Federalism and Second Chambers Wilfried Swenden, 2004 The theory of comparative federalism asserts that federations require a second chamber for the representation of regional interests in central law making Yet there has been little systematic analysis of the contribution of second chambers in parliamentary federations to this task The main purpose of this book is to demonstrate to what extent the two strongest parliamentary second chambers the Australian Senate and the German Bundesrat are linked to the federal structures in which they are embedded The study analyzes the contribution of the members of these second chambers in advancing interests that are linked to the regional constituents whom they represent or to the collective fiscal or administrative interests of a regional government with whom they are associated The analysis underscores the largely executive character of intergovernmental relations in parliamentary federations a feature that corresponds with the composition of the German Bundesrat but not of the Australian Senate In the concluding chapter some preliminary observations are made as to whether our findings also generate interesting insights for the larger group of parliamentary second chambers in federal or quasi federal states such as the Belgian Spanish and Canadian Senates the UK House of Lords and the Indian Rajya Sabha Abbott's Gambit Carol Johnson, John Wanna, Hsu-Ann Lee, 2015-01-21 This book provides a truly comprehensive analysis of the 2013 federal election in Australia which brought the conservative Abbott government to power consigned the fractious Labor Party to the Opposition benches and ended the hung parliament experiment of 2010-13 in which the Greens and three independents lent their support to form a minority Labor government It charts the dynamics of this significant election and the twists and turns of the campaign itself against a backdrop of a very tumultuous period in Australian politics Like the earlier federal election of 2010 the election of 2013 was an exercise in bipolar adversarial politics and was bitterly fought by the main protagonists It was also characterised again by leadership changes on Labor's side as well as the entry of new political parties anxious to deny the major parties a clear mandate Moreover the 2013 election continued the trend whereby an increasing proportion of the electorate has chosen not to vote for one of the main two political parties While the 2013 election delivered a clear victory to the Coalition in the Lower House it simultaneously produced a much more mixed outcome in the Senate where the Greens managed to record their largest ever representation and a new party the Palmer United Party initially secured three Senate positions at its first attempt together with the election of Clive Palmer to a Queensland seat in the House of Representatives With minor and micro parties also winning Senate seats amounting to a total of 18 Senators on the cross benches the Abbott government's ability to govern and pass legislation was placed in some doubt The 2013 election result suggested that far from ending the preceding tumultuous period of Australian politics it merely served to prolong this era indefinitely The 2013 campaign was one of the longest on record arguably commencing when the besieged Prime Minister Julia Gillard announced the date for the election

in late January 2013 then over seven months away This unconventional tactic overshadowed the election from that date onwards providing a definite timeline for Labor infighting influencing the largely negative tactics of the Opposition and encouraging new parties to proliferate to contest the election This volume traces these formative influences on the campaign dynamics and explains the electoral outcome that occurred including the 2014 re election for the Western Australian Senate seats ordered by the High Court Abbott s Gambit includes insightful contributions from academic experts campaign directors and electoral watchers political advisers and professional psephologists Contributors utilise a wide range of sources and approaches including the Australian Election Survey to provide a detailed analysis of this important federal election

