*Streetwalking on a Ruined Map* Giuliana Bruno, 2021-06-08 Emphasizing the importance of cultural theory for film history Giuliana Bruno enriches our understanding of early Italian film as she guides us on a series of inferential walks through Italian culture in the first decades of this century This innovative approach the interweaving of examples of cinema with architecture art history medical discourse photography and literature addresses the challenge posed by feminism to film study while calling attention to marginalized artists An object of this critical remapping is Elvira Notari 1875 1946 Italy's first and most prolific woman filmmaker whose documentary style work on street life in Naples a forerunner of neorealism was popularly acclaimed in Italy and the United States until its suppression during the Fascist regime Since only fragments of Notari's films exist today Bruno illuminates the filmmaker's contributions to early Italian cinematography by evoking the cultural terrain in which she operated What emerges is an intertextual montage of urban film culture highlighting a woman's view on love violence poverty desire and death This panorama ranges from the city's exteriors to the body's interiors Reclaiming an alternative history of women's filmmaking and reception Bruno draws a cultural history that persuasively argues for a spatial corporal interpretation of film language

*Renaissance Characters* Eugenio Garin, 1997-05-09 Compared to the Middle Ages the Renaissance is brief little more than two centuries extending roughly from the mid fourteenth century to the end of the sixteenth century and largely confined to a few Italian city states Nevertheless the epoch marked a great cultural shift in sensibilities the dawn of a new age in which classical Greek and Roman values were reborn and human values in all fields from the arts to civic life were reaffirmed With this volume Eugenio Garin a leading Renaissance scholar has gathered the work of an international

team of scholars into an accessible account of the people who animated this decisive moment in the genesis of the modern mind. We are offered a broad spectrum of figures major and minor as they lived their lives: the prince and the military commander, the cardinal and the courtier, the artist and the philosopher, the merchant and the banker, the voyager and women of all classes. With its concentration on the concrete, the specific, even the anecdotal, the volume offers a wealth of new perspectives and ideas for study.

**Madness** Petteri Pietikäinen, 2015-05-15. *Madness: A History* is a thorough and accessible account of madness from antiquity to modern times, offering a large-scale yet nuanced picture of mental illness and its varieties in western civilization. The book opens by considering perceptions and experiences of madness starting in Biblical times, Ancient history, and Hippocratic medicine, to the Age of Enlightenment, before moving on to developments from the late 18th century to the late 20th century and the Cold War era. Petteri Pietikäinen looks at issues such as 18th-century asylums, the rise of psychiatry, the history of diagnoses, the experiences of mental health patients, the emergence of neuroses, the impact of eugenics, the development of different treatments, and the late 20th-century emergence of anti-psychiatry and the modern malaise of the worried well. The book examines the history of madness at the different levels of micro, meso, and macro: the social and cultural forces shaping the medical and lay perspectives on madness, the invention and development of diagnoses, as well as the theories and treatment methods by physicians and the patient experiences inside and outside of the mental institution. Drawing extensively from primary records written by psychiatrists and accounts by mental health patients themselves, it also gives readers a thorough grounding in the secondary literature addressing the history of madness. An essential read for all students of the history of mental illness, medicine, and society more broadly.
