Writing the Americas in Enlightenment Spain Thomas C. Neal,1931-07-31 How did literary discourse about empire contribute to discussions about the implications of modernity and progress in eighteenth century Spain Writing the Americas seeks to answer this question by examining how novels plays and short stories imagined and contested core notions about enlightened knowledge Expanding upon recent transatlantic and postcolonial approaches to Spain s Enlightenment that have focused mostly on historiographical and scientific texts this book disputes the long standing perception of the Spanish Enlightenment as an imitative movement best defined best by its similarities with French and British contexts Instead through readings of major and minor texts by authors such as Jos Cadalso Gaspar Melchor Jovellanos Pedro Monteng n and Jos Mar a Blanco White Writing the Americas argues that literary texts advanced a unique exploration of the compatibility between supposed universal principles and local histories one which often diverged noticeably from dominant trends and patterns in Enlightenment thought elsewhere The authors studied often drew directly from Spain s own imperial experiences to submit prevailing ideas about culture commerce education and political organization to scrutiny Writing the Americas provides a new critical lens through which to reexamine the aesthetic and political content of eighteenth century Spanish cultural production While in the past much of the debate about whether Spanish neoclassicism was modern literature has centered on formalistic qualities or romantic notions of originality or subjectivity ultimately Writing the Americas locates the modernity of these literary works within the very ideological tensions they display towards the prevailing intellectual trends of the time The interdisciplinary content and approach of Writing the Americas make it a valuable resource for a broad range of scholars including specialists in eighteenth century and modern Hispanic literature and culture colonial Hispanic literature and culture transatlantic American studies European Enlightenment studies and modernity studies **Revisiting Centres**

and Peripheries in Iberian Studies Mark Gant,2019-08-05 Like its predecessor and companion volume New Journeys in Iberian Studies this volume gathers fresh and emerging research in a range of sub fields of Iberian studies from an international range of established academics and early career researchers The book provides rich evidence of the breadth and depth of new research being carried out in the dynamic field of Iberian studies at present As the title suggests a strong thread running through the collection is concerned with investigating the multiple spaces of tension between the centre and periphery that comprise the Iberian cultural system Topically the current situation in Catalonia naturally comes to the fore in

a number of chapters and from a range of perspectives However in the revisiting of a range of cultural products and historical processes undertaken by the contributors it can be seen that transoceanic postcolonial relations are not neglected and concerns with history memory and fiction also weave their way through their work Revisiting Al-Andalus Glaire D. Anderson, Mariam Rosser-Owen, 2007 Revisiting al Andalus brings together a range of new approaches to the material culture of Islamic Iberia highlighting especially new directions in Anglo American scholarship in this field since the influential exhibition in 1992 Al Andalus the Art of Islamic Spain *Finisterre II: Revisiting the Last Place on Earth* Wladimir Chávez, Leonor Taiano, Gen Yamabe, 2024-02-10 Finisterre II Revisiting the Last Place on Earth Migrations in Spanish and Latin American Culture and Literature is a collective aesthetic historical literary and cultural analysis of how biopolitical cultural and economic trends have impacted narratives about migration in the Hispanic world Considering migrants as protagonists of their stories the book approaches the migrant as a subject of cultural patrimony and knowledge The different articles written by scholars from the United States Japan Norway the United Kingdom and Ecuador examine how Hispanic art and narratives of migrancy allow us to re evaluate the cultural understanding of borders **Revisiting Jewish Spain in the Modern Era** Daniela Flesler, Tabea Linhard, Adrián Pérez Melgosa, 2015-07-16 This innovative volume offers fresh perspectives and directions on the intersection of Hispanic and Jewish studies It shows how Jewishness has played a crucial role in Spanish political social and cultural developments in the modern era exploring the effects of the multiple material and symbolic absences of Jews and Judaism from modern Spanish society The book considers the haunting presence that this absence has entailed Contributors analyze the different and contradictory ways in which Spain as a nation has tried to come to terms with its Jewish memory and with Jews from the nineteenth century to the present Jos Amador de los R os efforts to incorporate Jewishness into the canon of Spanish national literature and history the emergence in the mid nineteenth century of the figure of the Jewish conspirator who seeks to foment revolutionary unrest in novels from Spain Italy and France the development of philosephardism and its interconnections with anti Semitism Spanish fascism and colonial ambitions at the turn of the twentieth century the instrumentalization of the Spanish Jewish past during the Second Republic the role of philosemitism in the development of Catalan nationalism and the relationship between the memory of Sepharad and Holocaust commemoration in contemporary Spain This book is based on a special issue of the Journal of Spanish Cultural Studies **Revisiting Crimes of the Powerful** Steven Bittle, Laureen Snider, Steve Tombs, David Whyte, 2018-06-13 Frank Pearce was the first scholar to use the term crimes of the powerful His ground breaking book of the same name provided insightful critiques of liberal orthodox criminology particularly in relation to labelling theory and symbolic interactionism while making important contributions to Marxist understandings of the complex relations between crime law and the state in the reproduction of the capitalist social order Historically crimes of the powerful were largely neglected in crime and deviance studies but there is now an important and growing body of work addressing this gap This book brings together

