## Richer By Far:

*The Handbook to Arizona* Richard Josiah Hinton, 1878      **The Expectations of Morality** Gregory Mellema, 2004 Moral expectation is a concept with which all of us are well acquainted Already as children we learn that certain courses of action are expected of us We are expected to perform certain actions and we are expected to refrain from other actions Furthermore we learn that something is morally wrong with the failure to do what we are morally expected to do A central theme of this book is that moral expectation should not be confused with moral obligation While we are morally expected to do everything we are obligated to do a person can be morally expected to do some things that he or she is not morally obligated to do Although moral expectation is a familiar notion it has not been the object of investigation in its own right In the early chapters Mellema attempts to provide a philosophical account of this familiar notion distinguish it from other types of expectations and show how it is possible to form false moral expectations Subsequent chapters explore the role of moral expectation in agreements between people analyze ways that people avoid moral expectation illustrate how groups can have moral expectations and view moral expectation in the context of our relationship with divine beings The final chapter provides insight into how moral expectation operates in people's professional lives      **Dry Goods Guide**, 1916      *The Far East* Emil Hannover, 1925      **Anarchist Communism** Peter Kropotkin, 2020-09-24 Everywhere you will find that the wealth of the wealthy springs from the poverty of the poor Fuelled by anger at injustice and optimism about humankind's ability to make a better truly communal society the anarchist writings of Peter Kropotkin have influenced radicals the world over from nineteenth century workers to today's activists One of twenty new books in the bestselling Penguin Great Ideas series This new selection showcases a diverse list of thinkers who have helped shape our world today from anarchists to stoics feminists to prophets satirists to Zen Buddhists      Money and the Kingdom of God Maurice A. Fety, 2002 Conventional wisdom holds that money and religion are mutually exclusive there's the popular maxim about money being the root of all evil and Jesus' admonitions about the difficulty of serving both God and Mammon or a rich man entering heaven But Maurice Fety notes that in Jesus' view money and the kingdom of God are intertwined He stresses the importance of good stewardship of God's creation and points out that what we do with our money is indelibly linked with faithful living      **Communism. Selections from Marx, Engels, Kropotkin, Lenin, Stalin, Trotsky** Karl Marx, Friedrich Engels, Peter Kropotkin, Vladimir Lenin, Joseph Stalin, Leon Trotsky, 2025-03-26 Communism is a left wing to far left sociopolitical philosophical and economic ideology within the socialist movement whose goal is the establishment of a communist society a socioeconomic order centered around common ownership of the means of production distribution and exchange that allocates products to everyone in the society Communist society also involves the absence of private property social classes money and the state Communists often seek a voluntary state of self governance but disagree on the means to this end This reflects a distinction between a more libertarian approach of communization revolutionary spontaneity and workers self management and a more vanguardist or
