Made For Each Other:

Made for Each Other Meg Daley Olmert, 2009 Nothing turns a baby's head more quickly than the sight or sound of an animal This fascination is driven by the ancient chemical forces that first drew humans and animals together It is also the same biology that transformed wolves into dogs and skittish horses into valiant comrades that would carry us into battle Made for Each Other is the first book to explain how this chemistry of attraction and attachment flows through and between all mammals to create the profound emotional bonds humans and animals still feel today Drawing on recent discoveries from neuroscience evolutionary biology behavioral psychology archeology as well as her own investigations Meg Daley Olmert explains why the brain chemistry humans and animals trigger in each other also has a profound effect on our mental and physical well being This lively and original investigation asks what happens when the bond is severed If thousands of years of caring for animals infused us with a biology that shaped our hearts and minds do we dare turn our back on it Daley Olmert makes a compelling and scientific case for what our hearts have always known that we were and always will be made for each other

Made for Change Ja'marie Wilson,2006-06 *Made for Trade* John Talbot,2017-12-14 The Late Iron Age coinage of England has long been recognized as an invaluable potential source of information about pre Roman Britain although its purpose has been much debated and never clearly established Most research using this source material has been either detailed numismatic studies which seek to categorize and tabulate the types of coin and order them chronologically based on stylistic change or more general attempts to draw out meaning from the imagery or inscriptions on the coins In *Made for Trade* John Talbot presents the findings of a decade long investigation that has challenged many preconceptions about the period The coinage of the Iceni in East Anglia was used as the raw material with a view to establishing its original purpose and what it can tell us about society and the use of coinage in the Late Iron Age of this region A die study was performed on every known example over 10 000 coins Each coin was created by a metal pellet being struck by two dies and the die study sought to identify the dies used in each of the 20 000 strikes Because dies wear change and are replaced this enabled definitive chronologies to be constructed and the underlying organization of the coinage to be fully appreciated for the first time It is believed to be one of the largest such studies ever attempted and the first of this scale for British Iron Age coinage Talbot further explores production weight and metal content as the coinage evolved the use of imagery and inscriptions and patterns of hoarding These various threads demonstrate that the coinage was economic in nature and reflected development of a more sophisticated monetary society than had previously been thought possible contradicting many previous assumptions *Simply Christian* N. T. Wright,2010-02-09 Why is justice fair Why are so many people pursuing spirituality Why do we crave relationship And why is beauty so beautiful N T Wright argues that each of these questions takes us into the

mystery of who God is and what he wants from us For two thousand years Christianity has claimed to answer these mysteries and this renowned biblical scholar and Anglican bishop shows that it still does today Like C S Lewis did in his classic Mere Christianity Wright makes the case for Christian faith from the ground up assuming that the reader is starting from ground zero with no predisposition to and perhaps even some negativity toward religion in general and Christianity in particular His goal is to describe Christianity in as simple and accessible yet hopefully attractive and exciting a way as possible both to say to outsiders You might want to look at this further and to say to insiders You may not have quite understood this bit clearly yet
