coming Galactic Alignment of era 2012 promises a renewal of human consciousness Uncovers the galactic vision of Mayan Egyptian Greek and Vedic cosmologies The Galactic Alignment is a rare astronomical event that brings the solstice sun into alignment with the center of the Milky Way galaxy every 12 960 years Building on the discoveries of his book *Maya Cosmogenesis 2012* Jenkins demonstrates that the end date of 2012 does not signal the end of time but rather the beginning of a new stage in the development of human consciousness He recovers a striking common thread that connects the ancient cosmological insights of the Maya not only to Egyptian thought and Vedic philosophy but also to the diversity of humankind's metaphysical traditions ranging from Celtic sacred topography and Medieval alchemy to the Kabbalah and Islamic astrology His work presents us with a groundbreaking synthesis of lost wisdom once common to ancient cosmologies that will help us understand the significance of this transformative cosmic milestone *The Power of Stars* Bryan E. Penprase, 2010-10-17

What are some of the connections that bind us to the stars How have these connections been established And how have people all around the world and throughout time reacted to the night sky the sun and moon in their poetry mythology rituals and temples This book explores the influence of the sky on both ancient and modern civilization by providing a clear overview of the many ways in which humans have used the stars as an ordering principle in their cultures and which today still inspire us intellectually emotionally and spiritually The book explores constellation lore from around the world celestial alignments of monuments and temples both from ancient and modern civilizations and the role the sky has played in the cultures of the Greek Egyptian Babylonian Native American Chinese Mayan Aztec and Inca Models of the universe from each of these cultures are described clearly and each culture's explanation of the stars planets and other celestial objects are described The roots of astronomy and astrology are presented with original imagery and reproductions of ancient manuscripts that portray the structure of the physical universe as conceived by a diverse array of human cultures over the centuries Our own scientific Big Bang cosmology and the origin of stars and elements are discussed in a philosophical context to explore how we as modern people learn about the Universe and incorporate the findings of science into our world views A concluding chapter provides a summary of modern science's effort to unlock the celestial secrets from the sky and from past civilizations and what these answers mean for us today *The Heavenly Writing* Francesca Rochberg, 2004-09-27

In antiquity the expertise of the Babylonians in matters of the heavens was legendary and the roots of both western astronomy and astrology are traceable in cuneiform tablets going back to the second and first millennia BC The Heavenly Writing first published in 2004 discusses the place of Babylonian celestial divination horoscopy and astronomy in Mesopotamian intellectual culture Focusing chiefly on celestial divination and horoscopes it traces the emergence of personal astrology from the tradition of celestial divination and the use of astronomical methods in horoscopes It further takes up the historiographical and philosophical issue of the nature of these Mesopotamian celestial sciences by examining elements traditionally of concern to the philosophy of science without sacrificing the ancient methods goals and interests to a modern image of science This book

will be of particular interest to those concerned with the early history of science *A History of Ancient Mathematical Astronomy* O. Neugebauer, 2012-12-06 From the reviews This monumental work will henceforth be the standard interpretation of ancient mathematical astronomy It is easy to point out its many virtues comprehensiveness and common sense are two of the most important Neugebauer has studied profoundly every relevant text in Akkadian Egyptian Greek and Latin no matter how fragmentary With the combination of mathematical rigor and a sober sense of the true nature of the evidence he has penetrated the astronomical and the historical significance of his material His work has been and will remain the most admired model for those working with mathematical and astronomical texts D Pingree in *Bibliotheca Orientalis* 1977 a work that is a landmark not only for the history of science but for the history of scholarship HAMA *History of Ancient Mathematical Astronomy* places the history of ancient Astronomy on a entirely new foundation We shall not soon see its equal N M Swerdlow in *Historia Mathematica* 1979 **Astrological Comments** John M. Hansen, 2010-03-25 This book includes a number of comments concerning astrological information I have found valuable in both business and in domestic life Many of these articles are revisions of articles previously published in the AFA Bulletin
