treated overt displays of artistry with great suspicion and their influence is still alive in modern and contemporary constructions of literary and cultural history The Yongming poets who openly extolled sound and rhymes have been deemed the main instigators of a poetic trend toward the sensual Situating them within the court milieu of their day Meow Hui Goh asks a simple question What did shengse mean to the Yongming poets By unraveling the aural and visual experiences encapsulated in their poems she argues that their pursuit of sound and sight reveals a complex confluence of Buddhist influence Confucian value and new sociopolitical conditions Her study challenges the old perception of the Yongming poets and the common practice of reading classical Chinese poems for semantic meaning only **Treating Autoimmune**

**The Poetry of He Zhu (1052-1125)** Stuart Sargent, 2007-03-31 The Northern Song poet He Zhu is best known for his lyrics ci but also produced shi poetry of subtlety, wit, and feeling. This study examines the latter as a response to the options available to a late eleventh-century writer in the pentametrical and heptametrical forms of Ancient Verse, Regulated Verse, and Quatrains. Numerous comparisons are made with Su Shi, Huang Tingjian, Du Fu, and other important writers. In a major advance over previous methodologies, the author uses a clear system of metrical notation to show how sound patterns reveal the poet's artistic and emotional intentions. This innovation and the author's other meticulous explorations of He Zhu's artistry allow us to experience Chinese poetry as never before. From the reader's report, not just an excellent study of an individual poet but also a model of reading the language of classical Chinese poetry, opens up a world of interpretive territory heretofore seldom explored.
