RHETORICAL CRITICISM

Tens of thousands of students at more than 300 colleges and universities have learned the exciting art of rhetorical criticism from previous editions of this exceptionally accessible text.

Understanding the processes of rhetorical criticism—the systematic investigation and explanation of symbolic acts and artifacts—creates opportunities for more effective communication. When we are aware of the various options available in the construction of messages and how they function to produce effects, we have the tools needed to question the messages in artifacts rather than responding uncritically.

Sonja Foss, who has an enviable talent for synthesizing complex rhetorical concepts and processes into clear explanations, presents nine methods of rhetorical criticism. She carefully explains and illustrates the theory behind each method with abundant examples of applications. Interesting and lively essays, some written by students, encourage readers to develop their critical skills. Useful bibliographies list additional samples for each type of criticism.

Rhetorical criticism is not a process confined to a few assignments in a rhetorical or media criticism course. It is an everyday activity we can use to understand our responses to symbols of all kinds and to create our own symbols to generate the responses we desire.

Kuypers, 2009-07-16 Covering a broad range of rhetorical perspectives *Rhetorical Criticism Perspectives in Action* presents a thorough accessible and well grounded introduction to rhetorical criticism Throughout the text sample essays written by noted experts provide students with models for writing their own criticism In addition to covering traditional modes of rhetorical criticism the volume presents less commonly discussed rhetorical perspectives for example close textual analysis mythic criticism framing analysis ideographic criticism concept oriented criticism and critical rhetoric exposing student to a wide range of material Featuring nineteen chapters all written by leading rhetoric scholars the volume offers the most comprehensive introduction to rhetorical criticism available Features The chapters are written by a nationally recognized scholar in that area giving students the best and most current research for each perspective Each chapter includes an original sample essay that gives students a model of rhetorical criticism for their own assignments Each author comments on his or her writing process to demonstrate the personal nature of criticism This unique emphasis allows students to appreciate that writing criticism is not a simple formulaic process Every chapter features a Potentials and Pitfalls section that highlights the strengths and weaknesses of the rhetorical perspective being discussed **Rhetorics in the New Millennium** James D. Golden, 2003 *Understanding African American Rhetoric* Ronald L. Jackson II, Elaine B. Richardson, 2014-05-22 This is an extraordinarily well balanced collection of essays focused on varied expressions of African American Rhetoric it also is a critical antidote to a preoccupation with Western Rhetoric as the arbiter of what counts for effective rhetoric Rather than impose Western terminology on African and African American rhetoric the essays in this volume seek to illumine rhetoric from within its own cultural expression thereby creating an understanding grounded in the culture's values The consequence is a richly detailed and well researched set of essays The contribution of African American rhetoric can no longer be rendered invisible through

neglect of its tradition The essays in this volume neither seek to displace Western Rhetoric nor function as an uncritical paen to Afrocentricity and Africology This volume is both timely and essential in advancing a better understanding of the richly textured history that is expressed through African American discourse and essential as a counterpoint to the hegemonic influence of Greek and Roman rhetoric as the origin of rhetorical theory and practice Written in the spirit of a critical rhetoric this collection eschews traditional focus on public address and instead offers a rich array of texts in musical and other forms that address publics
