The Archaeology of Mediterranean Landscapes Kevin Walsh, 2014 This volume presents a comprehensive review of palaeoenvironmental evidence and its incorporation with landscape archaeology from across the Mediterranean A fundamental aim of this book is to bridge the intellectual and methodological gaps between those with a background in archaeology and ancient history and those who work in the palaeoenvironmental sciences The aim of this volume is twofold first to provide archaeologists and landscape historians with a comprehensive overview of recent palaeoenvironmental research across the Mediterranean and second to consider ways in which this type of research can be integrated with what might be considered mainstream or cultural archaeology This volume takes a thematic approach assessing the ways in which environmental evidence is employed in different landscape types from coastal zones via rivers and wetlands to islands and mountainous areas This volume also presents analyses of how people have interacted with soils and vegetation and revisits the key questions of human culpability in the creation of so called degraded landscapes in the Mediterranean It covers chronological periods from the Early Neolithic to the end of the Roman period

Rebels and Radicals Anthony J. Papalas, 2005 Icaria a long craggy and destitute isle in the Aegean Sea is visible from Turkey The toil and travail of its people symbolizes the journey all Greek People made to achieve a modern society But unlike other Greeks the Icarians often chose a dead end path Never in agreement with those around them the story of the Icarians shows the best and the worst of Greek society The Icarians were loyal subjects of the Ottoman Empire who because of poverty and lack of resources were not expected to pay heavy taxes while most Ottoman Greeks were dissatisfied with Turkish rule and dreamed of independence But just before World War I when the Greek government did not want to annex the island because of international complications the Icarians expelled the Turks and demanded inclusion in the Greek State At that time the bulk of the young men were escaping the grinding poverty of the island by immigrating to the United States Although the majority of these men stayed in America and brought wives from the island to the New World

they maintained local ties Their influence both positive and negative affected many qualities of Icarian life The Icarians did not find their expectations fulfilled as part of Greece and remained disenchanted with their conditions through the twenties and thirties of the 20th century The forties brought first the Italians then the Germans and finally the British After the turmoil many Icarians supported radical political solutions to their problems sympathizing with a native guerrilla movement and rejecting efforts to improve their island seeing only the great Capitalistic conspiracy at work In the last decades of the 20th century the Icarians finally entered the modern but at a too rapid rate leaving the people unable to cope with some aspects of modernity Anthony J Papalas has assembled a true peoples history by bringing together unusual documents such as dowry agreements and Ottoman court records memoirs and accounts of Icaria by people who were involved in the events he describes all interwoven with informative and perceptive descriptions from forty years of interviews with Icarians from all areas and conditions Here is a history on the social level not grand politics or great battles but rather the everyday existence and immediate choices which once made shape succeeding events *Explaining Social Change* Colin Renfrew, John F. Cherry, Christopher Scarre, Stephen Shennan, 2004 These papers look at the increasingly influential role of social archaeology an area in which Colin Renfrew has been a key player Topics covered include the development of the human mind trade and exchange social change chiefdoms and states and the archaeology of island societies
