

How Israel Justifies Its Occupation

The Rhetoric of Empire

ESSAY

By Amal Alhomsi

Rhetoric Of Empire

Daniel J. Kapust, Gary Remer

Rhetoric Of Empire:

The Rhetoric of Empire David Spurr, 1993 The white man's burden darkest Africa the seduction of the primitive such phrases were widespread in the language Western empires used to talk about their colonial enterprises How this language itself served imperial purposes and how it survives today in writing about the Third World are the subject of David Spurr's book a revealing account of the rhetorical strategies that have defined Western thinking about the non Western world Despite historical differences among British French and American versions of colonialism their rhetoric had much in common The Rhetoric of Empire identifies these shared features images figures of speech and characteristic lines of argument and explores them in a wide variety of sources A former correspondent for the United Press International the author is equally at home with journalism or critical theory travel writing or official documents and his discussion is remarkably comprehensive Ranging from T E Lawrence and Isak Dineson to Hemingway and Naipaul from Time and the New Yorker to the National Geographic and Le Monde from journalists such as Didion and Sontag to colonial administrators such as Frederick Lugard and Albert Sarraut this analysis suggests the degree to which certain rhetorical tactics penetrate the popular as well as official colonial and postcolonial discourse Finally Spurr considers the question Can the language itself and with it Western forms of interpretation be freed of the exercise of colonial power This ambitious book is an answer of sorts By exposing the rhetoric of empire Spurr begins to loosen its hold over discourse about and between different cultures

Rhetorics of empire Martin Thomas, Richard Toye, 2017-08-31 Stirring language and appeals to collective action were integral to the battles fought to defend empires and to destroy them These wars of words used rhetoric to make their case That rhetoric is the subject of this collection of essays exploring the arguments fought over empire in a wide variety of geographic political social and cultural contexts Why did imperialist language remain so pervasive in Britain France and elsewhere throughout much of the twentieth century What rhetorical devices did political leaders administrators investors and lobbyists use to justify colonial domination before domestic and foreign audiences How far did their colonial opponents mobilize a different rhetoric of rights and freedoms to challenge them These questions are at the heart of this collection Essays range from Theodore Roosevelt's articulation of American imperialism in the early 1900s to the rhetorical battles surrounding European decolonization in the late twentieth century

Cicero, Rhetoric, and Empire C. E. W. Steel, 2002-03-07 Cicero manipulated issues relevant to Rome's possession of an empire provincial extortion access to citizenship and the distribution of military commands in an important group of speeches the Verrines de imperio Cn Pompei pro Archia pro Flacco de provinciis consularibus and pro Balbo C E W Steel examines the speeches rhetorical techniques and aims in detail Cicero's presentation of empire concentrates on the power wielded by individuals at the expense of wider questions of administrative structures Thus the problems which arise in the running of an empire can be presented as the result of personal failings rather than endemic to the structures of government as questions of morality rather than of administration Steel argues that this concept

is fundamentally flawed The weakness cannot be explained simply as Cicero's lack of insight but as an inevitable consequence of the uses to which he puts oratory in his political career comparison with his contemporaries shows other leading figures producing much more radical approaches to the problems of empire

The Rhetoric of Empire Marilyn Blatt Young, 1969

Christianity and the Rhetoric of Empire Averil Cameron, 1991 Many reasons can be given for the rise of Christianity in late antiquity and its flourishing in the medieval world In asking how Christianity succeeded in becoming the dominant ideology in the unpromising circumstances of the Roman Empire Averil Cameron turns to the development of Christian discourse over the first to sixth centuries A D investigating the discourse's essential characteristics its effects on existing forms of communication and its eventual preeminence Scholars of late antiquity and general readers interested in this crucial historical period will be intrigued by her exploration of these influential changes in modes of communication The emphasis that Christians placed on language writing talking and preaching made possible the formation of a powerful and indeed a totalizing discourse argues the author Christian discourse was sufficiently flexible to be used as a public and political instrument yet at the same time to be used to express private feelings and emotion Embracing the two opposing poles of logic and mystery it contributed powerfully to the gradual acceptance of Christianity and the faith's transformation from the enthusiasm of a small sect to an institutionalized world religion

Heresy and Identity in Late Antiquity Eduard Iricinschi, Holger M. Zellentin, 2008 The papers collected in this volume shift the focus away from heretics and heresy to heresiological discourse by contextualizing the late antique Jewish and Christian groups that produced our extant literature The contributors to the volume draw from multiple literary corpora and genres bringing a variety of late antique perspective to explore the discursive construction of the Other They unravel ethnic identities and re create the multiple voices textured in the dialogue between the orthodox and heretical writers