Mackerras,1993-01-01 Electoral Systems David M. Farrell,2011-01-04 Electoral Systems examines the six principle types of electoral system currently in use in more than seventy of the world s democracies A common format is adopted throughout dealing with explanations of how the system operates and its effects on the political system *Multi-Level Democracy* Lori Thorlakson,2020-09-02 All federal systems face an internal tension between divisive and integrative political forces striking a balance between providing local autonomy and sub national representation on one hand and maintaining an integrated political community and sufficient integration to maintain stability on the other hand This book argues that parties and voters strategically respond to the incentives of federal institutional design to shape the development of arenas of political competition that are either predominantly independent or integrated across levels of the federation Drawing on a rich collection of original data including a dataset of aggregate level electoral data from over 2200 federal and state level elections in seven federations as well as the author s original dataset on party organizational linkage from a survey of sub national party elites this book demonstrates how two aspects of institutional design the degree of decentralization and the method of power allocation affect the development of integrated or independent politics as observed through voter behaviour party systems and party organization Using a mixed method research design it demonstrates how voters and parties react to federal institutional design It also provides nuance in the causal processes at play demonstrating how party organization party system structure and voter behaviour interact to produce a federalism that is predominantly integrating and stability enhancing or one that is predominantly autonomy and accountability enhancing Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Susan Scarrow Chair of the Department of Political Science University of Houston and Jonathan Slapin Professor of Political Institutions and European Politics Department of Political Science University of Zurich **Who's who in Australia** ,2006 Bibliographic Guide to Government Publications New York Public Library. Who's who of Australian Writers , 1991 A comprehensive listing of 5200 living Australian authors covering all fiction and non fiction genres For each writer a complete list of books plays and radio television and film scripts is included along with the names of periodicals in which their work has appeared Among other items covered are pseudonyms employment history awards contact details and availability for various activities An index lists writers by over 100 subject categories **Civic Engagement in Australian Democracy** Sarah Murray, Lachlan Umbers, 2025-05-13 The Australian democratic system has long been regarded as one of the most stable and predictable in the world with an entrenched two party duopoly compulsory voting ensuring high levels of electoral participation and relatively high levels of satisfaction with the democratic process Yet the ways Australians engage with and participate in their democracy have shifted substantially in recent times While a record proportion of Australians are now on the electoral roll less than 1% belong to a political party and the share of Australians that have always voted for the same party in Federal elections has declined from 72% in 1967 to 37% in 2022 Turnout in the 2022 Federal Election fell below 90% for the first time since the introduction of compulsory voting in 1924 Over 50% of voters cast their ballots early in 2022 up from around 10% in 2004 The advent of social media has afforded Australians a range of opportunities for political engagement but has also given rise to serious concerns surrounding the dissemination of misinformation And Australians have also recently been afforded several historically rare opportunities for direct participation in the lawmaking process particularly the 2017 same sex marriage plebiscite and the 2023 referendum on the Aboriginal and Torres Strait Islander Voice to Parliament These developments give rise to a wide range of deep difficult

questions for Australian democracy many of which have been under explored What for instance does the failure of the referendum on the Aboriginal and Torres Strait Islander Voice to Parliament mean for Australian democracy What sorts of opportunities ought to be afforded to Australians for direct participation in government How might climate change impact Australian democracy in the coming decades How might the rise in early voting impact the character of Australian democracy What opportunities do Australians have for engagement in civic life and what obstacles do they face in exercising them This edited collection brings together specialists in the democratic process to consider such questions alongside many others Moreover the collection is uniquely interdisciplinary insofar as the contributors are drawn from a diverse range of fields law philosophy political science and sociology The chapters each help bring us a broader understanding of civic participation in Australian democracy in order that we might evaluate the status quo and gauge where it might be headed in the future

Watershed Anika Gauja, Marian Sawer, Jill Sheppard, 2023-08-10 Australia's 2022 federal election played out in ways that few could have expected Not only did it bring a change of government it also saw the lowest number of primary votes for the major parties and the election of the greatest number of Independents to the lower house since the formation of the Australian party system The success of the Teal Independents and the Greens along with the appetite voters showed for doing politics differently suggested that the dominant model of electoral competition might no longer be the two party system of Labor versus Liberal At the very least the continued usefulness of the two party preferred vote as a way of conceptualising and predicting Australians voting behaviour has been cast into serious doubt In Watershed leading scholars analyse the election from the ground up focusing on the campaign issues the actors involved and the successes and failures of campaign strategy and show how digital media visual politics and fake news are changing the way politics is done Other topics include the impact of COVID 19 and the salience of climate gender and integrity issues as well as voting patterns and polling accuracy This authoritative book is indispensable for understanding the disenchantment with the major parties the rise of Community Independents and the role of the Australian Greens and third parties Watershed is the eighteenth in the ANU Press federal election series and the tenth sponsored by the Academy of the Social Sciences in Australia

Peace, Order, and Good Government Clement Macintyre, John Matthew Williams, John Williams, 2003 Fundamental reform of State Constitutions is needed now more than ever Indeed the process is under way in all States and Territories Across Australia there is a growing belief that public institutions must be made more relevant to the needs of an increasingly restless electorate

The Prince's New Clothes David Burchell, Andrew Leigh, 2002 Towards the end of the 20th century Australia was swept by a mood of cynicism towards politicians and government This comprehensive collection brings together politicians policy makers and scholars to answer difficult questions in the ethical dimension of Australian politics
