Damianopoulos,2012-02-14 Overturning the 20th century s prevalent view of the Macedonians Damianopoulos uses three domains of evidence historical documentation cognitive self descriptor reports and sociocultural features to demonstrate that the Macedonians are a unique non Slav non Greek ethnic identity The Macedonian Conflict Loring M. Danforth,2020-11-10 Greeks and Macedonians are presently engaged in an often heated dispute involving competing claims to a single identity Each group asserts that they and they alone have the right to identify themselves as Macedonians The Greek government denies the existence of a Macedonian nation and insists that all Macedonians are Greeks while Macedonians vehemently assert their existence as a unique people Here Loring Danforth examines the Macedonian conflict in light of contemporary theoretical work on ethnic nationalism the construction of national identities and cultures the invention of tradition and the role of the state in the process of building a nation The conflict is set in the broader context of Balkan history and in the more narrow context of the recent disintegration of Yugoslavia Danforth focuses on the transnational dimension of the global cultural war taking place between Greeks and Macedonians both in the Balkans and in the diaspora He analyzes two issues in particular the struggle for human rights of the Macedonian minority in northern Greece and the campaign for international recognition of the newly independent Republic of Macedonia The book concludes with a detailed analysis of the construction of identity at an individual level among immigrants from northern Greece who have settled in Australia where multiculturalism is an official policy People from the same villages members of the same families living in the northern suburbs of Melbourne have adopted different national identities The Macedonian Slavs in the Greek Civil War, 1944-1949 James Horncastle,2019-06-03 In this study of Macedonian Slavs in the Greek Civil War the author examines how their participation in the conflict and the attempts by other groups to manipulate them gave rise to modern issues that continue to affect politics in the region today The

Macedonian Question has confounded academics politicians and the people of the Balkans since the nineteenth century While the countries have resolved the territorial component of the Macedonian Question the critical and confusing question surrounding the ethnic and linguistic identity of the people of the region continues to be the source of international debate Part of the reason for this confusion is because the history of the Macedonian Question is shrouded in nationalist polemics The role of the Macedonian Slavs involvement in the Greek Civil War is particularly contentious and embedded in nationalist polemics which has impacted academic inquiry This book argues that the preponderance of Macedonian Slavs within the communist forces during the Greek Civil War influenced the actions of all the major actors involved and is a significant factor in shaping the modern Macedonian national identity *The Greek Paradox* Graham Allison, Kalypso Nicolaidis, 1997-01-07 As a bridge between the East and West a pole of stability in the Balkans and a Mediterranean crossroads Greece could play a significant role in the post Cold War world But Greece s performance in domestic and international policy falls short of this promise The essays in *The Greek Paradox* look at some of the reasons for this gap and suggest possible political and economic reforms The contributors both scholars and policymakers examine a range of contemporary issues in the Balkans and on NATO s southern flank The essays shed light on nation building political and economic development modernization and post Cold War international relations Contributors Graham T Allison Gianna Angelopoulos Daskalaki P Nikiforos Diamandouros Michael S Dukakis Misha Glenny Dimitris Keridis F Stephen Larrabee Kalypso Nicola dis Joseph S Nye Jr Alexis Papahelas Elizabeth Prodromou Monteagle Stearns Constantine Stephanopoulos Stavros B Thomadakis Basilios E Tsingos Loukas Tsoukalis Susan Woodward CSIA Studies in International Security **Country Reports on Human Rights Practices** ,1997 *A History of Macedonia* Nicholas Geoffrey Lemprière Hammond, Frank William Walbank, 1972 This volume carries the history of Macedonia through from the death of Philip II to the end of its existence as an independent state in 167 BC Its expansion in the reign of Alexander is one of the miracles of history An attempt is made to understand the internal sources of strength of the kingdom and the impact of Alexander s career upon the Macedonians the Greek states and the Balkan area It then goes on to examine the period of civil war which followed between the Macedonian generals each of them claiming to defend the monarchy After the death of Alexander IV the Macedonian Hellenistic kingdoms are viewed from the standpoint of Macedonia and the Greek mainland which remain the central topics of this three volume history The final phase is dominated by the wars with Rome recent discoveries have afforded new insights into Macedonia s contribution to the arts and into the structure and the institutions of this most remarkable of all the monarchic states Macedonia and Greece John Shea, 2016-03-18 With the breakup of the former Yugoslavia and a pending NATO membership bid an old conflict between Greece and Macedonia has taken on added significance for the international community Greece has vehemently argued particularly in the West that the name Macedonia was in fact Greek and that its use by this new nation in the Balkans portended Macedonia s expansionist ambitions The Macedonians bitterly disputed this noting that Alexander the

Great was a Macedonian and adducing many other fascinating and rational arguments Tensions were said to have been reduced by an interim agreement between the two countries but the attempted assassination of Macedonian president Kiro Gligorov in October 1995 has again heightened hostility in the area The genesis of the conflict is detailed here as well as the modern day events that have led many observers to believe that the area is a flashpoint for a major war greater than that in Bosnia

