Rice Water Irrigation Conservation Man:

Rice Water Irrigation David J. Eaton, Policy Research Project on Agricultural Water Management in Central Texas, 2001
Agricultural Water Management Research Workshop Brent Mefford, 1992 **Rice Water Irrigation** David J. Eaton, Jobaid Kabir, Policy Research Project on Agricultural Water Management in Central Texas, 2001 **Water management for sustainable agriculture** Prof. T. Oweis, 2018-07-09 Comprehensive review of the range of water resources from groundwater and surface water to rainwater floodwater and waste water Discusses advances in irrigation techniques from surface irrigation to micro drip irrigation and fertigation Assesses methods for optimising agricultural water use in rainfed and other systems **Selected Water Resources Abstracts** ,1991 **Study Report on Wetland Agriculture and Water Management in the Mekong Region** Food and Agriculture Organization of the United Nations ,2020-08-01 Under FAO initiative on eco friendly water management for sustainable wetland agriculture the Asian Institute of Technology AIT as the service provider prepared the Study Report on Wetland Agriculture and Water Management in Mekong Region study report on wetland agriculture and water management in the Mekong Region for further program formulation The overall objective is to review the current water management in relation to agriculture and identify the good practices and experiences of water management as a win win solution for agriculture production and wetland conservation and recommend program formulation on eco friendly water management for sustainable wetland agriculture The expected outcome of the overall initiative is sustainable use of wetland to stress both productive and ecological functions of agriculture The outputs aim to provide the solution as a win win strategy for wetland and agriculture through eco friendly water management which will contribute to the ecological health function and integrity of the Mekong Wetland Agriculture Ecosystem Country consultation workshops were conducted for Cambodia Laos Thailand and Vietnam to increase awareness on the issues of sustainable wetland management and identify the threats gaps and needs priorities and way forward towards sustainable use of wetlands in the Mekong Region **Vector-borne Disease Control in Humans Through Rice Agroecosystem Management** ,1988 Overview Impact of engineering agronomy and water management practices on disease vectors Strategies for vector borne disease control Integrated vector control strategies *Agricultural Water Management (AWM) typologies* Alam, Mohammad Faiz, Durga, Neha, Sikka, Alok, Verma, Shilp, Mitra, Archisman, Amarasinghe, Upali, Mahapatra, Smaranika, 2022-11-01 Agroecological Footprints Management for Sustainable Food System Arnab Banerjee, Ram Swaroop Meena, Manoj Kumar Jhariya, Dhiraj Kumar Yadav, 2020-12-16 Agroecological footprints are a unique and popular concept for sustainable food system Measuring and keeping a tab on the agroecological footprints of various human activities has gained remarkable interest in the past decade From a range of human activities food production and agriculture are most essential as well as extremely dependent on the agroecosystems It is therefore crucial to understand the interaction of agroecosystem constituents with the extensive agricultural practices The

environmental impact measured in terms of agroecological footprints for a healthy for the sustainable food system The editors critically examine the status of agroecological footprints and how it can be maintained within sustainable limits Drawing upon research and examples from around the world the book is offering an up to date account and insight into how agroecology can be implemented as a solution in the form of eco friendly practices that would boost up the production curbs the environmental impacts improves the bio capacity and reduces the agroecological footprints It further discusses the changing status of the agroecological footprints and the growth of other footprint tools and types such as land water carbon nitrogen etc This book will be of interest to teachers researchers government planners climate change scientists capacity builders and policymakers Also the book serves as additional reading material for undergraduate and graduate students of agriculture agroforestry agroecology soil science and environmental sciences National and international agricultural scientists policymakers will also find this to be useful to achieve the Sustainable Development Goals

Redefining Diversity and Dynamics of Natural Resources Management in Asia, Volume 1 Ganesh Shivakoti,Ujjwal Pradhan,Helmi Helmi,2016-09-01 Redefining Diversity and Dynamics of Natural Resources Management in Asia Volumes 1 4 brings together scientific research and policy issues across various topographical area in Asia to provide a comprehensive overview of the issues facing the region Sustainable Natural Resources Management in Dynamic Southeast Asia Volume 1 pulls together regional experts in the field to look specifically at sustainability issues across the region to see what has been implemented what the impacts have been and what other options are available In the race to be a developed region many Southeast Asian countries have foregone natural resources through haphazard use As a result the people are faced with numerous environmental challenges particularly deforestation and forest degradation biodiversity loss and ecosystem degradation reduction in soil quality and decreases in the quantity of available water Community based forest management is the involvement of local communities in the protection conservation and management of public forests to prevent degradation through sustainable practices while still responding to the basic social and economic needs of local populations When the people who depend on forest resources for their livelihoods are jointly responsible for managing and protecting them they tend to do so in a more sustainable manner by focusing on the long term benefits rather than the immediate short term gains However when tenure rights are weak unclear or insecure or offer limited benefits people are incited in extracting more immediate benefits resulting in suboptimal forest management and the reduction of carbon stocks Features case studies that cover issues such as rising levels of deforestation forest degradation regional food security ecosystem degradation biodiversity loss conflicts over natural resource use water management issues and impacts on local communities Includes contributions from local researchers who are dealing with these issues first hand and on a daily basis Includes a comparative review on REDD implementation in different communities Focuses on sustainability issues across the region
