Ride The Big Red Cars How Trolleys Helped Build Southern California:

Ride the Big Red Cars Spencer Crump, 1962 *L.A. Freeway* David Brodsky, 2023-12-22 **The New Urban Sociology** Michael T. Monkkenen, 2024-06-04 America's cities celebrated by poets courted by politicians castigated by social reformers In their numbers and complexity they challenge comprehension Why is urban America the way it is Eric Monkkenen offers a fresh approach to the myths and the history of US urban development giving us an unexpected and welcome sense of our urban origins His historically anchored vision of our cities places topics of finance housing social mobility transportation crime planning and growth into a perspective which explains the present in terms of the past and offers a point from which to plan for the future This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1988 with a paperback in 1990 **The Lure of the Beach** Robert C. Ritchie, 2021-05-11 A human and global take on a beloved vacation spot The crash of surf smell of salted air wet whorls of sand underfoot These are the sensations of the beach that environment that has drawn humans to its life sustaining shores for millennia And while the gull's cry and the cove's splendor have remained constant throughout time our relationship with the beach has been as fluid as the runnels left behind

by the tide s turning The Lure of the Beach is a chronicle of humanity s history with the coast taking us from the seaside pleasure palaces of Roman elites and the aquatic rituals of medieval pilgrims to the venues of modern resort towns and beyond Robert C Ritchie traces the contours of the material and social economies of the beach throughout time covering changes in the social status of beach goers the technology of transport and the development of fashion from nudity to Victorianism and back again as well as the geographic spread of modern beach going from England to France across the Mediterranean and from nineteenth century America to the world And as climate change and rising sea levels erode the familiar faces of our coasts we are poised for a contemporary reckoning with our relationship and responsibilities to our beaches and their ecosystems The Lure of the Beach demonstrates that whether as a commodified pastoral destination a site of ecological resplendency or a flashpoint between private ownership and public access the history of the beach is a human one that deserves to be told now more than ever before Old Los Angeles and Pasadena in Vintage Postcards C. Milton Hinshilwood,Elena Irish Zimmerman,2001 Covering the history and geography of Los Angeles and Pasadena between 1900 and 1950 the collection of over 200 vintage postcards compiled in this new volume offers a unique glimpse into turn of the century southern California As communication by postcards became popular in the late 19th century those who received them were offered a rare view of the right here right now aspect that only postcard photography could offer From the earliest images of the Angels Flight in Los Angeles to the Tournament of Roses parades gliding down Colorado Street the authors celebrate the history of these two beautiful cities through the personal medium of vintage postcards **Sunshine Was Never Enough** John H. M. Laslett,2014-03-26 Delving beneath Southern California s popular image as a sunny frontier of leisure and ease this book tells the dynamic story of the life and labor of Los Angeles s large working class In a sweeping narrative that takes into account more than a century of labor history John H M Laslett acknowledges the advantages Southern California s climate open spaces and bucolic character offered to generations of newcomers At the same time he demonstrates that in terms of wages hours and conditions of work L A differed very little from America s other industrial cities Both fast paced and sophisticated Sunshine Was Never Enough shows how labor in all its guises blue and white collar industrial agricultural and high tech shaped the neighborhoods economic policies racial attitudes and class perceptions of the City of Angels Laslett explains how until the 1930s many of L A s workers were under the thumb of the Merchants and Manufacturers Association This conservative organization kept wages low suppressed trade unions and made L A into the open shop capital of America By contrast now at a time when the AFL CIO is at its lowest ebb a young generation of Mexican and African American organizers has infused the L A movement with renewed strength These stories of the men and women who pumped oil loaded ships in San Pedro harbor built movie sets assembled aircraft and in more recent times cleaned hotels and washed cars is a little known but vital part of Los Angeles history **Inventing Autopia** Jeremiah B.C. Axelrod,2009-06-02 Flat out one of the most interesting books I ve read in years To say that a book about California might

rank with Kevin Starr's *Americans and the California Dream* or Mike Davis' *City of Quartz* is dangerously high praise but I think Axelrod's book may someday be in that league. John Ganim, University of California Riverside, *Inventing Autopia* thoughtfully weaves together planning and policy history with cultural history to great effect. It is sure to change our understanding of the ways in which Los Angeles not only grew and developed but envisioned itself in the era. William Deverell, author of *Whitewashed Adobe: The Rise of Los Angeles and the Remaking of Its Mexican Past*. [Asphalt Nation](#) Jane Holtz Kay, 2012-06-20 *Asphalt Nation* is a major work of urban studies that examines how the automobile has ravaged America's cities and landscape and how we can fight back. The automobile was once seen as a boon to American life, eradicating the pollution caused by horses and granting citizens new levels of personal freedom and mobility. But it was not long before the servant became the master: public spaces were designed to accommodate the automobile at the expense of the pedestrian; mass transportation was neglected and the poor, unable to afford cars, saw their access to jobs and amenities worsen. Now even drivers themselves suffer as cars choke the highways and pollution and congestion have replaced the fresh air of the open road. Today our world revolves around the car: as a nation we spend eight billion hours a year stuck in traffic. In *Asphalt Nation*, Jane Holtz Kay effectively calls for a revolution to reverse our automobile dependency. Citing successful efforts in places from Portland, Maine to Portland, Oregon, Kay shows us that radical change is not impossible by any means. She demonstrates that there are economic, political, architectural, and personal solutions that can steer us out of the mess. *Asphalt Nation* is essential reading for everyone interested in the history of our relationship with the car and in the prospect of returning to a world of human mobility.
