Dangerous Women Elaine H. Kim, Chungmoo Choi, 2012-11-12 Dangerous Women addresses the themes of Korean nationalism and gender construction as well as various issues related to the colonialization and decolonialization of the Korean nation The contributors explore the troubled category of woman placing it in the specific context of a marginalized and colonized nation But Korean women are not merely configured here as metaphors for an emasculated and infantilized

homeland they are also shown to be products of a problematic gender construction that originates in Korea and extends even today to Korean communities beyond Asia Representations of Korean women still attempt to confine them to the status of either mother or prostitute Dangerous Women rectifies that construction offering a feminist intervention that might recuperate womanhood Wealth, Women, and God Miriam Adeney, Sadira Joy Tira, 2016-01-07 How to Flourish Spiritually and Economically in Tough Places The Arabian Gulf the wealthiest country in the world is located here as is the world s busiest airport Not many citizens are Christians Not much religious conversion is allowed Yet God s grace is at work through migrant women who share God s love with some of the country s most powerful people In this book you will find primary research not available anywhere else narrated in a highly readable style globalization diasporas and massive culture change Jesus women maids nurses pastors experiencing rape jail and the opportunity to mentor hundreds a guide for group Bible study and reflection at the end of each chapter These Gulf women s stories like those in the Bible teach lessons that apply to us in many countries *Male Daughters, Female Husbands* Professor Ifi Amadiume, 2015-03-12 In 1987 more than a decade before the dawn of queer theory Ifi Amadiume wrote *Male Daughters Female Husbands* to critical acclaim This compelling and highly original book frees the subject position of husband from its affiliation with men and goes on to do the same for other masculine attributes dislocating sex gender and sexual orientation Boldly arguing that the notion of gender as constructed in Western feminist discourse did not exist in Africa before the colonial imposition of a dichotomous understanding of sexual difference *Male Daughters Female Husbands* examines the structures in African society that enabled people to achieve power showing that roles were not rigidly masculinized nor feminized At a time when gender and queer theory are viewed by some as being stuck in an identity politics rut this outstanding study not only warns against the danger of projecting a very specific Western notion of difference onto other cultures but calls us to question the very concept of gender itself **Women in English Society, 1500-1800** Mary Prior, 2005-09-30 Provides a systematic analysis of various aspects of women s lives between 1500 and 1800 concentrating on detailed research into specific groups of women where it has been possible to build up a picture in some detail *Women and Wealth in Late Medieval Europe* T. Earenfight, 2010-03-15 The twelve essays in *Women and Wealth in Late Medieval Europe* re-examine the vexing issue of women money wealth and power from distinctive perspectives literature history architectural history using new archival sources The contributors examine how money and changing attitudes toward wealth affected power relations between women and men of all ranks especially the patriarchal social forces that constrained the range of women s economic choices Employing theories on gender culture and power this volume reveals wealth as both the motive force in gender relations and a precise indicator of other more subtle forms of power and influence mediated by gender **Ladies of the Ticker** George Robb, 2017-08-16 Long overlooked in histories of finance women played an essential role in areas such as banking and the stock market during the late nineteenth and early twentieth centuries Yet their presence sparked ongoing controversy Hetty

Green's golden touch brought her millions but she outraged critics with her rejection of domesticity Progressives like Victoria Woodhull meanwhile saw financial acumen as more important for women than the vote George Robb's pioneering study explores the financial methods accomplishments and careers of three generations of women Plumbing sources from stock brokers ledgers to media coverage Robb reveals the many ways women invested their capital while exploring their differing sources of information approaches to finance interactions with markets and levels of expertise He also rediscovers the forgotten women bankers brokers and speculators who blazed new trails and sparked public outcries over women's unsuitability for the predatory rough and tumble of market capitalism Entertaining and vivid with details Ladies of the Ticker sheds light on the trailblazers who transformed Wall Street into a place for women's work **Ancient Roman Women**

Brian Williams,2002-12-05 Looks at how women lived in ancient Roman times discussing marriage fashion and religion

