## Macro Economics:

**Macroeconomics** Merton H. Miller, Charles W. Upton, 1986-10-15 Miller and Upton is by far the most cited macroeconomics text in front line academic research journals over the last ten years It has become a contemporary classic Roger C Kormendi University of Michigan The most innovative approach to introducing macroeconomics that I have seen A classic in the sense that every serious student of macroeconomics is likely to want it in his or her library John P Gould University of Chicago The task the authors set out to perform is ambitious to write a macroeconomics textbook structured around a neoclassical growth model And in this task they have succeeded Clifford W Smith Jr Journal of Finance This is a superb book As a vehicle for teaching economics I have to place it right behind Henderson and Quant Microeconomics and Dorfman Samuelson and Solow Linear Programming Moreover it is an exciting book both to read and to think about It is not just that these authors have something to say but their way of saying it is generally superior F E Banks Kyklos

International Macroeconomics Stephanie Schmitt-Grohé, Martín Uribe, Michael Woodford, 2022-09-06 An essential introduction to one of the most timely and important subjects in economics International Macroeconomics presents a rigorous and theoretically elegant treatment of real world international macroeconomic problems incorporating the latest economic research while maintaining a microfounded optimizing and dynamic general equilibrium approach This one of a kind textbook introduces a basic model and applies it to fundamental questions in international economics including the determinants of the current account in small and large economies processes of adjustment to shocks the determinants of the real exchange rate the role of fixed and flexible exchange rates in models with nominal rigidities and interactions between monetary and fiscal policy The book confronts theoretical predictions using actual data highlighting both the power and limits of given theories and encouraging critical thinking Provides a rigorous and elegant treatment of fundamental questions in international macroeconomics Brings undergraduate and master s instruction in line with modern economic research Follows a microfounded optimizing and dynamic general equilibrium approach Addresses fundamental questions in international economics such as the role of capital controls in the presence of financial frictions and balance of payments crises Uses real world data to test the predictions of theoretical models Features a wealth of exercises at the end of each chapter that challenge students to hone their theoretical skills and scrutinize the empirical relevance of models Accompanied by a website with lecture slides for every chapter
