**The Edwardian Detective** Professor Joseph Kestner, 2017-11-22 This title was first published in 1999 the law as literature the role of literature in surveillance and policing the interpretation of legal issues by literature the degree to which literature describes and interprets law the description of legal processes in detective literature and the connections between detective literature and cultural practices and transitions

**Purity and Contamination in Late Victorian Detective Fiction** Dr Christopher Pittard, 2013-05-28 Concentrating on works by authors such as Fergus Hume Arthur Conan Doyle Grant Allen L T Meade and Marie Belloc Lowndes Christopher Pittard explores the complex relation between the emergence of detective fictions in the 1880s and 1890s and the concept of purity The centrality of material and moral purity as a theme of the genre Pittard argues both reflected and satirised a contemporary discourse of degeneration in which criminality was equated with dirt and disease and where national boundaries were guarded against the threat of the criminal foreigner Situating his discussion within the ideologies underpinning George Newnes's Strand Magazine as well as a wide range of nonfiction texts Pittard demonstrates that the genre was a response to the seductive and impure delights associated with sensation and gothic novels Further Pittard suggests that criticism of detective fiction has in turn become obsessed with the idea of purity thus illustrating how a genre concerned with policing the impure itself became subject to the same fear of contamination Contributing to the richness of Pittard's project are his discussions of the convergence of medical discourse and detective fiction in the 1890s including the way social protest movements like the antivivisectionist campaigns and medical explorations of criminality raised questions related to moral purity

**Formal Investigations: Aesthetic Style in Late-Victorian and Edwardian Detective Fiction** Paul Fox, Koray Melikoglu, 2014-05-01 The essays in this revised and expanded volume explore a variety of structuring taxonomies the relationships between the aesthetic forms styles and methodologies of detective and crime fiction in the late Victorian and

Edwardian period The influences on the artists in the genre are as varied as the interests of the period in scientific method forensics archaeology aesthetics medicine and the paranormal But the formalizing tendencies of investigative process remain and it is this adherence in artist and detective alike to seeing crime and its resolution as a stylistic imposition of structure on disorder that is under examination *The Routledge Handbook of Crime Fiction and Ecology* Nathan Ashman,2023-10-27

The Routledge Handbook of Crime Fiction and Ecology is the first comprehensive examination of crime fiction and ecocriticism Across 33 innovative chapters from leading international scholars this Handbook considers an emergent field of contemporary crime narratives that are actively responding to a diverse assemblage of global environmental concerns whilst also opening up classic crime fictions and writers to new ecocritical perspectives Rigorously engaged with cutting edge critical trends it places the familiar staples of crime fiction scholarship from thematic to formal approaches in conversation with a number of urgent ecological theories and ideas covering subjects such as environmental security environmental justice slow violence ecofeminism and animal studies The Routledge Handbook of Crime Fiction and Ecology is an essential introduction to this new and dynamic research field for both students and scholars alike *The Sorceress of the Strand and Other Stories* L.T. Meade,2016-02-18

In 1898 The Strand Magazine one of the most influential publications of the Victorian fin de siècle deemed best selling author and editor L T Meade a literary celebrity and one of the most industrious writers of modern fiction Beginning in 1893 and continuing into the first decade of the twentieth century Meade's medical mysteries and thrilling tales of dangerous criminal women appeared in The Strand There they competed successfully not only with Arthur Conan Doyle's Adventures of Sherlock Holmes but also with the works of the most popular writers of the day The Sorceress of the Strand is one of Meade's most compelling mysteries and the first to feature the seductive criminal genius Madame Sara The Sorceress of the Strand is accompanied in this edition by three other popular stories featuring powerful female criminal protagonists from gang leaders to spies and terrorists The historical appendices expand on the stories themes of criminality gender and political activism Twenty eight of the original periodical illustrations are included [Jews and Gender in Liberation France](#) K. H. Adler,2003-08-07

This book takes a new look at occupied and liberated France through the dual prism of race specifically Jewishness and gender core components of Vichy ideology The imagining of liberation and the potential post Vichy state lay at the heart of resistance strategy Their transformation into policy at liberation forms the basis of an enquiry that reveals a society which while split deeply at the political level found considerable agreement over questions of race the family and gender This is explained through a new analysis of republican assimilation which insists that gender was as important a factor as nationality or ethnicity A new concept of the long liberation provides a framework for understanding the continuing influence of the liberation in post war France where scientific planning came to the fore but whose exponents were profoundly imbued with reductive beliefs about Jews and women that were familiar during Vichy **Framed** Elizabeth Carolyn Miller,2009-12-21

T. Meade,2004-06-01 She turned red as she spoke and the worried uneasy expression became more marked on her face I had noticed for some time that she had been looking both nervous and depressed I had first observed this peculiarity about her on board the Norham Castle but as time went on instead of lessening it grew worse Her face for so young a woman was haggard she started at each sound and Madame Sara s name was never spoken in her presence without her evincing almost undue emotion The Reader ,1906

*British Detective Fiction 1891-1901* Clare Clarke,2020-07-13 This book examines the developments in British serial detective fiction which took place in the seven years when Sherlock Holmes was dead In December 1893 at the height of Sherlock s popularity with the Strand Magazine s worldwide readership Arthur Conan Doyle killed off his detective At the time he firmly believed that Holmes would not be resurrected This book introduces and showcases a range of Sherlock s most fascinating successors exploring the ways in which a huge range of popular magazines and newspapers clamoured to ensnare Sherlock s bereft fans The book s case study format examines a range of detective series created by L T Meade C L Pirkis Arthur Morrison Fergus Hume Richard Marsh Kate and Vernon Hesketh Prichard that filled the pages of a variety of periodicals from plush monthly magazines to cheap newspapers in the years while Sherlock was dead Readers will be introduced to an array of detectives professional and amateur male and female old and young among them a pawn shop worker a scientist a British aristocrat a ghost hunter The study of these series shows that there was life after Sherlock and proves that there is much to learn about the development of the detective genre from the successors to Sherlock Holmes In this brilliant incisive study of late Victorian detective fiction Clarke emphatically shows us there is life beyond Sherlock Holmes Rich in contextual detail and with her customary eye for the intricacies of publishing history Clarke s wonderfully accessible book brings to the fore a collection of hitherto neglected writers simultaneously made possible but pushed to the margins by Conan Doyle s most famous creation Andrew Pepper Senior Lecturer in English and American Literature Queen s University Belfast Professor Clarke s superb new book *British Detective The Successors to Sherlock Holmes* is required reading for anyone interested in Victorian crime and detective fiction Building on her award winning first monograph *Late Victorian Crime Fiction in the Shadows of Sherlock* Dr Clarke further explores the history of serial detective fiction published after the death of Conan Doyle s famous detective in 1893 This is a path breaking book that advances scholarship in the field of late Victorian detective fiction while at the same time introducing non specialist readers to a treasure trove of stories that indeed rival the Sherlock Holmes series in their ability to puzzle and entertain the most discerning reader Alexis Easley Professor of English University of St Paul Minnesota **The Literary Legacy of Rebecca West** Carl Rollyson,2016-06-28 The Literary Legacy of Rebecca West is the first book to explore the entire corpus of her extraordinary seventy one year

writing career The general introductory studies of West are outdated and do not take into account her posthumous publications or her large literary archive of unpublished letters and manuscripts Previous scholarly books have chopped West up into categories and genres instead of following the evolution of her career
