Rhetoric Of Church And State

Robert Tarbell Oliver

Rhetoric Of Church And State:

The Rhetoric of Church and State Frederick Mark Gedicks, 1995 During the middle of the twentieth century the religiously informed communitarianism that had guided the Supreme Court's decisions regarding the relationship between church and state was partially displaced by a new secular individualist discourse In *The Rhetoric of Church and State* Frederick Mark Gedicks argues that this partial and incomplete shift is the key to understanding why the Court has failed and continues today to fail to provide a coherent doctrine on church state separation Gedicks suggests that the Supreme Court's inconsistent decisions mirror a divergence in American society between an increasingly secular public culture and the primarily devout private lives of the majority of Americans He notes that while the Court is committed to principles of secular individualism it has repeatedly endorsed government actions that violate those principles actions that would be far more justifiable under the discourse of religious communitarianism The impossibility of reconciling the two discourses leaves the Court no choice but to efface often implausibly the religious nature of practices it deems permissible Gedicks concludes that the road to a coherent religion clause doctrine lies neither in a return to religious communitarianism nor in its complete displacement by secular individualism but in a yet to be identified discourse that would attract popular support while protecting a meaningful measure of religious freedom

The Rhetoric of American Civil Religion Jason A. Edwards, Joseph M. Valenzano III, 2016-09-30 The tie that binds all Americans regardless of their

demographic background is faith in the American system of government This faith manifests as a form of civil or secular religion with its own core documents creeds oaths ceremonies and even individuals In *The Rhetoric of American Civil Religion Symbols Sinners and Saints* contributors seek to examine some of those core elements of American faith by exploring the proverbial saints sinners and dominant symbols of the American system *Rhetorics of Race and Religion on the Christian Right* Samuel P. Perry, 2019-11-20 As the first African American president Barack Obama faced unique challenges and obstacles when addressing issues of race While rhetorical attacks on the basis of race directed at Obama were not unexpected many of the most consistent racially motivated criticisms of Obama were associated with his religious identity The Jeremiah Wright controversy gave way to the birther and secret Muslim conspiracy theories while anxieties about Obama's identity proved particularly potent as modes of political attack in the context of the war on terror This book examines the ways in which those attacks often originated in the rhetoric of the Christian Right and the ways in which these theories circulated amongst the Christian Right Perry argues that the intersections of race and religion in American politics produced rhetoric that often caricatured Obama as un-American anti-Christian and an enemy of the state By exploring the arguments used to cultivate these characterizations and tracing the roots of conspiracies that worked to delegitimize Obama's religious identity through racial claims and stereotypes a clearer picture emerges of what is at stake when people can no longer separate religious convictions from political arguments *The Rhetoric of Cultural Dialogue* Jeffrey S. Librett, 2000 In this groundbreaking work the author effects the first extended rhetorical philosophical reading of the historically problematic relationship between Jews and Germans based on an analysis of texts from the Enlightenment through Modernism by Moses Mendelssohn Friedrich and Dorothea Schlegel Karl Marx Richard Wagner Friedrich Nietzsche and Sigmund Freud The theoretical underpinning of the work lies in the author's rereading in terms of contemporary rhetorical theory of the medieval tradition known as figural representation which defines the Jewish-Christian relation as that between the dead prefigural letter and the living fulfilled spirit After arguing that the German Enlightenment ultimately plays out the historical phantasm of a necessary Judaization of Protestant rationality the author shows that German Early Romanticism consists fundamentally in the attempt to solve the aporias raised by this impossible confrontation between Protestant spirit and Jewish letter In readings of Dorothea Schlegel Mendelssohn's daughter and her husband Friedrich Schlegel the author provides a new interpretation of the Neo-Catholic turn of later German Romanticism Further he situates the proleptic end and reversal of the project of Jewish emancipation in the two extreme versions of late nineteenth-century anti-Judaism those of Marx and Wagner here viewed as binary concretizations of a specifically post-Romantic paganized Protestantism Finally the author argues that twentieth-century Modernism as represented by Nietzsche and Freud renews if in a multiply ironic displacement the secret Judaizing tendencies of the Enlightenment Fascism and Communism both denigrate this Modernism which affirms the letter of language as quasi-synonymous with the force of temporality or anticipatory repetition that disrupts

all claims to the full presence of spirit The book ends with a note on recent debates about Holocaust memory

The Rhetoric of the New Political Documentary Thomas W Benson, Brian J Snee, 2008-05-23 The Rhetoric of the New Political Documentary explores the most visible and volatile element in the 2004 presidential campaign the partisan documentary film This collection of original critical essays by leading scholars and critics including Shawn J and Trevor Parry Giles Jennifer L Borda and Martin J Medhurst analyzes a selection of political documentaries that appeared during the 2004 election season The editors examine the new political documentary with the tools of rhetorical criticism combining close textual analysis with a consideration of the historical context and the production and reception of the films The essays address the distinctive rhetoric of the new political documentary with the films typically having been shot with relatively low budgets in video and using interviews and stock footage rather than observation of uncontrolled behavior The quality was often good enough and interest was sufficiently intense that the films were shown in theaters and on television which provided legitimacy and visibility before they were released soon afterwards on DVD and VHS and marketed on the Internet The volume reviews such films as Michael Moore's Fahrenheit 9/11 two refutations of Moore's film Fahrenheit 9/11 and Celsius 41.11 Unprecedented The 2000 Presidential Election and George W Bush Faith in the White House films that experimented with a variety of angles and rhetorics from a mix of comic disparagement and earnest confrontation to various emulations of traditional news and documentary voices The Rhetoric of the New Political Documentary represents the continued transformation of American political discourse in a partisan and contentious time and showcases the independent voices and the political power brokers that struggled to find new ways to debate the status quo and employ surrogate independents to create a counter-rhetoric

Separating Church and State Steven K. Green, 2022-03-15 Steven K Green renowned for his scholarship on the separation of church and state charts the career of the concept and helps us understand how it has fallen into disfavor with many Americans In 1802 President Thomas Jefferson distilled a leading idea in the early American republic and wrote of a wall of separation between church and state That metaphor has come down from Jefferson to twenty-first century Americans through a long history of jurisprudence political contestation and cultural influence This book traces the development of the concept of separation of church and state and the Supreme Court's application of it in the law Green finds that conservative criticisms of a separation of church and state overlook the strong historical and jurisprudential pedigree of the idea Yet arguing with liberal advocates of the doctrine he notes that the idea remains fundamentally vague and thus open to loose interpretation in the courts As such the history of a wall of separation is more a variable index of American attitudes toward the forces of religion and state Indeed Green argues that the Supreme Court's use of the wall metaphor has never been essential to its rulings The contemporary battle over the idea of a wall of separation has thus been a distraction from the real jurisprudential issues animating the contemporary courts
