Rhetoric In Intercultural Contexts:

Rhetoric in Intercultural Contexts Alberto Gonzalez, Dolores V. Tanno, 2000-05-17 Rhetoric in Intercultural Contexts confronts the challenges facing critics of rhetorical action when the focus of the study contains a mixture of cultural traditions and practices The contributors reflect on the limitations of monocultural critical approaches and put forward intercultural critical possibilities *The Rhetoric of Western Thought* James L. Golden, 2003 *Intercultural Rhetoric and Professional Communication: Technological Advances and Organizational Behavior* Thatcher, Barry, 2011-12-31 This book explores the theory and practice of rhetoric and professional communication in intercultural contexts providing a framework for translating localizing and internationalizing communications and information products around the world Provided by publisher *Ancient Non-Greek Rhetorics* Carol S. Lipson, Roberta A. Binkley, 2009-04-03 Ancient Non Greek Rhetorics contributes to the recovery and understanding of ancient rhetorics in non Western cultures and other cultures that developed independently of classical Greco Roman models Contributors analyze facets of the rhetorics as embedded within the particular cultures of ancient China Egypt Mesopotamia the ancient Near East more generally Israel Japan India and ancient Ireland Contemporary Perspectives on Rhetoric Sonja K. Foss, Karen A. Foss, Robert Trapp, 2014-04-04 The anniversary edition marks thirty years of offering an indispensable review and analysis of thinkers who have exerted a profound influence on contemporary rhetorical theory I A Richards Ernesto Grassi Cha m Perelman and Lucie Olbrechts Tyteca Stephen Toulmin Richard Weaver Kenneth Burke J rgen Habermas bell hooks Jean Baudrillard and Michel Foucault The brief biographical sketches locate the theorists in time and place showing how life experiences influenced perspectives on rhetorical thought The concise explanations of complex concepts are clear engaging insightful and highly accessible serving as an excellent primer for reading the major works of these scholars The critical commentary is carefully chosen to highlight implications and to place the theories within a broader rhetorical context Each chapter ends with a complete bibliography of works by the theorists Rhetoric in European Culture and Beyond Jiří Kraus , 2015-03-01 This book Rhetoric in European and World Culture defines the position of rhetoric in the cultural and educational systems from ancient times through the present It examines the decline of its importance in a period of rationalism and enlightenment presents the causes of why rhetoric reduced to a system of rhetorical tricks came to have negative connotations and explains why rhetoric in the 20th century was able to regain its position It demonstrates that the prestige of rhetoric sharply falls when it is reduced to a refined method for deceiving the public and increases when it is seen as a scientific discipline that is used throughout all of the fields of the humanities philosophy logic semiotics literary science linguistics the science of media and others In this sense rhetoric strives for universal recognition and the cultivation of rhetorical expression spoken and written including not only its production but also reception and interpretation In such a renaissance of interest rhetoric appears not merely as a guide to language skills but as a complex theoretical field examining human behaviour in social communication Chapters 1 9 describe

the development of rhetoric from its Greek Hellenic and Roman beginnings to rhetoric in the context of medieval Christian culture later during the periods of humanism Enlightenment baroque The final chapter is concerned with rhetoric in the 18th 19th and 20th centuries It takes into account geography including the history of rhetoric in France Spain Italy Germany England Scotland Poland Russia the Czech Lands Moravia Slovakia and from the 19th century in the United States The final chapter presents an answer to the question of whether corresponding systems of rhetorical knowledge have been formed beyond the borders of Mediterranean antiquity The selected examples of theoretical works on the art of speech from India the Middle East China Korea and Japan show that each language community forms its own concept theory and practice of persuasive and suggestive speaking behaviours Often such findings instead of being used as manuals for the stylization and presentation of speeches rather concentrate on analyzing written documents in which we can find not only specific categorical devices of the given culture as is the case with comments on the Vedic texts of ancient India but also tropes and figures characteristic of Greek and Roman rhetoric e g the Hebrew and Aramaic texts of the Old Testament

"Guiguzi," China's First Treatise on Rhetoric, 2016-08-19 When Gorgias Plato and Aristotle were discussing and defining rhetoric in ancient Greece many students in China including Sun Bin a descendent of Sun Tzu who wrote The Art of War were learning the techniques of persuasion from Guiguzi the Master of the Ghost Valley This pre Qin dynasty recluse provided the basis for what is considered the earliest Chinese treatise devoted entirely to the art of persuasion Called Guiguzi after its author this translation of the received text provides an

indigenous rhetorical theory and key persuasive strategies some of which are still used by those involved in decision making and negotiations in China today In Guiguzi China's First Treatise on Rhetoric Hui Wu and C Jan Swearingen present a new critical translation of this foundational work which has great historical significance for the study of Chinese rhetoric and communication and yet is little known to Western readers Wu's translation includes footnotes that incorporate both past and present scholarly commentary and is accompanied by a prefatory introduction that situates Guiguzi in the sociopolitical and cultural realities of ancient China and a glossary of rhetorical terms used in the treatise Swearingen presents a comparative study suggesting the similarities and differences between emerging Greek and Chinese rhetorics during the same period including the cultural contexts of warring states and emergent empires that surrounded each Guiguzi China's First Treatise on Rhetoric combines a new translation of a historically significant text with scholarly analysis and critical apparatus that will contribute to the emerging global understanding of Chinese rhetoric and communication
