Achieving So Much With So Little Dr. Vincent N. Cefalu,2013-07 In this book my unedited autobiography I explain how with my pronounced limited academic ability I managed to utilize both positive and detrimental factors from my early childhood to my advantage in order to accomplish my ultimate success in life I discuss the many hardships and hurdles I encountered during my seemingly impossible educational path My eventual goal was also undoubtedly attributed to my life long ability of being able to over achieve and out perform Simply put I had to be subjected to many needless but necessary stressful situations along with a combination of other factors in order to obtain what seemed to be an unattainable goal Along with these factors and endless battles with Bipolar Illness I managed to convert these deterrents into an incredibly advantageous situation Even one of my decisions to quit medical school turned out to be a very important impetus in my eventual success In the second section of this book I explain the many functions procedures and powers of the Coroner's Office and detail the position of coroner that I held for fourteen years The purpose of this was to set the stage for my being able to describe and report in depth the many unusual and bizarre cases that I encountered during this time When things appear to be coming at you from all directions and your outlook appears quite gloomy and hopeless don't even think about giving up No matter how many destitute situations you find yourself in along the way stay persistent and keep trying because the eventual outcome may not be as predictable as everyone would like to think This is an autobiography of a rural physician and coroner of a mid sized Louisiana Parish who was able to accomplish one of the highest possible goals in spite of his self admitted limited academic ability Having been the oldest of nine siblings six of whom also became doctors he explains as to how he was forced to encounter numerous hardships and ever present challenges in order to be able to conquer a goal that seemed virtually impossible Dr Cefalu tells of how he managed to utilize both positive and detrimental factors from his early childhood to his advantage in order to accomplish his ultimate success in life Along with these factors many other constant struggles and endless battles with Bipolar Illness he somehow managed to convert these deterrents into an incredibly advantageous situation whereby his ability to over achieve and out perform would make up the difference Even one of his decisions to quit medical school turned out to be a very important impetus in his eventual success In the second section of this book he explains the many functions procedures and powers of the Coroner's Office and details the position of coroner that he held for fourteen years The purpose of this was to set the stage for his being able to describe and report in depth the many unusual and bizarre cases that he encountered during this time **Consular Reports** ,1896 **The Highlights**