BOOK JACKET

The Ciceronian Tradition in Political Theory Daniel J. Kapust, Gary Remer, 2021-01-26 Cicero is one of the most influential thinkers in the history of Western political thought and interest in his work has been undergoing a renaissance in recent years The Ciceronian Tradition in Political Theory focuses entirely on Cicero's influence and reception in the realm of political thought Individual chapters examine the ways thinkers throughout history specifically Augustine John of Salisbury Thomas More Machiavelli Montaigne Hobbes Locke Adam Smith and Edmund Burke have engaged with and been influenced by Cicero A final chapter surveys the impact of Cicero's ideas on political thought in the second half of the twentieth century By tracing the long reception of these ideas the collection demonstrates not only Cicero's importance to both medieval and modern political theorists but also the comprehensive breadth and applicability of his philosophy

John Chrysostom on Divine Pedagogy David Rylaarsdam, 2014 Contrary to the portrayals of Chrysostom as a theologically impaired moralizing sophist this book argues that his thinking is remarkably coherent when it is understood on his own terms and within his culture Chrysostom depicts God as a teacher of philosophy who adaptably guides people toward salvation Since the theme of divine adaptability influences every major area

of Chrysostom's thought tracing this concept provides a thorough introduction to his theology. It also explains at least in part several striking features of his homilies including his supposed inconsistencies, his harsh rhetoric and apparent political naivete, his intentionally abridged and exoteric theological discussions and his lack of allegiance to an Antiochene school. In addition to illuminating such topics, the concept of adaptability stands at one of the busiest intersections of Late Antique culture for it is an important idea found in rhetoric and discussions about the best methods of teaching philosophy. Consequently, adaptability is an ingredient in the classical project of *paideia* and Chrysostom is a Christian philosopher who seeks to transform this powerful tradition of formation. He gives his Christianized *paideia* a theological foundation by adapting and seamlessly integrating traditional pedagogical methods into his reading and communication of Scripture. David Rylaarsdam provides an in-depth case study of one prominent leader's attempt to transform culture by forming a coherent theological discourse that was adapted to the level of the masses.

The Fathers on the Bible Nicu Dumitrașcu, 2022-11-10

This book offers an overview of how the Church Fathers used and interpreted biblical texts. It brings together a range of different Christian confessional and social perspectives to explore the biblical basis and impact of their thinking. The contributors cover different ages and traditions with each chapter focusing on a specific individual and theme. The book takes an ecumenical approach to the relationship between the Church Fathers and Holy Scripture and fosters a better understanding of the relationship between Christian tradition and the Bible. It will be of interest to scholars of Christian theology, the history of Christianity, biblical studies and patristics.

Bridges in New Testament Interpretation Neil Elliott, Werner H. Kelber, 2018-04-30

The field of New Testament studies often appears splintered into widely different specializations and narrowly defined research projects. Nevertheless, some of the most important insights have come about when curious men and women have defied disciplinary boundaries and drawn on other fields of knowledge in order to gain a more adequate view of history. The essays in *Bridges in New Testament Interpretation* offer surveys of the current scholarly discussion in areas of New Testament and Christian origins where cross-disciplinary fertilization has been decisive and describe the role that interdisciplinary bridges, especially as led by Richard A. Horsley, have played. Topics include the socioeconomic history of Roman Palestine, the historical Jesus in political and media contexts, communication media, orality and social context in the study of Q, the Gospels in the context of oral culture, performance and social memory, reading Paul's letters in the context of Roman imperial culture, the narrativization of early Christianity in relation to the ancient media environment and the role of power in shaping our understanding of history as evident in people's history, the historical agency of subordinate classes and the role of public and hidden transcripts in contexts shaped by power relations. Essays also address the role of the interpreter as engaged with the social and political concerns of our time. The sum is even greater than the parts, presenting a powerful argument for the value of further exploration across interdisciplinary bridges.

This book delves into Rhetoric Of Empire. Rhetoric Of Empire is an essential topic that needs to be grasped by everyone, from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into Rhetoric Of Empire, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:

- Chapter 1: Introduction to Rhetoric Of Empire
- Chapter 2: Essential Elements of Rhetoric Of Empire
- Chapter 3: Rhetoric Of Empire in Everyday Life
- Chapter 4: Rhetoric Of Empire in Specific Contexts
- Chapter 5: Conclusion

2. In chapter 1, the author will provide an overview of Rhetoric Of Empire. The first chapter will explore what Rhetoric Of Empire is, why Rhetoric Of Empire is vital, and how to effectively learn about Rhetoric Of Empire.
3. In chapter 2, the author will delve into the foundational concepts of Rhetoric Of Empire. The second chapter will elucidate the essential principles that need to be understood to grasp Rhetoric Of Empire in its entirety.
4. In chapter 3, the author will examine the practical applications of Rhetoric Of Empire in daily life. The third chapter will showcase real-world examples of how Rhetoric Of Empire can be effectively utilized in everyday scenarios.
5. In chapter 4, the author will scrutinize the relevance of Rhetoric Of Empire in specific contexts. The fourth chapter will explore how Rhetoric Of Empire is applied in specialized fields, such as education, business, and technology.
6. In chapter 5, the author will draw a conclusion about Rhetoric Of Empire. The final chapter will summarize the key points that have been discussed throughout the book.

This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. It is highly recommended for anyone seeking to gain a comprehensive understanding of Rhetoric Of Empire.
