The Empress Josephine. An Historical Sketch of the Days of Napoleon ... Translated from the German, by ... W. Binet. Illustrated by G. Fay Louise MUEHLBACH (pseud. [i.e. Clara Mundt.]), 1868 Court of Napoleon; Or, Society

Under the First Empire Frank Boott Goodrich, 1880 **Wild Northern Scenes, Or, Sporting Adventures with the Rifle and the Rod** Samuel H. Hammond, 1857 This work by an Albany attorney and avid sportsman is one of the first significant American statements of the value of wilderness Celebrating the Adirondack region as a resource for human health rejuvenation and recreation it offers a series of reminiscences demonstrating the pleasures of sport comradeship conversation and natural beauty in a place which civilization with its improvements and its rush of progress has not yet invaded p vii In a fast changing world Hammond sees the wilderness as a living survival of America's ancient past inhabited by the same wild things save the red man that were there thousands of years ago vii He proposes that a portion of the region a circle of a hundred miles in diameter p 83 be set aside as a permanent wilderness protected by law from human alteration a place wherein a man could turn savage and rest for a fortnight or a month from the toils and cares of life p 84 Yet Hammond also celebrates the advance of Christianity and civilization taking the place of the ancient forests pp 206 207 throughout the land This apparent paradox points to what is perhaps the book's most basic theme nineteenth century Americans simultaneous fascination and disquiet with commitment to and reservations about the pace and scale of change and progress in contemporary American life This theme provides the explanatory context for Hammond's celebration of wilderness and his revolutionary proposal to protect it Wilderness is important not in its own right as biological community but because of its value to man strictly circumscribed in space a place of merely temporary recourse for human beings it can function as a supportive resource for civilization Give a month to the enjoyment of a wilderness life and you will return to your labors invigorated in strength buoyant in spirit a wiser healthier and a better man p 341 Hammond's apparent paradox is in fact no paradox at all contact with wilderness is in effect a kind of lubricant to soothe the frictions of the modern world re engaging contemporary man in the workings of that world more effectively and smoothly and wilderness itself is no longer civilization's potent opponent but its servant its domesticated complement An early instance of the prominent role sportsmen played in the conservation movement illuminating the popular sensibility from which the movement for permanent protection of wilderness sprang this work suggests that the motivations for that movement were complex indeed Memoirs of the Emperor Napoleon Laure Junot Abrantès (duchesse d'), 1901
