Industries focuses on watershed moments of musical breakthrough exploring what the music may have represented in a particular historical moment alongside its deeper cultural impact Through a discussion of the political meaning of mass mediated music author K E Goldschmitt argues for a shift in scholarly focus from viewing music as simply a representation of Otherness to taking into account the broader media environment where listeners and intermediaries often have conflicting priorities Goldschmitt demonstrates that the mediation of Brazilian music in an increasingly crowded transnational marketplace has lasting consequences for the creative output celebrated by Brazil Like other culturally rich countries in Latin America such as Cuba Mexico and Argentina Brazil has captured the imagination of people in many parts of the world through its music driving tourism and international financial investment while increasing the country s prominence on the world stage Nevertheless stereotypes of Brazilian music persist especially those that valorize racial difference Featuring interviews with key figures in the transnational circulation of Brazilian music and in depth discussions of well known Brazilian musicians alongside artists who redefine what it means to be a Brazilian musician in the twenty first century Bossa Mundo shows the pernicious effects of branding racial diversity on musicians and audiences alike **The Berimbau** Eric A. Meira Goldberg, 2019-06-20 Transatlantic Malagueñas and Zapateados is an exploration of two fandango dances recording the circulations of people imagery music and dance across what were once the Spanish and Portuguese Empires Although these dance musics seem to be mirror images the unbreachable space between them reflects the political fault lines along which nineteenth century musical populism and folkloric nationalism extend into present day debates about globalization immigration neoliberalism and neofascism If malagueñas are a fantastic incarnation of Spanishness caught like a fly in amber by their anachronistic references to a fraught imperial past noisy and raucous zapateado dances cut toward the future Inherently marked by European conventions of zapatos shoes zapateados are nonetheless shaped by Africanist and Native American footwork traditions In these Afro Indigenous mestizajes not only are European aesthetic values reordered and

resignified but the Catholic catechism which indoctrinated the New World yields to alternate spiritual systems springing out of a culture of resistance to European domination