Conquest David Day,2012-10-01 In this bold sweeping book David Day surveys the ways in which one nation or society has supplanted another and then sought to justify its occupation for example the English in Australia and North America the Normans in England the Spanish in Mexico the Japanese in Korea the Chinese in Tibet Human history has been marked by territorial aggression and expansion an endless cycle of ownership claims by dominant cultures over territory occupied by peoples unable to resist their advance Day outlines the strategies violent and subtle such dominant cultures have used to stake and bolster their claims by redrawing maps rewriting history recourse to legal argument creative renaming use of foundation stories tilling of the soil colonization and of course outright subjugation and even genocide In the end the claims they make reveal their own sense of identity and self justifying place in the world This will be an important book an accessible and captivating macro narrative about empire expansion and dispossession *Balkanismen heute* Thede Kahl,Michael Metzeltin,Helmut Wilhelm Schaller,2012

Lakes and Empires in Macedonian History James Pettifer,Miranda Vickers,2021-08-26 Lakes and Empires in Macedonian History Contesting the Waters tells the story of Psarades a lakeside village in Macedonian Greece on the shores of the Prespa lake This village which is in many ways a completely typical Greek settlement and yet remains unconventional in its way of life embodies the many contradictions of modern history and in exploring its roots James Pettifer and Miranda Vickers skilfully uncover the wider social cultural and political history of this lake region Drawing from oral testimonies and attentive to the construction of national histories this book considers how the development of international borders movement of people and role of national identities within imperial borderlands shaped Macedonia today What is more by centering the lakes and making use of an innovative environmental historical methodology Pettifer and Vickers offer the first environmental history of this multi ethnic borderland region shared by Greece North Macedonia and Albania The result is a nuanced and sophisticated transnational account of Macedonia from prehistory to the 21st century which will be essential reading for all Balkan scholars

From Linguistic Areas to Areal Linguistics Pieter Muysken,2008 From linguistic areas to areal linguistics explores language description and typology in terms of areal background presenting case studies in areal linguistics Some concern well established linguistic areas such as the Balkan other regions such as East Nusantara Indonesia and the Guapore Mamore Amazon regions have never before been studied in an areal perspective and yet other areas are involved in current debates The insight has gained ground that languages owe many of their characteristics to the languages they are in contact with over time Yet the nature of these areal influences remains a matter of debate Furthermore areas are often hard to define

Hence the title a shift from linguistic areas as concrete and circumscribed objects to a new way of doing linguistics areally. New findings include the observation that there may be many more language areas than previously recognized. The book is primarily directed at linguists working in descriptive comparative historical and typological linguistics. Since it covers linguistic areas from four continents it will have a wide appeal.

Making and Remaking the Balkans Robert C. Austin, 2019-01-01. With more than 25 years since the collapse of communism, the end of the wars, and billions of dollars in aid, the Balkans are still characterized by corruption, state capture, and decidedly unmodern states that are often either weak or authoritarian. Taking the contemporary Balkans as a starting point, *Making and Remaking the Balkans* studies the region's history combined with observations based on more than twenty years of field experience. Primarily concerned with current issues in the Balkans since 1989, this book explains why the region has endured such a prolonged and fraught transition to democracy and eventual membership in the European Union. The young and educated have largely left. Governmental crisis and economic stagnation is the norm, and much needed regional cooperation has been suppressed by renewed nationalism. Wars on corruption have proved to be largely rhetorical. *Making and Remaking the Balkans* offers a systematic study of the issues the entire region faces as it struggles to complete the European integration process at a time when the European Union faces bigger problems elsewhere.

The Macedonian Question and the Macedonians Alexis Heraclides, 2020-12-30. This book is a comprehensive and dispassionate analysis of the intriguing Macedonian Question from 1878 until 1949 and of the Macedonians and of their neighbours from the 1890s until today, with the two themes intertwining. The Macedonian Question was an offshoot of the wider Eastern Question, i.e. the fate of the European remnants of the Ottoman Empire once it dissolved. The initial protagonists of the Macedonian Question were Greece, Bulgaria, and Serbia, and a Slav speaking population inhabiting geographical Macedonia in search of its destiny, the largest segment of which ended up creating a new nation comprising the Macedonians, something unacceptable to its three neighbours. Alexis Heraclides analyses the shifting sands of the Macedonian Question and of the gradual rise of Macedonian nationhood, with special emphasis on the Greek, Bulgarian, and Serbian claims to Macedonia. 1870s-1919: the birth and vicissitudes of the most famous Macedonian revolutionary organization, the VMORO, and of other organizations. 1893-1940: the appearance and gradual establishment of the Macedonian nation from the 1890s until 1945. Tito's crucial role in Macedonian nationhood, cum federal status, the Greek-Macedonian name dispute. 1991-2018: including the skeletons in the cupboard, the deep-seated reasons rendering the clash intractable for decades, the final Greek-Macedonian settlement, the 2018 Prespa Agreement, the Bulgarian-Macedonian dispute. 1950-today and its ephemeral settlement in 2017, the issue of the Macedonian language and the Macedonian national historical narrative. The author also addresses questions around who the ancient Macedonians were and the fascination with Alexander the Great. This monograph will be an essential resource for scholars working on Macedonian history. Balkan
