Sibiul Gothic:

Church Archaeology in Transylvania (ca. 950 to ca. 1450) Daniela Marcu-Istrate, 2022-09-19 Transylvania has some of the most valuable monuments of medieval architecture in Europe The oldest church was built in the 10th century but most others came into being only after 1200 Later changes have considerably modified the appearance of still standing buildings Written sources are lacking for answers to questions about the identity of the builders and patrons Countering the idea that only standing structures can reflect the history of medieval churches in Transylvania this book uses archaeological sources in order to answer some of those questions and to bring to light the hidden past of many monuments *Wooden Churches of the Carpathians* Joby Patterson, 2001 This seminal study focuses on wooden churches built by Romanian peasants examining the evolution of church building from 1000 1900 in the region known as Maramures a particularly powerful source of Romanian cultural tradition from an art history perspective Secular Medieval Architecture in the Balkans 1300-1500 and Its Preservation Slobodan Ćurčić, Euangelia Chatzētryphōnos, 1997 History of Transylvania: From the beginnings to 1606 Béla Köpeczi, 2001 The first volume of a three volume history of Transylvania is designed to present Transylvanian history in a European context and with due attention to Transylvania's links to Hungary the Habsburg Empire the Romanian Principalities Turkey and other states of Europe The comparative approach is also prominent in the presentation of Transylvania's internal affairs in that the authors address the history demographic economic social political and cultural of the three major national groups Romanian Hungarian and Saxon **Acta Historiae Artium** ,1998 Istoria Transilvaniei Ioan Aurel Pop, Thomas Năgler, 2005 Studii de istorie a oraşelor Dan Dumitru Iacob, Vasile Ciobanu, 2017-06-01 *The History of Transylvania* Mihai Bărbulescu, Anton E. Dörner, Ioan Glodariu, Grigor P. Pop, Mihai Rotea, Tudor Sălăgean, Valentin Vasiliev, 2018 The authors of this work obviously of different nationalities have tried to depict the past of all Transylvania's inhabitants It is up to readers and particularly to specialists to assess how well they have done this This second volume like the first one is only an attempt to reflect the new historiographic findings and interpretations It tries to deepen one's knowledge of one's roots in present day Europe a continent still in the making a continent of many different inhabitants regions ethnic groups and nations It is our belief that the desire to know the past far from reflecting an obtuse selfish and past driven attitude is part of human nature of our search for our roots for the collective memory we have been creating with such hardiness and passion just like we build our life HungInfo ,1988 Romanian books ,1982 **Host Bibliographic Record for Boundwith Item Barcode 30112078737878 and Others** ,2013 Architecture Series: Bibliography ,1987 **Städte, Dörfer, Bauwerke** Paul Niedermaier, 2008 Paul Niedermaier geht recht fraglos zu den wichtigsten Vertretern der Siedlungs und Stadtgeschichtsforschung für das südliche Europa Seine während der letzten Jahrzehnte erschienenen Arbeiten haben grundlegende neue Einsichten etwa in die Siedlungsgenese im Donau-Karpaten-Raum oder in die Baugeschichte und die Bedeutung des Burgensystems Siebenbürgens gebracht Indem sie alternative und vielfältige

methodische Ansätze einbrachten und die primär auf schriftliche Quellen gestützten Erkenntnisse so bedeutend ergänzten, wirkten sie konstruktiv auf die gesamte historische Forschung ein. Diese Studien, deren wichtigste hier teilweise erstmals in deutscher Übersetzung versammelt sind, vermitteln zudem bemerkenswerte Einblicke in Fragen der Agrar- und Wirtschaftsgeschichte, der architektonischen und künstlerischen Entwicklungen oder der Geschichte der ethnischen Kollektive, insbesondere der deutschstämmigen Bewohner Siebenbürgens.
