Rhuddlan Castle Arnold Joseph Taylor,1982 *Annals and Antiquities of the Counties and County Families of Wales* Thomas Nicholas,1872 *Rhuddlan Castle and Other Poems* Frederick Wilson Kittermaster,1890 *The Impact of the Edwardian Castles in Wales* Diane Williams,John R. Kenyon,2009-12-16 The Impact of the Edwardian Castles in Wales publishes the proceedings of a conference held in 2007 a year that marked the seventh centenary of the death of King Edward I which set out to review recent scholarship on castles that he built in north Wales after two wars in 1277 and 1282 83 and a Welsh uprising in 1294 95 and to rethink the effect that their building had upon Wales in the past present and future Building upon the seminal work of Arnold Taylor whose study of the buildings and documentary evidence has been pivotal to Edwardian castle studies for more than fifty years the volume includes papers which call into question the role of Master James of St George as the architect of the kings new castles the role of Richard the Engineer the nature of royal accommodation in the thirteenth century and a detailed look at how households worked especially in the kitchen and accounting departments New approaches to castle studies are encouraging a more holistic understanding of the Edwardian castles and their context and to this end papers consider their impact on Welsh society and its princes in the thirteenth century notably Llywelyn ab Iorwerth Fawr the Great and his grandson Llywelyn ap Gruffudd prince of Wales Their symbolism and meaning through the words of Welsh poets and the mythology behind Caernarfon Castle are also examined so too is the role of Welshmen in Edward Is armies The wider context is considered with papers on the Edwardian towns in Wales the baronial castles in north Wales and Edward I in Scotland and Gascony The castles still have powerful resonance and the Minister for Heritage in the Welsh Assembly Government considers their role and presentation in Wales today and in the future Robert Liddiard concludes that the volume not only takes our knowledge of the Edwardian castles forward but also informs the study of castles in the British Isles *The Ruined Castles of North Wales* William Howitt,1864 **History of the Ancient Ryedales** Gideon Tibbetts Ridlon,1884 **Late Medieval Castles** Robert Liddiard,2016 A collection of the most significant articles in castle studies with contributions from scholars in history archaeology historic buildings and landscape archaeology The castles of the late medieval period represent some of the finest medieval monuments in Britain with an almost infinite capacity to fascinate and draw controversy They are also a source of considerable academic debate

The contents of this volume represent key works in castle scholarship. Topics discussed include castle warfare, fortress customs, architectural design and symbolism, spatial planning and the depiction of castles in medieval romance. The contributions also serve to highlight the diversity of approaches to the medieval castle, ranging from the study of documentary and literary sources, analysis of fragmentary architectural remains and the recording of field archaeology. The result is a survey that offers an in-depth analysis of castle building from the thirteenth to the fifteenth centuries and places castles within their broader social, architectural and political contexts. Robert Liddiard is Professor of History, University of East Anglia. Contributors: Nicola Coldstream, Charles Coulson, Philip Dixon, Graham Fairclough, P. A. Faulkner, John Goodall, Beryl Lott, Charles McKean, T. E. McNeill, Richard K. Morris, Michael Prestwich, Christopher Taylor, Muriel A. Whitaker.
