The European Crisis of the 1590s Peter Clark, 2025-05-01 First published in 1985 The European Crisis of the 1590s now with a new preface by Peter Clark on the current literature on crisis and catastrophe investigates in depth for the first time the origin and scale of the critical problems of the 1590s and their impact on European society Among the contributors are many leading scholars working on European history during the sixteenth and seventeenth centuries The book is divided into two parts The first analyses the particular mesh of difficulties in different areas of Europe covering all the major countries England France Germany the Netherlands Spain and Italy The second part discusses more general issues such as the impact of war and the role of the state From a systematic comparative examination of one period of acute difficulty and upheaval we gain valuable insights into the general nature of the economic and social crises which recurred in the early modern era Important and vivid light is also shed on the long term social economic and institutional changes affecting European countries c 1550 c 1650 General findings are emphasised in the editorial introduction and in the wide ranging conclusion by J H Elliott which offers a powerful evaluation of the historical significance of the 1590s This volume will be essential reading for academics students and others interested in the economic social and political history of Britain and continental Europe during the sixteenth and seventeenth centuries It will also be valuable for all those working in the new

field of crisis and catastrophe The Rise and Fall of the Second Empire, 1852-1871 Alain Plessis, 1985 The Second Empire lasted longer than any French regime since 1789 yet most historical accounts of the government of Napoleon III have been overshadowed by the knowledge of its disastrous and tragic end As Professor Plessis shows in this detailed thematic study such an approach ignores the major social economic and political developments of a period that witnessed the gradual acceptance of universal suffrage the establishment of large scale industrial capitalism a massive improvement in communications and the birth of impressionism in art **Jules Breton, Painter of Peasant Life** Annette Bourrut Lacouture, Jules Breton, 2002-01-01 Jules Breton 1827 1906 known as one of the first peasant painters created beautiful scenes of rural French life and was a highly popular figure among the Salon artists of his era Taking his inspiration from his native Artois and from the landscapes of Brittany where he stayed for long periods he painted peasant women and men performing their daily activities meticulously observing their world and making it a place of peace and harmony During the second half of the nineteenth century rewards and official decorations were heaped upon him and his paintings were purchased not only by the emperor but also by collectors in America Britain and Ireland However Breton's work became eclipsed by the avant garde movements of the twentieth century and he was eventually forgotten This book now pays Breton the tribute that he deserves It traces the development of his career and the forces that influenced him from his childhood through his early training in Belgium and Paris to his years in Brittany The book presents and discusses a number of important paintings by Breton some of which have been almost unknown until now and it shows how they reflect the artist's social and humanitarian concerns as well as his painterly abilities **Buried Alive** Jan Bondeson, 2002 This text examines the medical historical and folklore literature on the subject of being buried alive and explores why fears of premature burial arose and whether they were warranted *The Anxious Triumph* Donald Sassoon, 2019-06-27 A magnum opus an accessible and genuinely global history This is a book for today and tomorrow Financial Times Capitalist enterprise has existed in some form since ancient times but the globalization and dominance of capitalism as a system began in the 1860s when in different forms and supported by different political forces states all over the world developed their modern political frameworks the unifications of Italy and Germany the establishment of a republic in France the elimination of slavery in the American south the Meiji Restoration in Japan the emancipation of the serfs in Tsarist Russia This book magnificently explores how after the upheavals of industrialisation a truly global capitalism followed For the first time in the history of humanity there was a social system able to provide a high level of consumption for the majority of those who lived within its bounds Today capitalism dominates the world With wide ranging scholarship Donald Sassoon analyses the impact of capitalism on the histories of many different states and how it creates winners and losers by constantly innovating This chronic instability he writes is the foundation of its advance not a fault in the system or an incidental by product And it is this instability this constant churn which produces the anxious triumph of his title To control or alleviate such anxieties it was necessary to create a national

community if necessary with colonial adventures to develop a welfare state to intervene in the market economy and to protect it from foreign competition Capitalists needed a state to discipline them to nurture them and to sacrifice a few to save the rest a state overseeing the war of all against all Vigorous argumentative surprising and constantly stimulating The Anxious Triumph gives a fresh perspective on all these questions and on its era It is a masterpiece by one of Britain s most engaging and wide ranging historians **Journal général de l'instruction publique et des cultes** ,1870 Pour une

histoire des Alpes, Moyen Age et Temps Modernes Jean-François Bergier,2024-10-28 The Alps as Professor Bergier shows in this selection of his work should not be considered an impassable barrier nor an isolated region but rather as an integral part of the history of Europe The lowlanders typical view of the mountains as fearful heights to be crossed and the image of those who lived there as existing in a delicate balance with nature are part only of the story These articles are particularly concerned with transalpine traffic and the different routes it took in response to changing circumstances in the lands to south and north and with the exploitation and use of mountain resources A number aim also to identify the particularities of the mountain way of life and its social and political organisation **Order and Compromise: Government Practices in**

Turkey from the Late Ottoman Empire to the Early 21st Century ,2015-02-17 Order and Compromise questions the historicity of government practices in Turkey from the late Ottoman Empire up to the present day It explores how institutions at work are being framed by constant interactions with non institutional characters from various social realms This volume thus approaches the state society continuum as a complex and shifting system of positions Inasmuch as they order and ordain state authorities leave room for compromise something which has hitherto been little studied in concrete terms By combining in depth case studies with an interdisciplinary conceptual framework this collection helps apprehend the morphology and dynamics of public action and state society relations in Turkey Contributors are Marc Aymes Olivier Bouquet Nicolas Camelio Nathalie Clayer Anouck Gabriela Corte Real Pinto Berna Ekal Beno t Fliche Muriel Girard Benjamin Gourisse S mb l Kaya No mi L vy Aksu lise Massicard Jean Fran ois P rouse Cl mence Scalbert Y cel Emmanuel Szurek and Claire Visier **French Xx**
