Management Principles for Health Professionals Joan Gratto

Liebler, Charles R. McConnell, 2020-02-26 Management Principles for Health Professionals is a practical guide for new or future practicing healthcare managers. The customary activities of the manager: planning, organizing, decision making, staffing, motivating, and budgeting are succinctly defined, explained, and presented with detailed examples drawn from a variety of health care settings. Students will learn proven management concepts, techniques, models, and tools for managing individuals or teams with skill and ease. The Eighth Edition continues to present foundational principles of management in the context of contemporary health care. With timely coverage of such topics as medical cost sharing, use of robots, ER by appointment, increased use of observation units, renewed use of flextime staffing, and scheduling use of social media on the job, and more, this thoroughly updated text addresses the latest trends and issues that today's health care manager is likely to encounter.

Principles of Data Management and Presentation John P. Hoffmann, 2017-07-03 Why research? Developing research questions. Data Principles of data management: Finding and using secondary data. Primary and administrative data. Working with missing data. Principles of data presentation: Designing tables for data presentations. Designing graphics for data presentations.

The Development and Management of Ambulatory Care Programs, **The AUPHA Manual of Health Services Management** Robert J. Taylor, Susan B. Taylor, 1994. With contributions from more than 30 authorities in the field, this reference covers topics varying from management techniques to strategic planning. To ownership and governance. To a department-by-department breakdown of health care facility support services.

Principles of Practice Management W.E. Fabb, John Fry, 2012-12-06. One of the few real and lasting benefits of international medical meetings is the opportunity to meet, talk, gossip, and get to know colleagues from other countries. So it was that we met, talked, and planned at WONCA World Organization of National Colleges and Academies and Academic Associations of General Practitioners Family Physicians meetings at Montreux and New Orleans. We realized that although we worked in different places and in different practices, primary health care was essentially the same the world over. Our roles, our problems, our clinical content, our challenges, and objectives were similar, whether we work in Europe, North America, Australasia, South Africa, or developing countries. With such similarities, we asked ourselves why not share our common experiences for mutual benefits. The question developed into an idea, and the idea into this book. We started by selecting what we considered were important topics, and then we invited friends and colleagues to join us in putting our experiences and beliefs from years of practice to readers from all over the world to demonstrate our common concerns and to learn from one another.
