Purush, 2014-07-29 History indicates that Islam spread in its early times throughout Asia Africa and Europe very rapidly Probably no other religion spread throughout the world as fast as Islam did It is an undeniable fact that the Quran is a living book that has influenced millions of people through its beauty and style The superiority of the Quranic discourse was and still is challenging But Islam lovers do not give importance to the value of science and modern education But still people of third world countries do not try to understand what actually Islam is It is not even translated in Quran The Quran deals with both positive and negative issues Many Muslims hold a different view about Islam some positive and some negative That's why they easily get puzzled and can't take a proper decision My intent is not to harm Islam in any way but to encourage more critical thinking using reason and logic It's the accepting of ideas hammered into your head from childhood without critically examining those ideas with an adult mind It's the idea of being so committed to something being true one loses all ability to reason and think logically My goal for this book is to make you think about certain ideas harder than you ever did before I want to make you question your own beliefs and think about how you came to hold those beliefs in the first place I want you to challenge any of my ideas that do not make sense to you or ideas with which you disagree I am simply going back to the very beginning literally and critically examine some of the more universally accepted beliefs that we hold today As you follow me on this journey it's my hope that you will see that the idea of divine revelation may just be a lot more human than divine

The Naked And The Undead Cynthia Freeland,2018-03-05 Horror is often dismissed as mass art or lowbrow entertainment that produces only short term thrills Horror films can be bloody gory and disturbing so some people argue that they have bad moral effects inciting viewers to imitate cinematic violence or desensitizing them to atrocities In The Naked and the Undead Evil and the Appeal of Horror Cynthia A Freeland seeks to counter both aesthetic disdain and moral condemnation by focusing on a select body of important and revealing films demonstrating how the genre is capable of deep philosophical reflection about the existence and nature of evil both human and cosmic In exploring these films the author argues against a purely psychoanalytic approach and opts for both feminist and philosophical understandings She looks at what it is in these movies that serves to elicit specific reactions in viewers and why such responses as fear and disgust are ultimately pleasurable The author is particularly interested in showing how gender figures into screen presentations of evil The book is divided into three sections Mad Scientists and Monstrous Mothers which looks into the implications of male rationalistic scientific technology gone awry The Vampire s Seduction which explores the attraction of evil and the human ability or inability to distinguish active from passive subject from object and virtue from vice and Sublime Spectacles of Disaster which examines the human fascination with horror spectacle This section concludes with a chapter on graphic horror films like The Texas Chainsaw Massacre Written for both students and film enthusiasts the book examines a wide array of films including The Silence of the Lambs Repulsion Frankenstein The Fly Dead Ringers Alien Bram Stoker s Dracula Interview with the Vampire Frenzy The Shining Eraserhead Hellraiser and many others