Unmaking of the New Deal Left Landon R.Y. Storrs,2012-10-28 How Red Scare politics undermined the reform potential of the New Deal In the name of protecting Americans from Soviet espionage the post 1945 Red Scare curtailed the reform agenda of the New Deal The crisis of the Great Depression had brought into government a group of policy experts who argued that saving democracy required attacking economic and social inequalities The influence of these men and women within the Franklin D Roosevelt administration and their alliances with progressive social movements elicited a powerful reaction from conservatives who accused them of being subversives Landon Storrs draws on newly declassified records of the federal employee loyalty program created in response to claims that Communists were infiltrating the U S government to reveal how disloyalty charges were used to silence these New Dealers and discredit their policies Because loyalty investigators rarely distinguished between Communists and other leftists many noncommunist leftists were forced to leave government or deny their political views Storrs finds that loyalty defendants were more numerous at higher ranks of the civil

service than previously thought and that many were women or men with accomplished leftist wives Uncovering a forceful left feminist presence in the New Deal she also shows how opponents on the Right exploited popular hostility to powerful women and their supposedly effeminate spouses The loyalty program not only destroyed many promising careers it prohibited discussion of social democratic policy ideas in government circles narrowing the scope of political discourse to this day Through a gripping narrative based on remarkable new sources Storrs demonstrates how the Second Red Scare repressed political debate and constrained U S policymaking in fields such as public assistance national health insurance labor and consumer protection civil rights and international aid

Unequal Ageing in Europe G. Betti, F. Bettio, T. Georgiadis, P. Tinios, 2015-01-08 While much is known about the situation in the labour market in the form of gender pay and earnings gaps rather little is understood about their sequel in old age the gender pension gap Entering the world of pensions may well signal a step backwards as far as women's independence is concerned particularly in countries where women have earned economic independence in employment and are now being confronted by institutional frameworks presuming encouraging or even imposing dependence Unequal Ageing in Europe explores the gender pension gap across the member states of the European Union plus Iceland and Norway Employing microdata from the Survey of Income and Living Conditions EU SILC along with data from the Survey of Health Ageing and Retirement in Europe SHARE the authors derive key facts regarding pension inequality between women and men An intuitive indicator for a pension gender gap is derived and contrasted with equivalent indicators for pay and earnings gaps The authors explore European diversity in a number of dimensions and benchmark their findings against equivalent findings in the US

The Interpretation of Dreams Artemidorus, 2020-01-16 Dreams are products of the mind and do not come from any external source Artemidorus The Interpretation of Dreams *Oneirocritica* is the richest and most vivid pre Freudian account of dream interpretation and the only dream book to have survived complete from Graeco Roman times Written in Greek around AD 200 when dreams were believed by many to offer insight into future events the work is a compendium of interpretations of dreams on a wide range of subjects relating to the natural human and divine worlds It includes the meanings of dreams about the body sex eating and drinking dress the weather animals the gods and much else Artemidorus technique of dream interpretation stresses the need to know the background of the dreamer such as occupation health status habits and age and the work is a fascinating social history revealing much about ancient life culture and beliefs

and attitudes to the dominant power of Imperial Rome Martin Hammond's fine translation is accompanied by a lucid introduction and explanatory notes by Peter Thonemann which assist the reader in understanding this important work which was an influence on both Sigmund Freud and Michel Foucault

Reconceiving Women's Equality in China Lijun Yuan, 2005-01-01 According to the author the subordination of Chinese women continued under different models of sex equality in China in twentieth century In

Reconceiving Women's Equality in China Lijun Yuan discusses and assesses four models of women's equality: first the traditional Confucian view of women which advocates that women's role is to follow and support men; second the liberal feminist idea of formal equality for women introduced into China at the beginning of the twentieth century which is anti-Confucian and advocates women's equal rights in education, law, and employment; third Mao's view of women's equality in production calling for substantive equality between men and women; finally the idea of equal opportunity in the economic transformation in the post-Mao period, the revival of Confucianism in this period and its convergence with the declining status of women. According to Yuan, each of these models has a variety of problems in dealing with women's equality. However, she sees one common thread running through all of them: namely, lack of emphasis on empowering women to develop their own visions of equality. Ideologies imposed from the top down have rationalized the continuing subordination and exploitation of women, either blatantly Confucianism or more subtly Maoism. After exposing the common feature in their failure to reach the social ideal of women's equality, the author proposes a more democratic conception of women's equality that will allow ideals to continue changing as material circumstances change in different stages of social development. This book is a seminal work of research on the status of women in China during and after Mao's cultural revolution. It is essential to studies of Chinese society, politics, and religion as well as to women's studies and philosophy.
