Book 6 Bernardino de Sahagún, 1969 **Rhetoric and Moral Philosophy** Bernardino de Sahagún, 1969 **Revelations of Character** Corinne Noirot-Maguire, Valérie M. Dionne, 2007 The untranslatable and intriguing notion of *ethos* mores goodness character etc contrasts in Ancient rhetoric with *pathos* and *logos* the other two *pisteis* or means of persuasion Rhetorical *ethos* is characterized by ambivalence is it essentially extra or intra discursive an effect of the soul or an effective simulacrum stable or circumstantial As a discursive image an artefact of speech *ethos* remains problematic in its legitimacy As shown in this volume Montaigne's readings of Ancient theories of *ethos* resonate in the *Essais* The rhetorical effectiveness of Plutarch and Socrates versus Brutus and Seneca for instance is assessed in terms of *ethos* and a revealing style Montaigne weighs rhetorical and ethical theories as he judges the writings of others stages

diverse types or characters and develops in his book his own notion of ethos paradoxical and dynamic changing as is our soul. A variety of ethos narrated or enacted are also examined. Stoic figures and philosophers, generals, courtiers, and honest men, Indians, tragic heroes and heroines among others. This collection of essays beyond Montaigne studies contributes to intellectual history and to rhetorical, ethical, and political inquiry for the early modern period and beyond. Montaigne's quest for more human and humane modes of expression and action can be better understood in light of the notion of ethos which raises issues of representation, subjectivity, social interaction, moral philosophy, politics, pragmatics, anthropology, and identity. The contributors to this volume offer fresh new voices in the art of conversation about the *Essais* as they explore the many ramifications of Montaigne's ethos and the manifold ethos he brings forth. Florentine codex Bernardino de Sahagún, 1976. *The Rhetoric of Morality and Philosophy* Seth Benardete, 1991. *Adam Smith* Stephen J McKenna, 2006. Before his famed career as moral philosopher and economist Adam Smith 1723-1790 was well known for a series of public lectures on rhetoric that he gave in Edinburgh and Glasgow. In this volume Stephen J McKenna provides the first book length treatment of Smith's rhetorical theory focusing on his theory of rhetorical propriety, the means by which effective communication is adapted to the variables of subject, audience, speaker or writer, purpose and moment, and the centrality of this concept to his thought. McKenna shows that Smith's contribution to the theory of rhetorical propriety offers insights into the interdisciplinarity of rhetoric, particularly its relation to ethics, and has practical implications for the ways we conceive of and conduct rhetorical discourse and education today. Florentine codex Bernardino de Sahagún, 1969. **Rhetorical Ethics and Internetworked Writing** James E. Porter, 1998. *Rhetorical Ethics and Internetworked Writing* develops rhetoric theory as a heuristic tool for addressing the new ethical and legal complexities cyberwriters and writing teachers face on the Internet and World Wide Web. Porter conceptualizes rhetoric as an ethical operation, first by examining the rhetoric/ethics relationship in classical and modern rhetoric, then by turning to postmodern ethics which revives a casuistic approach to ethics. In the second half of the book Porter considers special cases involving electronic discourse on the networks that challenge or undermine conventional print based law and ethics.
