Rhythm Lexi Eikelboom, 2018-08-17 Rhythm A Theological Category argues that as a pervasive dimension of human existence with theological implications rhythm ought to be considered a category of theological significance Philosophers and theologians have drawn on the category of rhythm patterned movements of repetition and variation to describe reality however the ways in which rhythm is used and understood differ based on a variety of metaphysical commitments with varying theological implications Lexi Eikelboom brings those implications into the open through using resources from phenomenology prosody and the social sciences to analyse and evaluate uses of rhythm in metaphysical and theological accounts of reality The analysis relies on a distinction from prosody between a synchronic approach to rhythm which observes the whole at once and considers how various dimensions of a rhythm hold together harmoniously and a diachronic approach which focuses on the ways in which time unfolds as the subject experiences it Based on an engagement with the twentieth century Jesuit theologian Erich Przywara alongside thinkers as diverse as Augustine and the contemporary philosopher Giorgio Agamben Eikelboom proposes an approach to rhythm that serves the concerns of theological conversation It then demonstrates the difference that including rhythm in such theological conversation makes to how we think about questions such as what is creation and what is the nature of the God creature relationship from the perspective of rhythm As a theoretical category capable of expressing metaphysical commitments yet shaped by the cultural rhythms in which those expressing such commitments are embedded rhythm is particularly significant for theology as a phenomenon through which culture and embodied experience influence doctrine [Music and Aesthetic Reality](#) Nick

Zangwill, 2015-06-05 In this volume Zangwill develops a view of the nature of music and our experience of music that foregrounds the aesthetic properties of music He focuses on metaphysical issues about aesthetic properties of music psychological issues about the nature of musical experience and philosophy of language issues about the metaphorical nature of aesthetic descriptions of music Among the innovations of this book Zangwill addresses the limits of literal description

generally and in the aesthetic case He also explores the social and political issues about musical listening which tend to be addressed more in continental traditions

The Corruption of Reality John F. Schumaker,2010-11-02 This book challenges many of the ideas in the three disciplines of religion hypnosis and psychopathology and paves the way for an exciting far reaching and unified theory of conscious and unconscious behavior Schumaker includes a historical and cross cultural analysis which shows how reality reconstruction takes place and outlines the shortcomings of current psychotherapeutic approaches

Being in Time to the Music David Ross,2008-12-18 Being in time to the music from the ground up is a work in phenomenology where this term is broadly defined comprehending Plato Heidegger Hegel and Marx The most direct referent is Hegel together with the theoretical revolution that he initiated with Phenomenology of Mind This text s more general purpose is to set the tone for a 21st communism based upon the idea of dancing with death assuming full responsibility for one s mortality and abandoning the self to love as the meaning of existence This dance is choreographed through my conversations with the above mentioned writers In conversing with them I aim to displace if not usurp them from the throne of honour which is nothing more than the authority borrowed from me By this I do not intend to deny completely their other to me character However they exist or even figure for me both in the sense of of count having importance as those that I read and by which I read myself They have borrowed my authority namely my

own potential to be an author So reading them is to re assume that borrowed authority The life of the reader to paraphrase Barthes begins with the death of the author The Rhythm of Being Raimon Panikkar,2013-04-01 Copyright date 2010 with the Gifford lectures as subtitle Telling Rhythm Amittai F. Aviram,1994 Provides a postmodern theory of poetry that sees rhythm as its essential quality *Process and Aesthetics* Ondřej Dadejík,Martin Kaplický,Miloš Ševčík,Vlastimil Zuska,2021-04-01 While Alfred North Whitehead did not dedicate any books or articles to aesthetics specifically aesthetic motifs permeate his entire philosophical opus Despite this aestheticians have devoted little attention to Whitehead most attempts to reconstruct Whitehead s aesthetics have come from process philosophers and even in that context aesthetics has never occupied a central position In this book four scholars of aesthetics provide another angle from which Whiteheadian aesthetics might be reconstructed Paying special attention to the notion of aesthetic experience the authors analyze abstraction versus concreteness immediacy vs mediation and aesthetic contextualism vs aesthetic isolationism For their interpretation of Whiteheadian aesthetics the concepts of creativity and rhythm are crucial Using these concepts the book interprets the motif of the processes by which experience is harmonized the sensation of the quality of the whole and directedness towards novelty The first chapter introduces Whitehead s philosophical method of descriptive generalization This method assumes that every philosophical system is based on a particular entry point We show that for Whitehead this entry point was aesthetics Chapter Two compares Whitehead and Dewey s philosophies to show that both viewed aesthetic experience in terms of complex rhythms this helps us better understand the differences and the continuities between everyday experience and art Chapter Three compares Whitehead s ideas with those of Henri Bergson showing the way art reveals the form of immediate experience and how the aesthetic experience of art relates to truth The final chapter details the processes that constitute aesthetic experience in a narrower sense analyzing aesthetic experience from the perspective of the types of abstractive processes it involves and the complex types of experience it produces **Flights in Dreams and Falls in Reality** George Shominov,2013-09-11 The author George Shominov was born in 1958 wrote a book based on his own long term experience the practical Yoga of Sleep and Dreams narrates about passing from simple dreams to Conscious Dreams further improvement of Consciousness and eliminating dual perception of Life esoteric philosophy
