## L'univers Des Bronzes:

L'univers des bronzes et des fontes ornementales Yves Devaux, 1978-01-01 T00:00:00+01:00 Cet ouvrage est une réédition numérisée d'un livre paru au XX<sup>e</sup> siècle désormais indisponible dans son format d'origine **Zinc Sculpture in America, 1850-1950** Carol A. Grissom, 2009 Introduced in the United States as a new material for statuary in the mid nineteenth century zinc has properties that allowed replication at low cost It was used to produce modestly priced serial sculpture displayed throughout the nation on fountains public monuments and war memorials Imitative finishes created the illusion of more costly bronze stone or polychrome wood This first comprehensive overview of American zinc sculpture is interdisciplinary engaging aspects of art history popular culture local history technology and art conservation Included is a generously illustrated catalogue presenting more than eight hundred statues organized by type trade figures and Indians gods and goddesses fountain figures animals famous men military figures firemen cemetery memorials and religious subjects The compilation of data on these statues will be valuable to scholars filling the current void in research libraries The author's experience as a conservator will also make this an essential resource for historic preservationists seeking to repair statues now damaged by years of outdoor exposure This book has 555 illustrations 354 of which are in color Carol Grissom is Senior Objects Conservator at the Smithsonian's Museum Conservation Institute **"Sculptors and Design Reform in France, 1848 to 1895"** Claire Jones, 2017-07-05 Challenging distinctions between fine and decorative art this book begins with a critique of the Rodin scholarship to establish how the selective study of his oeuvre has limited our understanding of French nineteenth century sculpture The book's central argument is that we need to include the decorative in the study of sculpture in order to present a more accurate and comprehensive account of the practice and profession of sculpture in this period Drawing on new archival sources sculptors and objects this is the first sustained study of how and why French sculptors collaborated with state and private luxury goods manufacturers between 1848 and 1895 Organised chronologically the book identifies three historically situated frameworks through which sculptors attempted to validate themselves and their work in relation to industry industrial art decorative art and objet d'art Detailed readings are offered of sculptors who operated within and outside the Salon including Simon Chéret Carrier Belleuse and Rodin and of diverse objects and materials from Sevres vases to pewter plates by Desbois and furniture by Barbedienne and Carabin By contesting the false separation of art from industry Claire Jones's study restores the importance of the sculptor manufacturer relationship and of the decorative to the history of sculpture *Catalogue des bronzes antiques de la Bibliothèque Nationale* Ernest Babelon, Adrien Blanchet, Bibliothèque nationale (France), 1895 **Romanesque Sculpture** Millard Fillmore Hearn, 1885 **Bronze et or** Hellas et Roma (Genève), Geneva (Switzerland).
