush s approaches to counterterrorism It shows how the war on terror can be traced to earlier periods and that the so called Bush revolution was largely built upon the existing framework established by President Reagan and President Clinton Prior to the 2001 terrorist attacks Clinton had expanded Reagan s first war on terrorism discourse and constructed the new terrorism discourse characterised by the notions of borderless threats home grown terrorism WMD terrorism cyberterrorism and rogue states Clinton s new terrorism discourse provided a useful framework for George W Bush to discursively respond to the terrorist attacks on September 11th 2001 Aiming to uncover the myth of President George W Bush s foreign policy revolution and contribute to a deeper historical understanding of the U S led war on terror it will be of great use to postgraduates and scholars of US foreign policy security studies and terrorism studies

Presidential Rhetoric on Terrorism under Bush, Obama and Trump Gabriel Rubin,2020-03-21 Through the analysis of eighteen years of presidential data this book shows how Presidents Bush Obama and Trump have conducted and framed the war on terror since its inception in 2001 Examining all presidential speeches about terrorism from George W Bush s two terms as President Barack Obama s two terms as President and Donald Trump s first year as President this book is the first to compare the three post 9 11 presidents in how they have dealt with the terror threat Presidential Rhetoric on Terrorism under Bush Obama and Trump argues that when policies need to be sold to the public and Congress presidents make their pertinent issues seem urgent through frequent speech making and threat inflation It further illustrates how after policies are sold a new President s reticence may signify quiet acceptance of the old regime s approach After examining the conduct of the war on terror to date it concludes by posing policy suggestions for the future

Counter-Terrorism Laws and Freedom of Expression Paul Haridakis, Téwodros Workneh, 2021-06-22 As nations have aggressively implemented a wide range of mechanisms to proactively curb potential threats terrorism Counter Terrorism Laws and Freedom of Expression Global Perspectives offers critical insight into how counter terrorism laws have adversely affected journalism practice digital citizenship privacy online activism and other forms of expression While governments assert the need for such laws to protect national security critics argue counter terrorism laws are prone to be misappropriated by state actors who use such laws to quash political dissent target journalists and restrict other forms of citizen expression The book is divided into three parts Part I deals with the politics and discourse of counter terrorism laws Part II focuses on the ways counter terrorism laws have impacted journalistic practice in different countries with effects ranging from imprisonment of reporters to self censorship Part III addresses how counter terrorism laws have been used to target everyday citizens social media activists whistleblowers and human rights advocates around the world Together the chapters address how counter terrorism laws have undermined democratic values in both authoritarian and liberal political contexts Scholars of political science communication and legal studies will find this book particularly interesting

Counterterrorism in Transition Guendalina Simoncini, 2024-04-02 This volume offers a critical examination of how counterterrorism measures influence democratic processes with a specific focus on the case study of post 2011 Tunisia More concretely it assesses the effects of counterterrorist discourses and practices on the democratic transition initiated after the Dignity Revolution of 2010 2011 Tunisia has been the only Arab country to experience a structured democratic transition after the Arab uprisings However the measures taken to counter the rise of salafi jihadism in the country strongly marked the transitional process This research analyses the detrimental impact of counterterrorism on Tunisian political transition and democratic consolidation It highlights human rights violations and their legitimization the strengthening of repressive mechanisms the enactment of liberticidal laws the normalization of exceptional governance and the constriction of public space while also detailing its

negative effects on the state's economy. The book posits that the counterterrorism rhetoric and policies have played a significant role in facilitating the democratic backsliding witnessed in Tunisia beginning in 2021. The research adopts a discursive ethnographic approach that integrates critical analysis of presidential and parliamentary discourse with extensive fieldwork among institutional and associative actors in Tunisia. The volume represents the first comprehensive and holistic assessment of counterterrorism discourses and policies implemented in post-2011 Tunisia, highlighting their progressive impact on democratic transition.
