Rewriting The Language Of Politics Kisans In Colonial Bihar:

Rewriting the Language of Politics Arun Kumar, 2001 When Kisans Perceived Shifts In Focus Of Existing Power Relations In Everyday Life They Tried To Articulate The Responses Their Hopes And Frustrations And This Resulted In The Emergence Of Many Languages This Volume Is An Attempt To Comprehend The Political Languages Of The Kisans In Colonial Bihar

Government and Politics in Colonial Bihar, 1921-1937 Jawaid Alam, 2004-01-01 This Study Provides A Fairly Good Analysis Of Politics In Bihar During 1921 1937 The Nature Of The Congress Movement And The Articulation Of Communal Politics And The Incidence Of Communal Riots Are Critically Examined

Culture, Vernacular Politics, and the Peasants: India, 1889-1950, 2025-10-27 India's twentieth century struggle for political freedom was and remains an epic achievement in the human experience Quite apart from its global influence this is perhaps as familiar a story as it is remarkable given the legacy of Gandhi among others of that small generation of founders whose unique leadership roles are rightly considered to have been transformational in the achievement of freedom in 1947 and in the promulgation of the Constitution of January 1950 But it must then also be said that the roles of the founding leadership were balanced and in many ways defined by the people of India themselves primarily its peasants whether the generic masses of Gandhi's definition and direction or the independent and self aware peasants of the field It is this broader peasant story and particularly that of the deeply engaged peasants of the kisan andolan the peasant movement of the late 1920s and the 1930s that appears here in the words of Swami Sahajanand Saraswati It was their shared experience or as Sahajanand put it more pointedly and more accurately their common struggle In fact Sahajanand and the peasants had lived this history and the Swami recorded it for posterity in his 1952 Hindi memoir *Mera Jivan Sangharsh My Life Struggle* translated here for the first time by Walter Hauser and Kailash Jha Given Sahajanand's direct involvement in this history his representation of the peasant story from the perspective of the peasants amounts to a paradigm shift in how the lives of the peasants of India have been understood and represented over time either in politics or in scholarship The intimacy detail and ethnographic richness of peasant activism as conveyed by Sahajanand is simply unique This is true for many reasons not least because the peasants understood fully what their struggles and movement meant not only in social cultural and economic terms but equally so in political conceptual and ultimately in human terms It was their voice loud and clear and hence their history

Negotiating and Contesting Identities in Linguistic Landscapes Robert Blackwood, 2016-02-25 This collection represents contemporary perspectives on important aspects of research into the language in the public space known as the Linguistic Landscape LL with the focus on the negotiation and contestation of identities From four continents and examining vital issues across North America Africa Europe and Asia scholars with notable experience in LL research are drawn together in this the latest collection to be produced by core researchers in this field Building on the growing published body of research into LL work the fifteen data chapters test challenge and advance this sub field of sociolinguistics through their close examination of

languages as they appear on the walls and in the public spaces of sites from South Korea to South Africa from Italy to Israel from Addis Ababa to Zanzibar The geographic coverage is matched by the depth of engagement with developments in this burgeoning field of scholarship As such this volume is an up to date collection of research chapters each of which addresses pertinent and important issues within their respective geographic spaces

Peasants in India's Non-Violent Revolution Mridula Mukherjee,2004-09-22 In part one of this volume the political world of the peasants of Punjab is reconstructed capturing their struggles at a national level as well as at an individual one Part Two makes important interventions in the theoretical debates regarding the role of peasants in revolutionary transformation in the modern world The author argues that the association of revolution with large scale violence has resulted in the refusal to recognize the non violent yet revolutionary political practice of peasants in the Indian National Movement

Popular Translations of Nationalism Lata Singh,2012 This study on Bihar highlights the fact that nationalism was not a monolithic movement but was constituted of diverse facets and streams which unleashed a variety of protests Once people s desires and aspirations were linked to nationalism the movement developed its own rhythm and dynamics throwing up its own agenda Popular Translations of Nationalism Bihar 1920 1922 revisits the historiography on nationalism by moving beyond the binary of elite and subaltern nationalism and focuses on the complex nature of popular nationalism It also underscores the protests of the subordinate police an area which has so far remained unexplored By foregrounding the police s interface with nationalism and its varied trends the study problematizes both the accepted view of the state s subordinates as being effectively integrated with the colonial state and their identity as agents of the state The study also reveals that nationalism was not merely an attempt to eject the British nor was it simply a political struggle for power Rather it was also a hegemonic contestation with colonialism but one within which the counterhegemonic struggle of nationalism was also intertwined with the contest for hegemony within Indian society

Historical Disaster Experiences Gerrit Jasper Schenk,2017-03-20 Historical disaster research is still a young field This book discusses the experiences of natural disasters in different cultures from Europe across the Near East to Asia It focuses on the pre industrial era and on the question of similarities differences and transcultural dynamics in the cultural handling of natural disasters Which long lasting cultural patterns of perception interpretation and handling of disasters can be determined Have specific types of disasters changed the affected societies What have people learned from disasters and what not What adaptation and coping strategies existed Which natural societal and economic parameters play a part The book not only reveals the historical depth of present practices but also reveals possible comparisons that show globalization processes entanglements and exchanges of ideas and practices in pre modern times

Democracy against Development Jeffrey Witsoe,2013-11-05 Hidden behind the much touted success story of India s emergence as an economic superpower is another far more complex narrative of the nation s recent history one in which economic development is frequently countered by profoundly unsettling and often violent political movements In Democracy against Development

Jeffrey Witsoe investigates this counter narrative uncovering an antagonistic relationship between recent democratic mobilization and development oriented governance in India Witsoe looks at the history of colonialism in India and its role in both shaping modern caste identities and linking locally powerful caste groups to state institutions which has effectively created a postcolonial patronage state He then looks at the rise of lower caste politics in one of India's poorest and most populous states Bihar showing how this increase in democratic participation has radically threatened the patronage state by systematically weakening its institutions and disrupting its development projects By depicting democracy and development as they truly are in India in tension Witsoe reveals crucial new empirical and theoretical insights about the long term trajectory of democratization in the larger postcolonial world *Acts of Aid* Eleonor Marcussen, 2023-05-11 This socio political history on the aftermath of the 1934 Bihar Nepal earthquake explores disaster aid relief and reconstruction and the questions they give rise to about class communities and inequality The book traces disaster responses across the twentieth century in order to demonstrate how they were embedded in political processes transcending the event of the earthquake Aid relief and reconstruction mirrored political agendas and ideas that articulated both changes and continuities by the colonial state civil society and international organisations The impact of the earthquake and aid in its wake varied widely according to social groups ethnicity and gender in the aftermath By studying the effects of the earthquake on communities directly affected and society the author argues that we can come closer to an understanding of the role political social and cultural factors held in shaping resilience to natural disasters This title is also available as Open Access on Cambridge Core

Unearthing Gender Smita Tewari Jassal, 2012-03-28 This book analyzes the folk songs from the Bhojpuri speaking regions of North India to explore how ideas of gender caste and class are socially constructed transmitted questioned and reaffirmed through their performance
