**Authenticity and Authentication of Heritage** Deepak Chhabra, 2021-05-27 Authenticity and Authentication of Heritage presents an assimilation of chapters that critically address some of the key emerging areas associated with authenticity It presents a variety of inspiring pieces of work that range from host guest authentication and intangible heritage to knowledge transfer processes authenticating heritage in fairy tale settings authenticity and anxiety in the smell of death and life understanding the boundaries of authenticity nostalgia sustainability marketing destination competitiveness examining affective connotations of authenticity and their contribution towards optimizing hedonic and eudaimonic well being during times of disruption The contentious concept of authenticity continues to be valorised in heritage tourism This scholarly initiative seeks to broaden the discursive parameters of authenticity and identify power mechanisms that shape the way authenticity is produced marketed and consumed This is an attempt to share contemporary views on how the contemporary notions of authenticity are derived interpreted applied processed and legitimised in local and global contexts Furthermore the significant relationship between health and authenticity is explored To put it simply this pandemic has significantly halted the way people connect with their cultural resources and seek authenticity within their inner selves and the outside realms in the heritage tourism system Heightened sense of global consciousness is a call to polish our authentic selves and elevate above inauthenticity or moral hypocrisy So is

authenticity an evolving story or is it a story of floating immobility Who can tell the story and who decides what elements to fossilise How can existentialist authenticity and self authentication promote moral selving and well being of the self and the society Many questions like these have emerged in recent literature and this book uses conceptual empirical and theoretical explorations to identify and engage with such inquiries The chapters in this book except for the concluding chapter were originally published as a special issue of the Journal of Heritage Tourism

**Unlocking the Love-Lock** Ceri Houllbrook, 2021-01-13 Explores the worldwide popularity of the love lock as a ritual token of love and commitment by considering its history symbolism and heritage This is an eminently enjoyable and thorough investigation of a popular phenomenon through the lens of heritage and folk tradition Sara De Nardi Western Sydney University A padlock is a mundane object designed to fulfil a specific and secular purpose A contemporary custom has given padlocks new significance This custom is love locking where padlocks are engraved with names and attached to bridges in declaration of romantic commitment This custom became popular in the 2000s and its dissemination was rapid geographically unbound and highly divisive with love locks emerging in locations as diverse as Paris and Taiwan New York and Seoul Melbourne and Moscow From the introduction I was distractedly perusing the photo frame aisle my eyes skimming the generically sentimental stock pictures of happy families smiling at the camera pretty landscapes cute pets and couples walking hand in hand when I came across one that jumped out at me I recognised the image instantly as a photograph of love locks the padlocks that had been appearing en masse on bridges and other public structures on a global scale since the early 2000s And having been researching the custom known as lovelocking for about five years at that point it was with a peculiar sense of pride that I realised love locks had accomplished the status of a stock image

that weighed a ton or more roamed the earth These great beasts or megafauna lived on every habitable continent and on many islands With a handful of exceptions all are now gone What caused the disappearance of these prehistoric behemoths No one event can be pinpointed as a specific cause but several factors may have played a role Paleomammalogist Ross D E MacPhee explores them all examining the leading extinction theories weighing the evidence and presenting his own conclusions He shows how theories of human overhunting and catastrophic climate change fail to account for critical features of these extinctions and how new thinking is needed to elucidate these mysterious losses Along the way we learn how time is determined in earth history how DNA is used to explain the genomics and phylogenetic history of megafauna and how synthetic biology and genetic engineering may be able to reintroduce these giants of the past Until then gorgeous four color illustrations by Peter Schouten re create these megabeasts here in vivid detail [Det gyldne kompas 3 - Ravkikkerten](#) Philip Pullman, 2016-10-31 Lyra er forsvundet og Will befinder sig alene i et uvejsomt og stormfuldt bjergområde To engle kommer til ham og beder ham følge med dem nordpå til Lord Asriel's fæstning hvor et slag af kosmiske dimensioner er under opsejling Men Will nægter at adlyde dem for han har kun én tanke i hovedet Han må finde Lyra Og det viser sig at være en stærk udfordring end han havde forestillet sig **Essential Guide to Neurodegenerative Disorders** Wael Mohamed, 2024-11-24 Handbook of Neurodegenerative Disorders Mechanism Diagnostic and Therapeutic Advances provides a comprehensive review on the current biomedical studies aimed at identifying the underlying causes of neurodegeneration This book reviews the most recent developments in molecular and cellular processes altered during neurodegeneration Divided into four parts the first covers the mechanism of cell death in neurodegeneration The second section reviews the recent progress in gene and gene products in neurodegeneration including Huntington's disease Parkinson's disease Friedreich's ataxia and spinal muscular atrophy The final sections cover the current and future diagnostic techniques of neurodegenerative disorders along with therapeutic approaches Reviews big data and neurodegeneration disorders including gene mapping Examines the structural basis of protein assembly into amyloid filaments in neurodegenerative disease Covers the progress and challenges of pharmacotherapy of neurodegenerative disorders [Transforming Sport and Physical Cultures through Feminist Knowledges](#) Simone Fullagar, Emma Rich, Adele Pavlidis, Cathy van Ingen, 2021-07-13 Transforming Sport and Physical Cultures through Feminist Knowledges contributes new perspectives on the entanglement of digital and physical cultures more than human relations post and decolonial ways of knowing and how onto epistemologies of sport come to matter These perspectives are explored through a diverse array of topics including the embodiment of netball through Feminist Physical Cultural Studies pregnant embodiment and implications of the postgenomic turn posthumanist perspectives on women's negotiation of affective body work and an autoethnographic account of how masculinity materialises through football the mediation of gendered subjectivity through the digital physical cultures of cycling as well as how decolonial and postcolonial approaches identify the gendered and racialised relations of power in sport for development and football campaigns aimed at

Lemos, 2002 This is the first full and up to date survey of Aegean archaeology at the beginning of the Iron Age late eleventh and tenth centuries BC since Snodgrass's classic *The Dark Age of Greece* 1971 These crucial 150 years in the development of ancient Greek society are known as the Protoegeometric period after the characteristic pottery which was commonly in use in the Aegean The book offers a detailed account of old and new discoveries with chapters on pottery metal finds burial customs and architectural remains and how to use them to understand the social and political structure of the society This analysis of the material culture of the period covers not only well known sites such as Athens and Lefkandi but also other less familiar regions many of which are discussed in English for the first time In addition Dr Lemos examines a number of specific issues such as relative and absolute chronology the introduction of iron technology in the Aegean and the use of handmade pottery and jewellery The archaeological record is also used to suggest interpretations of the social and political structure of the society cult practices and the use of Homer in understanding the period The book challenges the description of the period from the collapse of the Mycenaean palace system to the formation of early Greek city states as the Dark Age of Greece Dr Lemos argues that some of the advances on socio economic structures towards the formation of states which were thought to belong to the eighth century BC might have started to develop much earlier in the course of the tenth century
