Mansfield Forbes And His Cambridge:

Mansfield Forbes and His Cambridge Hugh Carey, 1984-10-18 This affectionate portrait of Mansfield Forbes illustrated with photographs reconstructs Forbes life and explores his other interests which included Scottish domestic architecture and modern art Mr Carey also uncovers alternative aspects of that vanished but still influential Cambridge from which many prominent figures have come and gone

The Physiology of the Novel Nicholas Dames, 2007-09-27 How did the Victorians read novels Nicholas Dames answers that deceptively simple question by revealing a now forgotten range of nineteenth century theories of the novel a range based in a study of human physiology during the act of reading He demonstrates the ways in which the Victorians thought they read and uncovers surprising responses to the question of what might have transpired in the minds and bodies of readers of Victorian fiction His detailed studies of novelcritics who were also interested in neurological science combined with readings of novels by Thackeray Eliot Meredith and Gissing propose a vision of the Victorian novel reader as far from the quietly immersed being we now imagine as instead a reader whose nervous system was addressed attacked andsoothed by authors newly aware of the neural operations of their public Rich in unexpected intersections from the British response to Wagnerian opera to the birth of speed reading in the late nineteenth century The Physiology of the Novel challenges our assumptions about what novel reading once did and still does to the individual reader and provides new answers to the question of how novels influenced a culture s way of reading responding and feeling

William Empson, Volume I John Haffenden, 2009-01-22 John Haffenden s acclaimed biography of William Empson 1906 1984 the foremost English literary critic of the twentieth century is now available in paperback An authoritative and compelling account and the first of two volumes exploring his remarkable life and work

Humphrey Jennings and British Documentary Film: A Re-assessment Philip C. Logan, 2016-05-13 Humphrey Jennings ranks amongst the greatest film makers of twentieth century Britain Although a relatively unknown figure to the wider public his war time documentaries are regarded by many including Lord Puttnam Lindsay Anderson and Mike Leigh as amongst the finest films of their time Groundbreaking both in terms of their technique and their interest in and respect for the everyday experiences of ordinary people these films are much more than mere government propaganda Instead Jennings work offers an unparalleled window into the British home front and the hopes fears and expectations of a nation fighting for its survival Yet until now Jennings has remained a shadowy figure with his life and work lacking the sustained scholarly investigation and reassessment they deserve As such film and social historians will welcome this new book which provides an up to date and thorough exploration of the relationships between Jennings life ideas and films Arguing that Jennings s film output can be viewed as part of a coherent intellectual exercise rather than just one aspect of the artistic interests of a wide ranging intellectual Philip Logan paints a much fuller and more convincing picture of the man than has previously been possible He shows for the first time exactly how Jennings s artistic expression was influenced by the fundamental intellectual social and

cultural changes that shook British society during the first decades of the twentieth century Combining biography social history and international artistic thought the book offers a fascinating insight into Jennings his work the wider British documentary film movement and the interaction between art and propaganda Bringing together assessments of his tragically short life and his films this book is essential reading for anyone with an interest in British cinema or the social history of Britain in the 1930s and 40s

English as a Vocation Christopher Hilliard, 2012-05-31 This book explores how a small circle of Cambridge literary critics turned into a movement that revolutionized the way English was taught and brought popular culture into classrooms The leader F R Leavis was a well known and controversial writer The focus of this book is not on Leavis but on the people who put his ideas into practice

Re-forming Britain Elizabeth Darling, 2007-01-24 Re forming Britain considers the nature and practice of architectural modernism in inter war Britain in a new light Bringing hitherto little considered protagonists and projects to the fore it argues that rather than being an imported idiom the new architecture in Britain formed part of an ongoing attempt to make a modern nation Spanning the period 1925 42 the book focuses on the key sites from and through which architectural modernism emerged in the UK Part one considers the main arena in which a will to modernize Britain developed in the 1920s In parts two and three the author documents contextualizes and explains how this modernizing will was given modernist form discussing the work of architects such as Wells Coates Maxwell Fry and Connell and Ward and their allied ventures with likeminded reformers in other fields These collaborations produced narratives of modernity buildings projects exhibitions and books through which the book argues modernist reformers were able to persuade politicians and those with influence upon them that modernism was the means to re form the nation Re forming Britain offers the first in depth analysis of well known modernist schemes such as Kensal House and the Pioneer Health Centre but also brings previously little studied or unknown activities to light This important work invites a new understanding of the nature of architectural modernism in inter war Britain and the ways in which it ultimately gave form to post war Britain
