Witton Davies, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work **Magic in the Ancient Eastern Mediterranean** Nina Nikki, Kirsi M.J.

Valkama, 2020-12-14 Magic in the Ancient Eastern Mediterranean Cognitive Historical and Material Perspectives brings together articles with the shared conviction that the category of magic remains useful in religious studies and provides new insights to biblical and related texts and artifacts Historically magic has been considered in both scholarly and popular discourse to be questionable obscure and potentially subversive 19th century scholars of religion viewed magical beliefs and practices as primitive and inferior compared to Judeo Christian forms of worship which were considered true religion More recently the category has been defended especially by scholars of the cognitive science of religion who find it useful for delineating a set of beliefs and practices fundamental to all forms of religion The volume joins current scholarship in refraining from using the concept as an othering device and in arguing that it can still serve as a helpful analytical tool In addition to analyzing the discourse on magic in both ancient literature and modern scholarship the articles provide individual examples of how literary and material culture attest to the existence of magical beliefs and practices in sources from the Ancient Near East to the Byzantine Period The book is divided into three parts The contributions in the first part approach magic from the theoretical perspective of cognitive studies ritual studies and cultural evolution while the rest of the book focuses on how magic and magicians are understood in ancient sources The second part discusses a specific set of textual material dealing with blessings and curses The third part of the volume discusses the world of various destructive celestial beings from which one and one s loved ones had to be defended as well as the multitude of protective beings such as angels

Journal of American Folklore , 1925 Jewish Magic and Superstition Joshua Trachtenberg, 2012-10-08 Alongside the formal development of Judaism from the eleventh through the sixteenth centuries a robust Jewish folk religion flourished ideas and practices that never met with wholehearted approval by religious leaders yet enjoyed such wide popularity that they could not be altogether excluded from the religion According to Joshua Trachtenberg it is not possible truly to understand the experience and history of the Jewish people without attempting to recover their folklife and beliefs from centuries past Jewish Magic and Superstition is a masterful and utterly fascinating exploration of religious forms that have all but disappeared yet persist in the imagination The volume begins with legends of Jewish sorcery and proceeds to discuss

beliefs about the evil eye spirits of the dead powers of good the famous legend of the golem procedures for casting spells the use of gems and amulets how to battle spirits the ritual of circumcision herbal folk remedies fortune telling astrology and the interpretation of dreams First published more than sixty years ago Trachtenberg's study remains the foundational scholarship on magical practices in the Jewish world and offers an understanding of folk beliefs that expressed most eloquently the everyday religion of the Jewish people

Biblical Demonology Merrill F. Unger, 1994-04-15 The supreme merit of Biblical Demonology is that it holds closely to the Word of God It will remain for many years to come the standard treatment of biblical demonology Dr Wilbur M Smith

Prayer, Magic, and the Stars in the Ancient and Late Antique World Scott Noegel, Joel Walker Walker, 2010-11-01 In the religious systems of ancient Mesopotamia Egypt and the Mediterranean gods and demigods were neither abstract nor distant but communicated with mankind through signs and active intervention Men and women were thus eager to interpret appeal to and even control the gods and their agents In Prayer Magic and the Stars in the Ancient and Late Antique World a distinguished array of scholars explores the many ways in which people in the ancient world sought to gain access to or in some cases to bind or escape from the divine powers of heaven and earth Grounded in a variety of disciplines including Assyriology Classics and early Islamic history the fifteen essays in this volume cover a broad geographic area Greece Egypt Syria Palestine Mesopotamia and Persia Topics include celestial divination in early Mesopotamia the civic festivals of classical Athens and Christian magical papyri from Coptic Egypt Moving forward to Late Antiquity we see how Judaism Christianity and Islam each incorporated many aspects of ancient Near Eastern and Graeco Roman religion into their own prayers rituals and conceptions Even if they no longer conceived of the sun moon and the stars as eternal or divine Christians Jews and Muslims often continued to study the movements of the heavens as a map on which divine power could be read The reader already familiar with studies of ancient religion will find in Prayer Magic and the Stars both old friends and new faces Contributors include Gideon Bohak Nicola Denzey Jacco Dieleman Radcliffe Edmonds Marvin Meyer Michael G Morony Ian Moyer Francesca Rochberg Jonathan Z Smith Mark S Smith Peter Struck Michael Swartz and Kasia Szpakowska Published as part of Penn State's Magic in History series Prayer Magic and the Stars appears at a time of renewed interest in divination and occult practices in the ancient world It will interest a wide audience in the field of comparative religion as well as students of the ancient world and late antiquity
