**Chasing Little Dragons** Michael Farnum, 2018-09-26 Can an unintended out of body experience be just as real as your everyday physical consciousness or become even greater Are inter dimensional beings real or just the figment of some very overactive possibly psychotic imaginations Is it the Wonder Twins who need protection or do Mommy and Daddy and the world need protecting from them and their sometimes evil sidekick And who the heck is Mister Daddy Number Two and his gorgeous wife Find out all this and more in Chasing Little Dragons a Parents Guide to Dealing with Uniquely gifted Children

Marque and Reprisal Kenneth B. Moss, 2019-04-22 Letters of marque might suggest privateers of the Elizabethan era or the American Revolution But such conventions are duly covered in the US Constitution and the private military instruments they sanction are very much at work today in the form of mercenaries and military contractors A history of such practices up to the present day Marque and Reprisal by Kenneth B Moss offers unique insight into the role of private actors in military conflicts and the reason they are increasingly deployed in our day Along with an overview of mercenaries and privateers Marque and Reprisal provides a comprehensive history of the marque and reprisal clause in the US Constitution reminding us that it is not as arcane as it seems and arguing that it is not a license for all forms of undeclared war Within this historical context Moss explains why governments and states have sought control over warfare and actors and why private actors have reappeared in force in recent conflicts He also looks ahead to the likelihood that cyberwar will become an important venue for private warfare Moss wonders if international law will be up to the challenges of private military actors in the digital realm Is international law in fact equipped to meet the challenges increasingly presented in our day by such extramilitary activity A government makes no more serious decision than whether to resort to military force and war and when doing so Moss suggests it should ensure that such actions are accountable not on the sly and not decided in the marketplace Marque and Reprisal should inform future deliberations and decisions on that count **Machiavelli, with an introduction by**

**Henry Cust, M. P. ...** Niccolo Machiavelli, 1905 *Machiavelli in the British Isles* Alessandra Petrina, 2016-05-13 Machiavelli in the British Isles reassesses the impact of Machiavelli s *The Prince* in sixteenth century England and Scotland through the analysis of early English translations produced before 1640 surviving in manuscript form This study concentrates on two of the four extant sixteenth century versions William Fowler s Scottish translation and the Queen s College Oxford English translation which has been hitherto overlooked by scholars Alessandra Petrina begins with an overview of the circulation and readership of Machiavelli in early modern Britain before focusing on the eight surviving manuscripts She reconstructs each manuscript s history and the afterlife of the translations before moving to a detailed examination of two of the translations Petrina s investigation of William Fowler s translation takes into account his biography in order to understand the Machiavellian influence on early modern political thought Her study of the Queen s College translation analyses the manuscript s provenance as well as technical details including writing and paper quality Importantly this book

includes annotated editions of both translations which compare the texts with the original Italian versions as well as French and Latin versions With this volume Petrina has compiled an important reference source offering easy access to little known translations and shedding light on a community of readers and scholars who were fascinated by Machiavelli despite political or religious opinion Machiavelli: The Florentine history, translated into English by Thomas Bedingfield. anno 1595

### **Science Meets Politics: Machiavelli's Influence and the Birth of Political Science** Gábor Almási,2025-05-26

Machiavelli's early influence was more penetrating than has ever been believed and this book explains why. The surprising answer leads the reader into the depths of the history of science connecting Machiavelli's thought to new ways of thinking about experience, history, nature and politics. Machiavelli's works resonated with readers not merely because of the political and moral questions they raised and answered and this book argues that the ways in which Machiavelli engaged with these questions were of equal importance. His method reinforced the reader's own belief in the importance of an inductive and comparative approach which relied on facts and numbers drawn from history and experience. An impressive book that for a change measures Machiavelli's writings not against 21st century binary schemes but rather against the knowledge, categories and strategies of his 16th century contemporaries and successors. Navigating skillfully among texts and authors both well known and recondite, the author shows how the Florentine's ideas prompted and shaped a revolution in Western thought. William J. Connell, Professor of History, Seton Hall University. If you have ever wondered why Francis Bacon frequently quoted and lavished praise on Niccolò Machiavelli, this is the book for you. In it Gábor Almási situates the latter with regard to the science of his time and shows that he was read initially in Italy, then in France and finally in England as the exponent of an empiricism divorced from theology, metaphysics and morals as pertinent to the study of the natural world as it is to the study of politics. Paul A. Rahe, Charles O. Lee and Louise K. Lee Chair in the Western Heritage, Hillsdale College.

**The Wisdom of Niccolò Machiavelli** Niccolò Machiavelli,2013-07-01 Discover the true origins of what it means to be Machiavellian through the absorbing treatise *The Prince*. One of the first and foremost works on political philosophy, Machiavelli leaves morals and ideals behind and cuts right to the heart of what it means to take and hold on to power. Heavily immersed in the ruthless and cunning world of the Medicis and the Borgias, he was well placed to observe human nature and the practicalities of rule. A must read both for its historical interest and its relevance for the politicians, lawmakers and hapless members of the public of today.     Delphi Collected Works of Niccolò Machiavelli (Illustrated) Niccolò Machiavelli,2017-01-22 [www.delphiclassics.com](http://www.delphiclassics.com)     **4 Books by Niccolò Machiavelli** Niccolò Machiavelli,2013-03 4 Books by Niccolò Machiavelli: *The Art of War*, *The Prince*, *Discourses on the First Decade of Titus Livius*, *History of Florence and of the Affairs of Italy*.
