Rhapsody In August:

Kurosawa Mitsuhiro Yoshimoto, 2000 This work will become not only the newly definitive study of Kurosawa but will redefine the field of Japanese cinema studies particularly as the field exists in the west **Akira Kurosawa** Eric San Juan, 2018-12-15 The career of acclaimed filmmaker Akira Kurosawa spanned more than five decades during which he directed more than thirty movies many of them indisputable classics *Rashomon* *Ikiru* *Seven Samurai* *The Hidden Fortress* *Throne of Blood* and *Yojimbo* among others During the height of his creative output Kurosawa became one of the most influential and well known directors in the world inspiring filmmakers like Steven Spielberg and George Lucas and movies such as *The Magnificent Seven* *The Good the Bad and the Ugly* and *Star Wars* In *Akira Kurosawa A Viewer's Guide* Eric San Juan provides a comprehensive yet accessible examination of the artist's entire cinematic endeavors From early films of the 1940s such as *Sanshiro Sugata* and *No Regrets for Our Youth* to Oscar winner *Dersu Uzala* the author helps readers understand what makes Kurosawa's work so powerful Each discussion includes a brief synopsis of the film an engaging analysis and thoughtful insights into the film's significance All of Kurosawa's works from 1943 to 1993 are analyzed here including the overlooked television documentary *Song of the Horse* produced in 1970 In addition to more than twenty photos *Akira Kurosawa A Viewer's Guide* provides rich discussions that will appeal to students of cinema as well as anyone who wants to learn more about Japan's greatest director **Directory of World Cinema: Japan** John Berra, 2010-06-01 From the revered classics of Akira Kurosawa to the modern marvels of Takeshi Kitano the films that have emerged from Japan represent a national cinema that has gained worldwide admiration and appreciation *Directory of World Cinema Japan* provides an insight into the cinema of Japan through reviews of significant titles and case studies of leading directors alongside explorations of the cultural and industrial origins of key genres As the inaugural volume of an ambitious series from Intellect documenting world cinema the directory aims to play a part in moving intelligent scholarly criticism beyond the academy by building a forum for the study of film that relies on a disciplined theoretical base It takes the form of an A-Z collection of reviews longer essays and research resources accompanied by fifty full colour film stills highlighting significant films and players The cinematic lineage of samurai warriors yakuza enforcers and atomic monsters take their place alongside the politically charged works of the Japanese New Wave making this a truly comprehensive volume **Akira Kurosawa and Modern Japan** David A. Conrad, 2022-04-26 The samurai films of legendary Japanese director Akira Kurosawa are set in the past but they tell us much about the present as do his crime stories romances military films medical dramas and art films His movies are beloved for their timeless protagonists and haunting vistas of old Japan but we haven't yet fully grasped everything they can teach us about modern Japan Kurosawa's films evolved as Japan redefined and reinvented itself from movies made for the wartime regime to those made amid the trials of American occupation From the lavish epics of the economic miracle years to searching masterpieces made with international assistance in a globalizing world Kurosawa's

movies responded to changing times This detailed study of all 30 of Kurosawa's films analyzes the links between the thrilling narratives onscreen and the equally remarkable events that occurred in Japan over his long productive career This book explores how Kurosawa's classics depict the political economic cultural sexual and environmental upheavals of a nation at the center of a turbulent century both directly and through period piece mythmaking

Producing Hiroshima and Nagasaki Yuko Shibata, 2018-08-31 National disciplinary and linguistic boundaries all play a role in academic study and nowhere is this more apparent than in traditional humanities scholarship surrounding the atomic bombing of Hiroshima and Nagasaki How would our understanding of this seminal event change if we read Japanese and Euro American texts together and across disciplines In *Producing Hiroshima and Nagasaki* Yuko Shibata juxtaposes literary and cinematic texts usually considered separately to highlight the connected divides in the production of knowledge on Hiroshima and Nagasaki shedding new light on both texts and contexts in the process Shibata takes up two canonical works American journalist John Hersey's account *Hiroshima* and French director Alain Resnais' avant garde film *Hiroshima Mon Amour* that are traditionally excluded from study in Japanese literature and cinema By examining Hersey's *Hiroshima* in conjunction with *The Bells of Nagasaki* Nagai Takashi and *Children of the A Bomb* Osada Arata both Japanese bestsellers Shibata demonstrates how influential Hersey's *Hiroshima* has been in forging the normative narrative of the hibakusha experience in Japan She also compares *Hiroshima Mon Amour* with Kamei Fumio's documentary *Still It's Good to Live* whose footage Resnais borrowed to depict atomic bomb victimhood Resnais' avant garde masterpiece she contends is the palimpsest of Kamei's surrealist documentary both blur the binaries between realist and avant garde representations Reading *Hiroshima Mon Amour* in its historical context enables Shibata to offer an entirely new analysis of Resnais' work She also delineates how Japanese films came to produce the martyrdom narrative of the hibakusha in the early postwar period *Producing Hiroshima and Nagasaki* allows us to trace the complex and entangled political threads that link representations of Hiroshima and Nagasaki reminding us that narratives and images deploy different effects in different places and times This highly original approach establishes a new kind of transnational and transpacific studies on Hiroshima and Nagasaki and raises the possibility of a comparative area studies to match the age of world literature

Hibakusha Cinema Mick Broderick, 2013-11-05 First Published in 1996 This collection of works is in response to American film scholar and long term resident of Japan Donald Richie's words The Japanese failure to come to terms with Hiroshima is one which is shared by everybody in the world today from over thirty years ago when responding to the Japanese subgenre of cinema which had dealt with the atom bombings of Hiroshima and Nagasaki Three decades on the question lingers does this appraisal remain valid *Hibakusha Cinema* is an attempt perhaps momentarily to reorient critical focus upon a rarely discussed yet important feature of Japanese cinema The essays collected here represent a mix of Japanese and western pan Pacific scholarship harnessing multidisciplinary methodologies ranging from close textual analysis archival and historical argument anthropological assessment literary and

film comparative analyses to psychological and ideological hermeneutics Unfitting Stories Valerie Raoul, Connie Canam, Angela D.
