exploring Lynch's many influences to tell the full story of how he worked, created, thought, and lived. *The Naked And The Undead* Cynthia Freeland, 2018-03-05 Horror is often dismissed as mass art or lowbrow entertainment that produces only short-term thrills. Horror films can be bloody, gory, and disturbing, so some people argue that they have bad moral effects, inciting viewers to imitate cinematic violence or desensitizing them to atrocities. In *The Naked and the Undead: Evil and the Appeal of Horror*, Cynthia A. Freeland seeks to counter both aesthetic disdain and moral condemnation by focusing on a select body of important and revealing films demonstrating how the genre is capable of deep philosophical reflection about the existence and nature of evil, both human and cosmic. In exploring these films, the author argues against a purely psychoanalytic approach and opts for both feminist and philosophical understandings. She looks at what it is in these movies that serves to elicit specific reactions in viewers and why such responses as fear and disgust are ultimately pleasurable. The author is particularly interested in showing how gender figures into screen presentations of evil. The book is divided into three sections: *Mad Scientists and Monstrous Mothers*, which looks into the implications of male rationalistic scientific technology gone awry; *The Vampire's Seduction*, which explores the attraction of evil and the human ability or inability to distinguish active from passive subject from object and virtue from vice; and *Sublime Spectacles of Disaster*, which examines the human fascination with horror spectacle. This section concludes with a chapter on graphic horror films like *The Texas Chainsaw Massacre*. Written for both students and film enthusiasts, the book examines a wide array of films, including *The Silence of the Lambs*, *Repulsion*, *Frankenstein*, *The Fly*, *Dead Ringers*, *Alien*, *Bram Stoker's Dracula*, *Interview with the Vampire*, *Frenzy*, *The Shining*, *Eraserhead*, *Hellraiser*, and many others. *David Lynch* Colin Odell, Michelle Le Blanc, 2007-10-28 Internationally renowned David Lynch is America's premier purveyor of the surreal, an artist whose work in cinema and television has exposed the world to his highly personalized view of society. Examining Lynch's entire body of work, from the cult surrealism of his debut feature *Eraserhead* to his latest mystery *Inland Empire*, this book considers the themes, motifs, and stories behind his incredible works. In Lynch's world, the mundane and the fantastical collide often with terrifying consequences. It is a place where the abnormal is normal, the respectable becomes sinister, where innocence is lost, redemption gained at a terrible price, and where there's always music in the air. From the deserts of a distant world to an ordinary backyard at the breakneck speed of *Lost Highway* or the sedate determination of *The Straight Story*, readers will experience amateur sleuths, messiahs, giants, and dwarves, chanteuses, psychopaths, cherry pie, and damn fine coffee. *David Lynch* David Lynch, 2011 Sketches, watercolours, or simple doodles, this vast collection, carefully conserved by David Lynch since his adolescence and regularly used by him as a source of inspiration, offers a unique glimpse into the artist's creative process. **Transcendence and Film** David P. Nichols, 2019-05-23 In this edited collection of essays, ten experts in film philosophy explore the importance of transcendence for understanding cinema as an art form. They analyze the role of transcendence for some of the most innovative film directors: David Cronenberg, Karl Theodor Dreyer, Federico Fellini, Werner

Herzog Stanley Kubrick David Lynch Terrence Malick Yasujiro Ozu and Martin Scorsese Meanwhile they apply concepts of transcendence from continental philosophers like Alain Badiou Gilles Deleuze Martin Heidegger Michel Henry Edmund Husserl Karl Jaspers S ren Kierkegaard Maurice Merleau Ponty Friedrich Nietzsche and Jean Paul Sartre Each of the ten chapters results in a different perspective about what transcendence means and how it is essential to film as an art medium Several common threads emerge among the chapters The contributors find that the limitations of human existence are frequently made evident in moments of transcendence so as to bring characters to the margins of their assumed world At other times transcendence goes immanent so as to emerge in experiences of the surprising nearness of being as though for a radical intensification of life Film can also exhibit ciphers of transcendence whereby symbolic events open us to greater realizations about our place in the world Lastly the contributors observe that transcendence occurs in film not simply from isolated moments forced into a storyline but in a manner rooted within an ontological rhythm peculiar to the film itself

