 Dharendra Jha, 2023-01-24 The life of Nathuram Godse the man who shot Gandhi Dharendra Jha s deeply researched history places Nathuram Godse s life as the juncture of the dangerous fault lines in contemporary India the quest for independence and the rise of Hindu nationalism On a wintry Delhi evening on 30 January 1948 Nathuram Godse shot Gandhi at point blank range forever silencing the man who had delivered independence to his nation Godse s journey to this moment of international notoriety from small towns in western India is by turns both riveting and wrenching Drawing from previously unpublished archival material Jha challenges the standard account of Gandhi s assassination and offers a stunning view on the making of independent India Born to Brahmin parents Godse started off as a child mystic However success eluded him The caste system placed him at the top of society but the turbulent times meant that he soon became a disaffected youth desperately seeking a position in the infant nation In such confusing times Godse was one of hundreds and later thousands of young Indian men to be steered into the sheltering fold of early Hindutva Indian nationalism His association with early formations of the RSS and far right thinkers such as Sarvakar proves that he was not working alone Today he is considered to be a patriotic hero by many for his act of bravery despite being found guilty in court and executed in 1949 **A**

This book presents an analysis of the foundations organised by the Birla family in India Several generations were involved in the renovation and establishment of sanctuaries temples and other sacral buildings As a result between 1933 and 1998 nineteen Birla Mandirs were established mainly in northern and central India All the temples have the capacity to surprise with their various decorative motifs not seen in other places which apart from their aesthetic function above all bear important symbolic content Therefore is it possible to treat the Birla Mandirs as a specific medium the carrier of a particular message that is not only religious but with a significance that permeates other layers of social and political discourse This message as the authors of the book claim have a bearing on the socio political thought of India supported by the creation and propagation of ideas related to identity and a national art It also conveys the idea of hierarchical Hindu inclusivism which although considering all religions as equal treats Hinduism in a unique way seeing within it the most perfect form of religion giving man the opportunity to learn the highest truth The book also examines whether the temples founded by the Birla family and the religious activities undertaken therein apply the concept of inventing tradition and whether traditions created or modernised in contemporary times are a way of enhancing the appeal of the message conveyed from temple to society

The Vastness of Culture is a series of publications presenting cultural studies and emphasizing the role of comparative research and analyses that reveal similarities differences and intercultural influences In our publications cultures and civilizations are in a state of constant flux engaging in dialogue creating new understandings competing for meaning under the influence of global content without any clear boundaries but with a vastness that forces questions to be raised **Ascetic Culture** ,2021-12-06 The collection of papers in Ascetic Culture Renunciation and Worldly Engagement was entirely conceived and developed by K Ishwaran who died in June 1998 The original concept was to focus on Tradition and Innovation in Monastic Life in South Asia a topic which combined two of Ishwaran s major interests comparative studies of the monastic systems of south Asia and criticism of Western anthropological and sociological assumptions of tradition and modernity being antithetical especially with regard to traditional religions Ishwaran saw this collection of papers as reinforcing the demise of universalistic projects all encompassing grand master narratives and similar globally integrative theoretical or empirical enterprises in social discourse flowing from the post structural and post modernist revolutions in the social sciences Later he conceived of broadening this topic to be more liberally comparative to include major religious traditions around the world The new title was to be Tradition and Modernity in Monastic orders in Contemporary Societies Finally he broadened the theme to the present title of his collection Taken together the articles appearing in this book strongly support Ishwaran s theses First is the obvious point that eremitism and asceticism are far more complex than commonly understood in the scholarly world If ever a general understanding of these interrelated phenomena is developed careful examination not only

how they are found in these cultures and traditions but also study of their particular manifestations in individual movements places cultures social groups etc must take place The second thesis is clearly established by the range of these papers ascetic traditions are not only inimical to modernity they may be found at the heart of certain contemporary social and cultural developments K Ishwaran has rendered the study of religion in particular and the social sciences in general an important service with this anthology Contributors are John E Cort Alan Davies Balkrishna G Gokhale Daniel Gold Shaman Hatley Sohail Inayatullah Klaus K Klostermaier David Miller S A Nigosian Jordan Paper and Earle H Waugh The Caravan Delhi Press Magazines,2018-12-05 The Caravan is India s most respected and admired magazine on politics art and culture With a strong literary flair the magazine presents the best of reportage and commentary on politics policy economy art and culture from within South Asia It has become an essential read for anyone interested in understanding the political and social environment of the country **Radhakrishnan** K. Satchidananda Murty,Ashok Vohra,1990-09-11 This book presents a critical and comprehensive biography of Radhakrishnan The authors explain how Radhakrishnan who had a British knighthood and an Oxford Professorship and who did not participate in India s struggle for freedom became important in the political life of Independent India They show how this philosophy professor and vice chancellor often expressed radical views developed rapport with national leaders and became President of Indian under Nehru without losing the goodwill and regard of either the British intellectuals or the colonial government of India It is the thought of Sarvepalli Radhakrishnan that is most often presented in the West as Hinduism Through an analysis of his autobiographical sketches writings of those who knew him and worked with him and documents the authors come to grips with Radhakrishnan s complex personality which in spite of his greatness and varied achievements is all too human **History of Freedom Movement in India -Vol 3** TARA CHAND,2017-11-03 The first two volumes of the History of the Freedom Movement in India were concerned with the preparation of the ground for the emergence of the concept of nationalism and freedom The Third Volume deals with the spread of nationalist ideas and growth of the urge for self determination
