Edited by Emma Hardinge, Afterwards Britten.], 1876 **The History of Witchcraft and Demonology** Montague Summers, 2014-04-04 Originally published between 1920-70, *The History of Civilization* was a landmark in early twentieth-century publishing. It was published at a formative time within the social sciences and during a period of decisive historical discovery. The aim of the general editor, C. K. Ogden, was to summarize the most up-to-date findings and theories of historians, anthropologists, archaeologists, and sociologists. This reprinted material is available as a set or in the following groupings or as individual volumes: Prehistory and Historical Ethnography Set of 12 0 415 15611 4 800 00; Greek Civilization Set of 7 0 415 15612 2 450 00; Roman Civilization Set of 6 0 415 15613 0 400 00; Eastern Civilizations Set of 10 0 415 15614 9 650 00; Judaeo-Christian Civilization Set of 4 0 415 15615 7 250 00; European Civilization Set of 11 0 415 15616 5 700 00. **The History of Witchcraft and Demonology** Montague Summers, 1926 This work about witchcraft, sorcery, black magic, neuromancy, damnation, satanism, and every kind of magic and occult is written by the undisputed scholar in the field and is a work of unprecedented authority of interest to all who are connected with the subject. [The Ashgate Research Companion to Nineteenth-Century Spiritualism and the Occult](#) Tatiana Kontou, 2016-03-23 Critical attention to the Victorian supernatural has flourished over the last twenty-five years. Whether it is spiritualism or Theosophy, mesmerism, or the occult, the dozens of book-length studies and hundreds of articles that have appeared recently reflect the avid scholarly discussion of Victorian mystical practices. Designed both for those new to the field and for experts, this volume is organized into sections covering the relationship between Victorian spiritualism and science, the occult and politics, and the culture of mystical practices. *The Ashgate Research Companion to Nineteenth-Century Spiritualism and the Occult* brings together some of the most prominent scholars working in the field to introduce current approaches to the study of nineteenth-century mysticism and to define new areas for research. *A Guide to Magic, Witchcraft and the Paranormal* Sax Rohmer, 2019-01-04 First published in 2005, *The Shadow Side of Sax Rohmer* is revealed in this long-unobtainable volume, widely known as the author of the popular Fu Manchu books. He was also a dedicated scholar of the occult and an adept in the mystic arts. Written for the layman, his only non-fiction work is this guide to the realm of magic in its many forms, beginning with the birth of sorcery in ancient Egypt. The Moslem djinns, the sibylls, the philosophy of the Magi, modes of divination, and magic of the Brahmins are all examined, as are the manifestations of sorcery in Europe, including witchcraft at the French royal court and the infamous witch trials of

Scotland The stories of key figures such as Apollonius of Tyana Nostradamus Dr John Dee and Cagliostro are recounted in detail and there is a comprehensive index from alchemy to zodiac Rohmer aims to bridge the gulf that has opened as a result of modernity between revealed religion and the ancient truths that need to be sought anew There is no better general introduction to magic sorcery and the paranormal Spiritualism, Mesmerism and the Occult, 1800-1920 Vol 1 Shane McCorristine, 2021-12-16 This edition provides an insight into the dark areas between Victorian science medicine and religion The rare reset source material in this collection is organized thematically and spans the period from initial mesmeric experiments at the beginning of the nineteenth century to the decline of the Society for Psychical Research in the 1920s

Matter, Magic, and Spirit David Murray, 2013-04-23 The spiritual and religious beliefs and practices of Native Americans and African Americans have long been sources of fascination and curiosity owing to their marked difference from the religious traditions of white writers and researchers Matter Magic and Spirit explores the ways religious and magical beliefs of Native Americans and African Americans have been represented in a range of discourses including anthropology comparative religion and literature Though these beliefs were widely dismissed as primitive superstition and inferior to higher religions like Christianity distinctions were still made between the supposed spiritual capacities of the different groups David Murray's analysis is unique in bringing together Indian and African beliefs and their representations First tracing the development of European ideas about both African fetishism and Native American primitive belief he goes on to explore the ways in which the hierarchies of race created by white Europeans coincided with hierarchies of religion as expressed in the developing study of comparative religion and folklore through the nineteenth century Crucially this comparative approach to practices that were dismissed as conjure or black magic or Indian medicine points as well to the importance of their cultural and political roles in their own communities at times of destructive change Murray also explores the ways in which Indian and African writers later reformulated the models developed by white observers as demonstrated through the work of Charles Chesnutt and Simon Pokagon and then in the later conjunctions of modernism and ethnography in the 1920s and 1930s through the work of Zora Neale Hurston Zitkala Sa and others Later sections demonstrate how contemporary writers including Ishmael Reed and Leslie Silko deal with the revaluation of traditional beliefs as spiritual resources against a background of New Age spirituality and postmodern conceptions of racial and ethnic identity The Rise of Contemporary Spiritualism Anne Kalvig, 2016-10-04 Talking to the dead and communication with the other side is often presented as a taboo in an increasingly technological and medically advanced world However practices of spiritualism and mediumship continue to remain popular and in high demand within contemporary Western societies This book analyses the practices of today's mediums who insist on standing at the threshold between life and death interpreting signs and passing on communications and asks how such concepts and practices are perceived by contemporary society Using first hand material gathered from alternative fairs mediumistic congresses sances and interviews with both practitioners and

clients as well as thorough textual analysis Anne Kalvig provides a clear overview of the various forms of consumption of mediumship in Western society and places these within a socio cultural religious and historical context She also raises questions as to the controversies surrounding spiritualism and its representation and relationship with popular culture and the media This book will be of interest to researchers in the field of sociology religious studies folklore media studies and anthropology as well as to anyone interested in the upsurge of contemporary spiritualism psychic phenomena and the paranormal

Light ,1881 **The Great Book of Magical Art, Hindu Magic and East Indian Occultism** Lauron William De Laurence,1915 **Articulate Necrographies** Anastasios Panagiotopoulos,Diana Espírito Santo,2019-07-16 Going beyond the frameworks of the anthropology of death *Articulate Necrographies* offers a dramatic new way of studying the dead and their interactions with the living Traditional anthropology has tended to dichotomize societies where death speaks from those where death is silent the latter is deemed scientific and

the former religious or magical The collection introduces the concept of necrography to describe the way death and the dead create their own kinds of biographies in and among the living and asks what kinds of articulations and silences this in turn produces in the lives of those affected

The Modern Spirit of Asia Peter van der Veer,2013-10-27 A comparative look at religion and spirituality in postcolonial China and India The Modern Spirit of Asia challenges the notion that modernity in China and India are derivative imitations of the West arguing that these societies have transformed their ancient traditions in unique and distinctive ways Peter van der Veer begins with nineteenth century imperial history exploring how Western concepts of spirituality secularity religion and magic were used to translate the traditions of India and China He traces how modern Western notions of religion and magic were incorporated into the respective nation building projects of Chinese and Indian nationalist intellectuals yet how modernity in China and India is by no means uniform While religion is a centerpiece of Indian nationalism it is viewed in China as an obstacle to progress that must be marginalized and controlled The Modern Spirit of Asia moves deftly from Kandinsky s understanding of spirituality in art to Indian yoga and Chinese qi gong from modern theories of secularism to histories of Christian conversion from Orientalist constructions of religion to Chinese campaigns against magic and superstition and from Muslim Kashmir to Muslim Xinjiang Van der Veer an outspoken proponent of the importance of comparative studies of religion and society eloquently makes his case in this groundbreaking examination of the spiritual and the secular in China and India