The Solaris Effect Steven Dillon, 2010-01-01 What do contemporary American movies and directors have to say about the relationship between nature and art How do science fiction films like Steven Spielberg's A.I. and Darren Aronofsky's represent the apparent oppositions between nature and culture wild and tame Steven Dillon's intriguing new volume surveys American cinema from 1990 to 2002 with substantial descriptions of sixty films emphasizing small budget independent American film Directors studied include Steven Soderbergh Darren Aronofsky Todd Haynes Harmony Korine and Gus Van Sant as well as more canonical figures like Martin Scorsese Robert Altman David Lynch and Steven Spielberg The book takes its title and inspiration from Andrei Tarkovsky's 1972 film Solaris a science fiction ghost story that relentlessly explores the relationship between the powers of nature and art The author argues that American film has the best chance of aesthetic success when it acknowledges that a film is actually a film The best American movies tell an endless ghost story as they perform the agonizing nearness and distance of the cinematic image This groundbreaking commentary examines the rarely seen bridge between select American film directors and their typically more adventurous European counterparts Filmmakers such as Lynch and Soderbergh are cross cut together with Tarkovsky and the great French director Jean Luc Godard in order to test the limits and possibilities of American film Both enthusiastically cinephilic and fiercely critical this book puts a decade of U.S. film in its global place as part of an ongoing conversation on nature and art Storytelling in Film and Television Kristin Thompson, 2003 Derided as simple dismissed as inferior to film famously characterized as a vast wasteland television nonetheless exerts an undeniable apparently inescapable power in our culture The secret of television's success may well lie in the remarkable narrative complexities underlying its seeming simplicity complexities Kristin Thompson unmasks in this engaging analysis of the narrative workings of television and film After first looking at the narrative techniques the two media share Thompson focuses on the specific challenges that series television presents and the tactics writers have devised to meet them tactics that sustain interest and maintain sense across multiple plots and subplots and in

spite of frequent interruptions as well as weeklong and seasonal breaks Beyond adapting the techniques of film Thompson argues television has wrought its own changes in traditional narrative form Drawing on classics of film and television as well as recent and current series like Buffy the Vampire Slayer The Sopranos and The Simpsons she shows how adaptations sequels series and sagas have altered long standing notions of closure and single authorship And in a comparison of David Lynch s Blue Velvet and Twin Peaks she asks whether there can be an art television comparable to the more familiar art cinema

The Rebirth of Suspense Rick Warner, 2024-09-17 Typically films are suspenseful when they keep us on the edge of our seats when glimpses of a turning doorknob a ticking clock or a looming silhouette quicken our pulses Exemplified by Alfred Hitchcock s masterworks and the countless thrillers they influenced such films captivate viewers with propulsive plots that spur emotional investment in the fates of protagonists Suspense might therefore seem to be a curious concept to associate with art films featuring muted characters serene landscapes and unrushed rhythms in which plot is secondary to mood and tone This ambitious and wide ranging book offers a redefinition of suspense by considering its unlikely incarnations in the contemporary films that have been called slow cinema Rick Warner shows how slowness builds suspense through atmospheric immersion narrative sparseness and the withholding of information causing viewers to oscillate among boredom curiosity and dread He focuses on works in which suspense arises where the boundaries between art cinema and popular genres such as horror thriller science fiction and gothic melodrama become indefinite including Chantal Akerman s La captive Apichatpong Weerasethakul s Memoria Jonathan Glazer s Under the Skin Kelly Reichardt s Night Moves Lucrecia Martel s Zama Kiyoshi Kurosawa s Creepy and David Lynch s Twin Peaks The Return Warner investigates the pivotal role of sound in generating suspense and traces how the experience of suspense has changed in the era of digital streaming The Rebirth of Suspense develops a fresh theory history typology and analysis of suspense that casts new light on the workings of films across global cinema