leading international scholars to discuss the legacy of Frank Pearce's book and his work in this area demonstrating the invaluable contributions a critical Marxist framework brings to studies of corporate and state crimes nationally internationally and on a global scale This book is neither a hagiography nor a review of random areas of social scientific interest Instead it draws together a collection of scholarly and original articles which draw upon and critically interrogate the continued significance of the approach pioneered in *Crimes of the Powerful* The book traces the evolution of crimes of the powerful empirically and theoretically since 1976 shows how critical scholars have integrated new theoretical insights derived from post structuralism feminism and critical race studies and offers perspectives on how the crimes of the powerful and the enormous ongoing destruction they cause can be addressed and resisted *Revisiting Secularism in Theory and Practice* Seda Ünsar,Özgür Ünal Eriş,2020-02-21 This book offers a philosophical and macro historical analysis of secularism supported by an investigation of various contemporary cases Starting with an in depth theoretical discussion of the meaning of secularism it subsequently presents a historical study on the secularization of norms and identities in Europe The respective case studies cover topics such as the epistemologies of secularism liberalization and embedded secularism the relationship between modernity and secularism the socio anthropology of secularism Turkish modernization as a cultural revolution the political economy of secularism in Turkey and the secular rationale of the EU neighborhood policy

Integrated Water Resources Management in the 21st Century: Revisiting the paradigm Pedro Martinez-Santos, Maite M. Aldaya, M. Ramón Llamas, 2014-03-03 Integrated water resources management advocates a coordinated approach for managing water resources in a way that balances social and economic needs with concern for the environment While potentially useful integrated water management is also controversial Supporters believe that the multi dimensional nature of water can only be understood and managed from a holistic perspective while critics often argue that integrated water management lacks sufficiently well defined rules for its practical implementation This book written by academics users and practitioners provides a down to earth approach to the ideal of integrated water resources management drawing from conceptual frameworks and real life practice to identify the key aspects that are yet to be resolved As such it examines the role of water accounting food trade environmental externalities and intangible values as key aspects whose consideration may help the water management community move forward Overall integrated water resources management is perceived to be a useful utopia whose value lies more in the steps that need to be taken to make it a reality than in achieving its ever elusive end goal **Urban Transport XX** C. A. Brebbia, 2014-05-28 Urban Transport XX contains the proceedings of the 20th International Conference on Urban Transport and the Environment Transportation in urban areas with its related environmental and social impacts is a topic of significant concern for policymakers in both municipal and central government and for the urban citizens who need effective and efficient transport systems Urban transport systems require considerable studies to devise and then safeguard their operational use maintenance and operational safety Transportation systems

produce significant environmental impacts and can enhance or degrade the quality of life in urban centres Clearly the challenge of providing effective and efficient transport systems in urban settings remains an acute challenge with financial political and environmental constraints limiting the ability of transport system planners and operators to deliver the high quality outcomes expected by the public Topics covered include Transport Strategies Public Transport Systems Environmentally Friendly Transport Modes Pedestrians and Traffic Environmental Impact Intelligent Transport Systems Transport Safety and Security Infrastructure Experiences from Emerging Countries Land use and Transport Integration
