Rhodos Und Helios Mythos Topos Und Kultentwicklung:

Rhodos und Helios Harald Zusanek, Sibylla Hoffmann, 1994 Schon in der Antike hielt Rhodos an seinen oft altert mlichen Traditionen fest Im Laufe der Untersuchung der Mythen und Grabungsfunde kristallisiert sich ein vorgriechischer Kult und dessen Kriterien unter der Dominanz der Frau heraus Die rhodische Kultentwicklung hingegen ist gekennzeichnet durch die Phasen der Deszendenz dieser Dominanz Im Zentrum der Studie steht Helios der Herrscher der Insel aber auch Athene als Gattin und Mutter der Korybanten Greek Myth and Western Art Karl Kilinski, 2013 This richly illustrated book examines the legacy of Greek mythology in Western art from the classical era to the present Tracing the emergence survival and transformation of key mythological figures and motifs from ancient Greece through the modern era it explores the enduring importance of such myths for artists and viewers in their own time and over the millennia that followed **Agenorid Myth in the ›Bibliotheca‹ of Pseudo-Apollodorus** Johanna Astrid Michels, 2022-11-21 The Bibliotheca of Pseudo Apollodorus perhaps the best known mythographic text stands out for its comprehensive aim and state of preservation The handbook has regularly been disregarded as a repository of standard myths or as a primary witness to archaic stories a reductive view at once underestimating and romanticizing the merits of the Bibliotheca This monograph unlocks the Bibliotheca as a literary work in its own right by offering the first systematic commentary on an essential selection the Cretan and Theban myths in Bibl III 1 56 and by presenting an in depth analysis of the text In so doing this volume closes a gap in current research from which a philological commentary is entirely missing The main part of the study focuses on various aspects of composition and organization by addressing structuring principles narratorial interventions and the author s method and sources It lays to rest persistent misconceptions about the representative character of the Bibliotheca s myths the author s merits and his source use all of which have divided the scholarship to this date In addition it provides an update on the author date purpose and readership text history and book division of the Bibliotheca Sol: Image and Meaning of the Sun in Roman Art and Religion, Volume II Steven E. Hijmans, 2024-04-02 With this analysis of Sol images Steven E Hijmans paints a new picture of the solar cult in ancient Rome The paucity of literary evidence led Hijmans to prioritize visual sources and he opens this study with a thorough discussion of the theoretical and methodological issues involved Emphasizing the danger of facile equivalencies between visual and verbal meanings his primary focus is Roman praxis manifest in for instance the strict patterning of Sol imagery These patterns encode core concepts that Sol imagery evoked when deployed and in those concepts we recognize the bedrock of Rome s understandings of the sun and his cult Case studies illustrate these concepts in action and the final chapter analyzes the historical context in which previous now discredited views on Sol could arise This is volume II of a two volume set **Synopsis** Andrew D. Dimarogonas, 1999-02-19 Lists the scholarly publications including research and review journals books and monographs relating to classical Hellenistic Biblical Byzantine Medieval and modern Greece The 11 indexes include article title and author books reviewed theses and dissertations books and authors journals

Religious Life in Late Classical and Hellenistic Rhodes
Juliane Zachhuber, 2024-07-10 The ancient state of Rhodes was famous for many things in the Hellenistic period it emerged as an economic powerhouse thanks to its strategic position on maritime trade routes its status further bolstered by its proud independence in an era of great kings and its cultural successes and heritage celebrated by contemporaries as well as later writers But what did this state look like on the inside and what social and religious forces contributed to its success This book explores the origins of the Rhodian state in the late fifth century BC a union born out of three separate city states Lindos Cameiros and Ialysos By digging deep into the abundant epigraphic culture that survives narratives emerge that tell the stories of these Rhodians and their communities Despite the political unification and the foundation of a famed and successful capital city Rhodes town the three old centres continued to exhibit distinctive and seemingly lively local religious cultures What these looked like and the question of whether they indicate cultic vitality rather than ossification is considered in detail by examining the local pantheons and the religious dynamics and interactions that characterised and shaped them Pulling together the diverse threads and local customs a diachronic religious history of Rhodes is sketched The role religion played in the social landscape of Hellenistic Rhodes is addressed through a thorough examination of priesthoods Finally providing a counterbalance to the institutional side of religion the lived experience of Rhodian religious associations is depicted The resulting picture offers a nuanced insight into the religious life and history of a Hellenistic city state
