Ricoeur Reader Reflection And Imagination:

A Ricoeur Reader Paul Ricoeur, 1991-08-01 Paul Ricoeur is one of the most important modern literary theorists and a philosopher of world renown. This collection brings together his published articles, papers, reviews, and interviews that focus on literary theory and criticism. The first of four sections includes early pieces that explore the philosophical foundations for a post-structural hermeneutics. The second contains reviews and essays in which Ricoeur engages in debate over some of the central themes of literary theory, including figuration, configuration, and narrativity. In the third section are later essays on post-structuralist hermeneutics, and in the fourth, interviews in which he discusses text, language, and myths. Mario Valdés provides an introduction to the literary theories of Paul Ricoeur and the works in this collection, particularly He also includes a complete bibliography of Ricoeur's works that have appeared in English.

A Ricoeur Reader Paul Ricoeur, Mario J. Valdés, 1991 A work encompassing the range of Ricoeur's thought, looking at his contributions to literary theory and marking his place within the tradition of hermeneutics and the phenomenology of philosophy. Areas addressed are Structuralism and Post-Structuralism and the dialect of engagement.

Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline. As with any body of scholarship, various schools of thought exist and sometimes conflict within it. I. R. Makaryk has compiled a welcome guide to the field. Accessible and jargon-free, the Encyclopedia of Contemporary Literary Theory provides lucid, concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini-bibliographies, and cross-referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture.
