European Integration and Supranational Governance Wayne Sandholtz, Alec Stone Sweet, 1998-09-24 The European Union began in 1957 as a treaty among six nations but today constitutes a supranational polity one that creates rules that are binding on its 15 member countries and their citizens This majestic study confronts some of the most enduring questions posed by the remarkable evolution of the EU Why does policy making sometimes migrate from the member states to the European Union And why has integration proceeded more rapidly in some policy domains than in others A distinguished team of scholars lead by Wayne Sandholtz and Alec Stone Sweet offers a fresh theory and clear propositions on the development of the EU Combining broad data and probing case studies the volume finds solid support for these propositions in a variety of policy domains The coherent theoretical approach and extensive empirical analyses together constitute a significant challenge to approaches that see the EU as a straightforward product of member state interests power and bargaining This volume clearly demonstrates that a nascent transnational society and supranational institutions have played decisive roles in constructing the European Union

Cultures of Border

Control Ruben Zaiotti, 2011-04 In recent years a number of European countries abolished national border controls in favor of Europe's external frontiers. In doing so they challenged long established conceptions of sovereignty, territoriality and security in world affairs. Setting forth a new analytic framework informed by constructivism and pragmatism, Ruben Zaiotti traces the transformation of underlying assumptions and cultural practices guiding European policymakers and postnational Europe, shedding light on current trends characterizing its politics and relations with others. The book also includes a fascinating comparison to developments in North America where the United States has pursued more restrictive border control strategies since 9/11. As a broad survey of the origins, evolution and implications of this remarkable development in European integration, *Cultures of Border Control* will be of interest to students and scholars of international relations and political geography.

A Legal and Political Interpretation of Articles 224 and 225 of the Treaty of Rome Constantin Stefanou,Helen Xanthaki,2019-01-15 First published in 1997 Article 224 is one of the most powerful Articles of the Treaty of Rome allowing a member state to take unilateral measures and to suspend some or all its Treaty based obligations in times of what can loosely be described as serious internal turmoil or external threat It is for this reason that the very next Article of the Treaty Article 225 allows the Commission or a member state to challenge invocation of Art 224 before the European Court of Justice ECJ on grounds of improper use In practice the use of Art 224 by a member state presents multiple problems The obvious connection with defence and security issues has inhibited the ECJ which still has not given an authentic interpretation of this Article As the recent former Yugoslav Republic of Macedonia FYROM cases Greek referral for the embargo on FYROM indicate unless the use of Art 224 is blatantly flippant the ECJ is not in a position to challenge a member state s unilateral measures
