Focus on Religion in Central and Eastern Europe András Máté-Tóth,Gergely Rosta,2016-11-07 Different religious groups in Central and Eastern Europe influenced societies in the region after the fall of Communism and continue to play a crucial role in culture politics social networks and value transformations As part of the REVACERN Religion and Values in Central and Eastern Europe Research Network project supported by the EU Sixth Framework Program more than 70 researchers from 15 countries in the region analyzed and discussed the most important trends in values religions and religious communities and presented their findings in a comparative way They tested well known theories of secularization nationalism democracy and pluralism in the colorful region Central and Eastern Europe This book summarizes their most important findings in seven chapters addressing religion and its entanglements with geography values nationalism Orthodoxy education legal regulation civil society social networks new religious movements and new forms of religiosity Each chapter also provides a regional overview

Disruptive Religion Christian Smith,2014-07-16 Religion has long played a central role in many social and political movements Solidarity in Poland anti apartheid in South Africa Operation Rescue in the United States each of these movements is driven by the energy and sustained by the commitment of many individuals and organizations whose ideologies are shaped and powered by religious faith In many cases religious resources and motives serve as crucial variables explaining the emergence of entire social movements Despite the crucial role of religion in most societies this religious activism remains largely uninvestigated Disruptive Religion intends to fill this void by analyzing contemporary social movements which are driven by people and organizations of faith Upon a firm base of empirical evidence these essays also address many theoretical issues arising in the study of social movements and disruptive politics

Eastern Europe Bibliography ,1993 A selective work that documents the formative impact of the region's earlier history Includes reference aids and bibliographies general and descriptive histories of the land peoples and economies and works depicting intellectual and cultural life

Zionism and Revolution in European-Jewish Literature Laurel Plapp,2008 Zionism and Revolution in European Jewish Literature examines twentieth century Jewish writing that challenges imperialist ventures and calls for solidarity with the colonized most notably the Arabs of Palestine and Africans in the Americas Since Edward Said defined orientalism in 1978 as a Western image of the Islamic world that has justified

domination critics have considered the Jewish people to be complicit with orientalism because of the Zionist movement. However, the Jews of Europe have themselves been caught between East and West, both marginalized as the Orientals of Europe and connected to the Middle East through their own political and cultural ties. As a result, European Jewish writers have had to negotiate the problematic confluence of antisemitic and orientalist discourse. Laurel Plapp traces this trend in utopic visions of Jewish-Muslim relations that criticized the early Zionist movement in post-Holocaust depictions of coalition between Jews and African slaves in the Caribbean revolutions and finally in explorations of diasporic transnational Jewish identity after the founding of Israel. Above all, Plapp proposes that Jewish studies and postcolonial studies have much in common by identifying ways in which Jewish writers have allied themselves with colonized and exilic peoples throughout the world.

Christianity After Communism Niels C., Jr. Nielsen, 2018-03-08. Specialists from Europe and the US investigate the current and changing role of religion in post-communist Russia. Drawing upon Eastern Orthodox, Protestant, and Roman Catholic points of view, they examine the Russian religious attitudes, activities, and institutions and explore the ways in which religion will significantly impact emerging social and political questions there. The volume should be of use to scholars of Russian politics, society, and religion and for anyone interested in the emerging culture of the former Soviet Union and Eastern Europe.

Religion, Revolution and the Russian Intelligentsia 1900-1912 Christopher Read, 1979-06-17.

Faith-Based Organizations and Social Welfare Miguel Glatzer, Paul Christopher Manuel, 2020-08-18. This volume seeks to understand the role and function of religious-based organizations in strengthening associational life through the provision of social services, thereby legitimizing a new role for faith in the formerly secular public sphere. Specifically, we explore how a church in a postcommunist setting during periods of economic growth and recession in the wake of transitions to capitalism and with varied numbers of adherents might contribute to welfare services in a new political regime with freedom of religion. Put another way, what new pressures would be placed on the secular welfare state if religious organizations (Orthodox, Catholic, Protestant, Muslim, others) simply stopped offering their services? By examining public perceptions of the church, changing dynamics of religiosity, and church-state/civil society relations, the volume places these issues in context.
